Doing English in Asia Patricia Haseltine, Sheng-mei Ma, 2016-04-13 This edited collection examines the effect of globalization on the curriculum of Asian universities. As knowledge of the English language has increasingly been understood as necessary to excel in international business, a number of Asian universities have replaced the traditional study of English literature and culture with applied English or English for specified purposes. Contributors to this collection tackle the question of how teachers in Asia should balance the need for their students to understand English culture with the pressure to prepare students for employment in this changing environment.

The Other Hong Kong Report 1996 Mee Kau Nyaw, Si-Ming Li, 1996-11-30

Evaluation of the C. Y. Leung Administration Joseph Yu-shek CHENG, 2020-06-01 Did C. Y. Leung achieve his goals? Did he perform his duty to the Hong Kong people as their third Chief Executive? To answer these questions, this book presents a rational, research-based critique of the C. Y. Leung Administration (2012 - 2017). It is a sweeping and original publication that covers various aspects of governance, including politics, economics, healthcare, human rights, civil service, housing, urban planning, youth, and Legislative Council elections as well as Hong Kong's relationships with Taiwan, Mainland China, and Western countries. Written by a team of expert authors from various fields, this book is one of the first comprehensive academic discourses on the issues this administration faced while in office. The first chapter sets the tone of the book, with the subsequent chapters providing additional details confirming the general conclusions of the authors concerning the C. Y. Leung Administration. Written for scholars and community members interested in Hong Kong governance, this anthology presents a complex and comprehensive critique of one specific Chief Executive's period of influence and how his administration's policies still affect the Hong Kong community today.

The Sports Development of Hong Kong and Macau Brian Bridges, Marcus P. Chu, 2019-10-23

China's sports history and its contemporary role in the global sporting community have become well-known, but the sporting history and development of China's two Special Administrative Regions – Hong Kong and Macau – have not received the coverage they deserve either in their historical contexts or since the handovers of control to the People's Republic. By drawing on a multi-national group of scholars and practitioners, this volume makes a unique contribution to the understanding of sports development in greater China. The essays in this anthology examine the evolution of key sports, the hosting of sporting mega-events, the nexus of sports and politics, identity issues, and the

role of sporting diplomacy. The chapters provide not only an analysis of colonial legacies but also in-depth accounts of the challenges to and outcomes of sports development in Hong Kong after 1997 and Macau after 1999. The chapters in this book were originally published in various special issues of *The International Journal of the History of Sport*.

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China, the central government has the political will to control organized crime, which is seen as a national security threat. The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments. The development of prostitution, underground gambling and narcotics production has become so serious that the central government has to rely on anti-crime campaigns to combat these three evils. This book explores the specific role of government institutions and agencies, notably the police, in controlling organised and cross-border crime in Greater China. Drawing heavily on original empirical data, it compares the both the states of the People's Republic of China and Taiwan, as well as city-states Hong Kong and Macao. This region has become increasingly economically integrated, and human interactions have been enhanced through improved trade relations, tourism, and increased individual freedom. The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti-crime campaigns. It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political-criminal nexus. Focusing on regime capacity in crime control, regime autonomy from crime groups, and regime legitimacy in the fight against organized crime, this thought-provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly.

Short-Selling with the O'Neil Disciples Gil Morales, Chris Kacher, 2015-04-27 Leave the old paradigm behind and start safeguarding your portfolio *Short Selling with the O'Neil Disciples* is a guide to optimizing investment performance by employing the unique strategies put forth by William O'Neil. The authors traded these strategies with real money, then refined them to reflect changing markets and conditions to arrive at a globally-relevant short-selling strategy that helps investors realize maximum profit. Readers will learn how short selling recognizes the life-cycle paradigm arising from an economic system that thrives on 'creative destruction,' and has been mischaracterized as an evil enterprise when it is simply a single component in smart investing and money management. This informative guide describes the crucial methods that preserve gains and offset declines in other stocks

that make up a portfolio with more of an intermediate- to long-term investment horizon, and how to profit outright when markets begin to decline. Short-selling is the act of identifying a change of trend in a stock from up to down, and seeking to profit from that change by riding the stock to the downside by selling the stock while not actually owning it, with the idea of buying the stock back later at a lower price. This book describes the methods that make short-selling work in today's markets, with expert advice for optimal practice. Learn the six basic rules of short-selling Find opportunities on both the long and short sides of stocks Practice refined methods that make short-selling smarter Examine case studies that profitably embody these practices Investors able to climb out of the pessimistic, conspiratorial frame of mind that fixates on the negative will find that short selling can serve as a practical safeguard that will protect the rest of their portfolio. With clear guidance toward the techniques relevant in today's markets, *Short Selling with the O'Neil Disciples* is an essential read.

Tycoons in Hong Kong Tai Wei Lim, Xiaojuan Ping, 2016-07-21 This book seeks to survey the role of tycoons in Hong Kong's socio-political and socioeconomic developments. Summoned to Beijing just before the onset of the territory's longest social movement, it highlights the tycoons' symbolic intermediary role between Beijing's elite and the people of Hong Kong. Also investigated is the unwritten social contract between Beijing's elite and Hong Kong society – that the tycoons will be rewarded economically or left alone to conduct their business activities if they remain compatible with Beijing's policy directions (or at least remain neutral in contentious issues) and facilitate policy implementation if necessary. *Tycoons in Hong Kong* has three research objectives: first, in understanding the roles that tycoons play in Hong Kong, it is necessary to understand Beijing's crafted political and social spaces for Hong Kong's economic elites to exert their influence. Second, it examines the integrated roles that the tycoons play as consultative members of the Chinese one-party socio-political structures. Third, it presents the humanized side of the tycoons, highlights the positive contributions that tycoons make to Hong Kong and mainland China and deconstructs the idea of a hegemonic tycoon class by emphasizing their heterogeneity in the biographical entries section of the publication.

Catholics and Everyday Life in Macau Chen Hon-Fai, 2017-03-16 Catholicism has had an important place in Macau since the earliest days of Portuguese colonization in the sixteenth century. This book, based on extensive original research including in-depth interviews, examines in detail the everyday life of Catholics in Macau at present. It outlines the tremendous societal pressures which Macau is currently undergoing – sovereignty handover and its consequences, the growth of casinos and tourism

and the transformation of a serene and somewhat obscure colony into a vibrantly developing city. It shows how, although the formal structures of Catholicism no longer share in rule by the colonial power, and although formal religious observance is declining, nevertheless the personal piety and ethical religious outlook of individual Catholics continue to be strong, and have a huge, and possibly increasing, impact on public life through the application of personal religious ethics to issues of human rights and social justice and in the fields of education and social services.

New Media Spectacles and Multimodal Creativity in a Globalised Asia Sunny Sui-kwong

Lam, 2020-11-20 This edited volume aims to unpack the digitisation of art and media within the dynamics of participatory culture, and how these changes affect the power relations between the production and consumption of these new forms in a globalised Asia. This follows the rise of new art forms and social media platforms in wake of rapid and ongoing digitisation, which has, in turn, produced far-reaching implications for changing media ownership and its role in social, cultural, economic, as well as political activities. New challenges arise every day in relation to digital art and design practices and social media communications, and their respective impact on identity politics. This book showcases a diverse range of interdisciplinary research on these concomitant changes and challenges associated with digital media and technologies within the context of a globalised Asia. The case studies included present perspectives on Asia's evolving digital humanities landscape from Hong Kong, China, India, Korea and from across Southeast Asia, with topics that tackle organisational digital marketing, brand advertising and design, mobile gaming, interactive art, and the cultural activities of ethnic and sexual minority communities in the region. This book will of interest to scholars in digital humanities focused on new media and cultural studies.

Chinese Entrepreneurship Fu-Lai Tony Yu, Diana S. Kwan, 2015-07-24 After more than 30 years of reformations in agriculture, manufacturing and trade and industry, China's economy has grown to become the second largest in the world. This book examines the contributions of dynamic entrepreneurs to the economic development of mainland China and Hong Kong – an analysis that is largely lacking in existing studies China's economic stronghold. This book adopts theories of entrepreneurship and market processes as major analytical frameworks to conclude that entrepreneurship is the true engine of growth in mainland China and Hong Kong. Chinese Entrepreneurship focuses on the knowledge drivers and systemic challenges of these businesses to examine how entrepreneurs under uncertainty identify and pursue profit opportunities, and how their efforts have enhanced China's economic dynamics. This book offers vital insight to students, teachers

and researchers of Chinese business and economics, along with Chinese culture and expanding economies.

The Politics of District Elections and Administration in Hong Kong Sonny Shiu-Hing LO, Steven Chung-Fun HUNG, Jeff Hai-Chi LOO, Cody Wai-Kwok YAU, 2023-04-06 The introduction of elections to district advisory bodies during the early 1980s was expected to improve the public delivery of services. However, as time passed, electoral politics led to party politics, elite fragmentation and political struggles. Politicization and hyper-politicization in the Hong Kong Special Administrative Region has brought about a fluctuating pattern between administrative recentralization, the Tsang administration's attempts at decentralization, and the post-2019 administrative recentralization. The purpose of this book is to study the intertwining relationship between district administration and electoral politics. It also examines the political transformation of District Councils after the promulgation of the National Security Law in late June 2020. Written by experts in the field, this book is a good reference source for readers interested in district elections, politics, and administration in Hong Kong.

SARS in China Arthur Kleinman, James L. Watson, 2006 This book examines the structure and impact of the SARS epidemic, and its short- and medium-range implications for an interconnected, globalized world. In so doing, it poses a question of the greatest possible significance: Can we learn from SARS before the next pandemic?

Discursive Change in Hong Kong Jennifer Eagleton, 2022-03-02 Discursive Change in Hong Kong is a comprehensive interdisciplinary study of socio-political and discursive change in Hong Kong since 1997. It provides a stimulating, politically well informed, and comprehensive "insider" account of media and official discourse on democracy and political change as part of "One Country, Two Systems."

Modernization In Asia: The Environment/resources, Social Mobilization, And Traditional Landscapes Across Time And Space In Asia Satoshi Abe, Tai Wei Lim, Saeed Rezaei, Yoshihisa Godo, Ka Shing Ng, Elim Yee Lam Wong, Koki Shimizu, Kenneth Wong, 2021-12-10 This book explores the unfolding of modernity in the greater Asia that uniquely takes shape at different times and places, with a particular attention to a common thread that has been at heart of the development: religion. The status of religion has been relegated in the Western modernity to such that its effects be restricted within the private realm and not be exerted in the public or one's rationality. This edited volume sheds light on the multifarious forces of religion both in the past and present that have impacted on the essential aspects of modern society – aspects in which one does not usually have recourse to religion in the West – from science and technology, politics, and to identity in Asia. Interdisciplinary

approaches in the volume allow one to broadly examine religious practices within Asian contexts, thus enabling to reevaluate the concept, scope, and gamut of so-called religion.

China Review 1997 Maurice Brosseau,Hsin-chi Kuan,Y. Y. Kueh,1997 China Review has been chosen by the American Public Libraries Association for inclusion in the list of books recommended to its members for acquisition. China Review 1997, the seventh volume of the series, is an expert survey of China's major sectors of interest and critically summarizes the development of the previous year in core chapters covering politics, the economy, and social change. The volume contains in-depth studies of political, social, and economic issues such as the death of leader Deng Xiaoping, the anticipated fifteenth Party Congress, cross-straits relations, the problem of state-owned enterprises, and foreign economic relations, all of which are of major concern to those who are interested in the development of the People's Republic. Additional studies describe seldom discussed aspects of Chinese society such as cultural changes and legal disputes.

Compensated Dating Cassini Sai Kwan Chu,2018-01-16 This book considers a burgeoning social phenomenon, compensated dating in Hong Kong, that facilitates direct commercial sex exchange between consenting females from their mid-teens through the late 20s and males from their early 20s to mid-adulthood. Informed by the transformation of intimacy, the breakdown of institutional constraints, the emergence of a new female sexual autonomy and the advancement of information technology, this book moves beyond stereotypes of sex work to look at the complexities of compensated dating. The phenomenon of compensated dating is distinctive from most other sex trades in that it involves intense emotional interactions and often extends beyond the commercial boundary. Given the dynamic, flexible and ambiguous nature of compensated dating, it has become more of a space for sexual explorations and less of a rigid model of commercial sex, at least in the eye of the participants. This book walks through how men become involved in compensated dating and also sheds lights on how gender relations are negotiated, with important implications on what it means to be a man and a woman in contemporary Hong Kong society. It also speaks to the broader transformations of some of the key social structures and elements, particularly gender and sexualities, in the era of late modernity.

Suicidal Behaviour, Bereavement and Death Education in Chinese Adolescents John W.L. Tse,Christopher Bagley,2018-02-06 This title was first published in 2002: Why are rates of suicidal behaviour in Chinese adolescents so high? What factors in school, community, family and interpersonal relationships cause this tragedy? Using key new research from leading researchers and social workers with first hand knowledge of these problems in Hong Kong, this enthralling study

examines those most at risk and signposts the most effective interventions in therapy and strategic prevention programmes. The result is a highly original and readable account which will be compulsive reading for social workers and academics around the world.

Over the Horizon Proliferation Threats James Wirtz, Peter Lavoy, 2012-04-25 In every decade of the nuclear era, one or two states have developed nuclear weapons despite the international community's opposition to proliferation. In the coming years, the breakdown of security arrangements, especially in the Middle East and Northeast Asia, could drive additional countries to seek their own nuclear, biological, or chemical (NBC) weapons and missiles. This likely would produce greater instability, more insecure states, and further proliferation. Are there steps concerned countries can take to anticipate, prevent, or dissuade the next generation of proliferators? Are there countries that might reassess their decision to forgo a nuclear arsenal? This volume brings together top international security experts to examine the issues affecting a dozen or so countries' nuclear weapons policies over the next decade. In Part I, *National Decisions in Perspective*, the work describes the domestic political consideration and international pressures that shape national nuclear policies of several key states. In Part II, *Fostering Nonproliferation*, the contributors discuss the factors that shape the future motivations and capabilities of various states to acquire nuclear weapons, and assess what the world community can do to counter this process. The future utility of bilateral and multilateral security assurances, treaty-based nonproliferation regimes, and other policy instruments are covered thoroughly.

One Country, Two Systems Kam C. Wong, 2017-07-28 The legal issues evoked by cross-border crime in Hong Kong and China are sparse and what does exist is mostly in Chinese. This book provides the first systematic, comprehensive, and in-depth analysis of how Chinese, British, Hong Kong, and international law were applied in the Big Spender case. Kam C. Wong outlines the respective positions of various parties to the dispute. Part of the case's fascination involves competing interests, and that political clout counted for more than legal theory. Big Spender may be little known outside Hong Kong and China, but he made history there. It was the first time a Hong Kong legal resident had been prosecuted, tried, and ultimately executed in China for acts largely perpetrated in Hong Kong. The case tested the limits of the one-country, two-systems approach under which Hong Kong and China coexist. It also forced politicians, government officials, and the public in both Hong Kong and China to come to terms with the legal and policy issues related to cross-border crime. Wong sees the Big Spender case as making clear the dire need for both sides to find workable solutions to

concurrent jurisdiction, police cooperation, and judicial assistance. Until there is an acceptable arrangement governing the rendition of offenders between Hong Kong and mainland China, the one-country, two-systems formula cannot be stabilized. This is a case study in large-scale terms.

Media and Protest Logics in the Digital Era Francis L.F. Lee, Joseph M. Chan, 2018-03-06 Digital and social media are increasingly integrated into the dynamics of protest movements around the world. They strengthen the mobilization power of movements, extend movement networks, facilitate new modes of protest participation, and give rise to new protest formations. Meanwhile, conventional media remains an important arena where protesters and their targets contest for public support. This book examines the role of the media -- understood as an integrated system comprised of both conventional media institutions and digital media platforms -- in the formation and dynamics of the Umbrella Movement in Hong Kong. For 79 days in 2014, Hong Kong became the focus of international attention due to a public demonstration for genuine democracy that would become known as the Umbrella Movement. During this time, twenty percent of the local population would join the demonstration, the most large-scale and sustained act of civil disobedience in Hong Kong's history -- and the largest public protest campaign in China since the 1989 student movement in Beijing. On the surface, this movement was not unlike other large-scale protest movements that have occurred around the world in recent years. However, it was distinct in how bottom-up processes evolved into a centrally organized, programmatic movement with concrete policy demands. In this book, Francis L. F. Lee and Joseph M. Chan connect the case of the Umbrella Movement to recent theorizations of new social movement formations. Here, Lee and Chan analyze how traditional mass media institutions and digital media combined with on-the-ground networks in such a way as to propel citizen participation and the evolution of the movement as a whole. As such, they argue that the Umbrella Movement is important in the way it sheds light on the rise of digital-media-enabled social movements, the relationship between digital media platforms and legacy media institutions, the power and limitations of such occupation protests and new action logics, and the continual significance of old protest logics of resource mobilization and collective action frames. Through a combination of protester surveys, population surveys, analyses of news contents and social media activities, this book reconstructs a rich and nuanced account of the Umbrella Movement, providing insight into numerous issues about the media-movement nexus in the digital era.
