This Note's For You David Allan,2015-01-20 This Note's For You talks of the people who created the campaigns with the songs we remember the most. From Coca-Cola to Chrysler, this book takes the reader behind the curtain of some of the best popular music in advertising campaigns of all time. It is little know fact that fog played a critical role in the "I'd Like to Teach the World to Sing" campaign and that while taping the "Lose Yourself " video, the choir had no idea Eminem would show up. Originally The Doors were to be in the Cadillac commercials, not Led Zeppelin, but one of the members of The Doors discovered that Cadillac made the Escalade and suddenly declined because he felt it was environmentally unfriendly. This Note's For You talks of the people who created the campaigns with the songs we remember the most. This collection of award-winning music in advertising campaigns is not available together anywhere else. It shows where this art in advertising form has been, where it is now, and provides the foundation for where it will go.

Technology Integration to Business John T. Yee,Seog-Chan Oh,2012-08-31 Today's global business environments drive companies to be more technology dependent, and to remain competitive, firms need to introduce or adopt a new technology to business. In order to achieve a successful integration with maximum return on investment, companies need a systematic approach that accommodates a comprehensive course of action of technology integration. Technology Integration to Business - Practical Methods and Case Studies suggests a business-driven holistic approach of technology integration that consists of several steps. First, companies should examine the current state, issues, benefits, and obstacles of technology integration in conjunction with their competitive business strategy and operational capability. Second, firms should investigate new, emerging business technologies as to how those technologies can contribute to improve the business. Third, with the technology integration needs identified, companies should complete preparatory tasks before actual implementation, such as, business process analysis, technology assessment, technology provider investigation, business case development, and cost-benefit analysis. Fourth, because the nature of technology integration project involves many stakeholders in global locations, firms should use effective project management knowledge from project initiation, through planning, execution, control, to close. Students will learn real-world technology integration processes in industry settings and become more prepared for industrial careers. Practitioners will find thorough procedures and methods that are useful in practice to improve business performance. Realistic examples for manufacturing, logistics, and supply chain management application domains give the reader practical implications for the methods presented.

The Fords Peter Collier,David Horowitz,2021-01-19 In The Fords: An American Epic, Peter Collier and David Horowitz tell the riveting story of three generations of Fords, a dramatic story of conflict between fathers and sons played out against the backdrop of America's greatest industrial empire. The story begins with the first Henry Ford, the mechanical wizard, tinkerer and "mad genius" who drove the automobile into the heart of American life and conquered the world with it. An American Original, by the end of his life he had become an embittered crank who so possessively loved the company he built that when his son, Edsel, tried to change it to suit the changing times, Henry destroyed him. It was left to Edsel's son Henry II to avenge him and save the Ford Motor Company in the postwar world. From the details of the first Henry's illicit affair and illegitimate son, to the life and loves of "Hank the Deuce" and his celebrated feud with Lee Iacocca, this is an engrossing account of a vital chapter in American history. The authors have added new material to this classic work, showing how Henry II's line lost out to the line of his brother William Clay Ford in the quest to control this most American of companies in the twenty-first century. In addition to The Fords, Peter Collier and David Horowitz are the authors of dynastic biographies of the Kennedys, Roosevelts, Rockefellers, and Fondas.
