Asian Sport Celebrity Koji Kobayashi, Younghan Cho, 2021-03-31 What does the 'Asian' mean in Asian sport celebrity? With a collection of nine essays on Asian sport celebrities variously associated with Australia, Belgium, China, Japan, New Zealand, North Korea, Philippines, South Korea, Taiwan and the United States, this book offers a comprehensive understanding of the multi-faceted construction of what it means to be Asian from the perspectives of race, ethnicity and regionality. Sport celebrity, as a modern invention, is disseminated from the West to the rest of the globe including Asia, and so are its functions of symbolizing particular values, desires and personalities idolized and idealized within their respective societies. While Asian athletes were historically depicted as weak, fragile and biologically 'unsuited' to modern sport, the emergence of more than a few world-class Asian athletes in the twenty-first century demands an in-depth inquiry into the relationship between sport celebrity and the representation of Asia. This book is therefore essential for those interested in a range of socio-cultural issues—including globalization, transnationalism, migration, modernity, (post-)coloniality, gender politics, spectacle, citizenship, Orientalism, and nationalism—within and beyond Asia. It was originally published as a special issue of *The International Journal of the History of Sport*.

Taiwan's Social Movements under Ma Ying-jeou Dafydd Fell, 2017-02-17 In the spring of 2014, the Sunflower Movement's three-week occupation of the Legislative Yuan brought Taiwan back to international media attention. It was the culmination of a series of social movements that had been growing in strength since 2008 and have become even more salient since the spring of 2014. Social movements in Taiwan have emerged as a powerful new

actor that needs to be understood alongside those players that have dominated the literature such as political parties, local factions, Taishang, China and the United States. This book offers readers an introduction to the development of these social movements in Taiwan by examining a number of important movement case studies that focus on the post 2008 period. The return of the Kuomintang (KMT) to power radically changed the political environment for Taiwan's civil society and so the book considers how social activists responded to this new political opportunity structure. The case chapters are based on extensive fieldwork and are written by authors from a variety of disciplinary backgrounds and methodological approaches; in some cases authors combine being both academics and activists themselves. Together, the chapters focus on a number of core issues, providing the book with four key aims. Firstly, it investigates the roots of the movements and considers how to best explain their emergence. Secondly, it examines the development trajectories of these movements. Thirdly, it looks at the best way to explain their impact and development patterns, and finally it assesses their overall impact, questioning whether they can be regarded as successes or failures. Covering a unique range of social movement cases, the book will be of interest to students and researchers interested in Taiwanese society and politics, as well as social movements and civil society.

Evaluation of the C. Y. Leung Administration

Joseph Yu-shek CHENG, 2020-06-01 Did C. Y. Leung achieve his goals? Did he perform his duty to the Hong Kong people as their third Chief Executive? To answer these questions, this book presents a rational, research-based critique of the C. Y. Leung Administration (2012 - 2017). It is a sweeping and original publication that covers various aspects of governance, including politics, economics, healthcare,

human rights, civil service, housing, urban planning, youth, and Legislative Council elections as well as Hong Kong's relationships with Taiwan, Mainland China, and Western countries. Written by a team of expert authors from various fields, this book is one of the first comprehensive academic discourses on the issues this administration faced while in office. The first chapter sets the tone of the book, with the subsequent chapters providing additional details confirming the general conclusions of the authors concerning the C. Y. Leung Administration. Written for scholars and community members interested in Hong Kong governance, this anthology presents a complex and comprehensive critique of one specific Chief Executive's period of influence and how his administration's policies still affect the Hong Kong community today.

Hong Kong Society Stephen WK Chiu, Kaxton YK Siu, 2022-02-23 This book borrows the concept of “high-definition” from digital broadcasting to highlight our unique approach to Hong Kong society, which gives a sharper image than analyses. It intends to highlight contrasts with many common and taken-for-granted stories, myths and representations of Hong Kong— which often presented with a low level of detail, lacking proper connections between grounded personal experiences and the macro social context. With chapters covering various salient dimensions of Hong Kong's society, including migration, economy, inequality, identity and social movements, our “high-definition” approach presents images with high enough “resolution” to match multiple layers of experiences from walks of life of Hong Kong people, contributing to an understanding of how global transformation impacts local people's experiences, as well as Hong Kong's significance in the regional and global system.

The COVID-19 Pandemic and Risks in East Asia Nobuto

Yamamoto,2022-11-29 Using risk as a conceptual lens, this book analyzes how communities across East Asia responded to the disruption unleashed by the COVID-19 pandemic. The contributors to this book look at how governments, societies, and individuals have perceived, experienced, dealt with and interpreted the pandemic and the transformations it has brought across countries like Japan, South Korea, Taiwan, Vietnam, and the Philippines. They examine pressing concerns such as infodemic, digital health literacy, media cynicism, telework, and digital inequalities in conjunction with issues such as public trust, identity formation, nationalism, and social fragmentation. They look at a wide range of questions relating to communication, mediation, and reactions to the challenges of the pandemic. An insightful resource for scholars of risk studies and of East Asian societies, the book is also a valuable reference for students and researchers of media and communication studies and sociology.

Doing English in Asia Patricia Haseltine,Sheng-mei Ma,2016-04-13 This edited collection examines the effect of globalization on the curriculum of Asian universities. As knowledge of the English language has increasingly been understood as necessary to excel in international business, a number of Asian universities have replaced the traditional study of English literature and culture with applied English or English for specified purposes. Contributors to this collection tackle the question of how teachers in Asia should balance the need for their students to understand English culture with the pressure to prepare students for employment in this changing environment.

The New Geopolitics of Sport in East Asia William Kelly,J.A. Mangan,2015-09-07 The global geopolitics of sport is being transformed in and by East Asia. Sport in recent decades has been avidly embraced by East Asian nations,

with implications both for their image on the international stage and their domestic national identities. The three post-war East Asian Olympic Games, the 'glittering' Guangzhou Asian Games in 2010 and the march of Asia into the global sport market illustrate the fact that a new global sports order has emerged. This collection uniquely discerns the 'tectonic' shift of global power in the geopolitical, economic, cultural and social dynamics of sport from West to East. It also reveals 'that the global empire of commerce' is similarly shifting eastwards. The chapters, written by leading authorities on East Asia, widens the focus, advances the knowledge and sharpens the appreciation of both global sport and regional current transformation in the making and, in doing so, contributes to an understanding of profound changes in global sport. This book was originally published as a special issue of The International Journal of the History of Sport.

Transitions from Education to Work Roslyn

Cameron, Subas Dhakal, John Burgess, 2017-11-22 Labour markets are becoming more dynamic in response to pressures from globalisation, new technologies and trade agreements, as well as cross-border migration, inter-generation differences, changing education imperatives and employer expectations. By focusing on several Asia Pacific countries, this book explores the differences in their workforces: ageing, or abundant in labour but lacking in skilled employees. One similarity these countries share is the difficulty in attracting and retaining employees with the required skillset and capabilities, and these constraints can stymie national economic growth and long term development. This book brings together national and international perspectives on employability challenges faced by selected countries in the Asia Pacific region. While the region is forecast to enjoy high growth in the coming

decade, a recurring challenge is addressing skill shortages and ensuring effective transition from training colleges and universities into employment. Consequently, the book focuses on the roles of multiple stakeholders, primarily: governments, education providers and employers – in more effectively addressing these key socio-economic challenges.

The Construction of National Identity in Taiwan's Media, 1896-2012 Chien-Jung Hsu,2014-03-20 The Construction of National Identity in Taiwan's Media, 1896-2012 provides the most comprehensive analysis of the development of Taiwan's media and the formation of national identity in Taiwan's media from 1896 to 2012.

Environmental Governance in Taiwan Simona A. Grano,2015-06-05 Three decades of rapid industrialization until the lifting of martial law in 1987, with little or no concern for the environment, have made Taiwan's environmental degradation a serious problem. In the past twenty years, Taiwan has seen a surge of environmental organizations, which to a certain degree have enjoyed a remarkable success in fighting polluting industries or affecting policies on behalf of the environment. This book aims to analyse environmental governance mechanisms and actors in Taiwan through a multi-disciplinary research approach. Based on extensive and original research, it includes four different case studies, which have all taken place since 2011. It focuses on four major elements of governance - specifically norms, actors, processes, and outcomes - to examine Taiwan's national and local environmental governance in the post-2008 period. The book shows how the painful lessons Taiwan has learned throughout its transition should be of interest to other developing countries, illustrating how these positive transformations have managed to bring about a more

ecologically friendly mode of economic development. Demonstrating that the battle to further ecological sustainability is also a battle to further democratisation, this book will be of interest to students and scholars of Taiwan Studies, Developmental Studies and Environmental Studies.

Contemporary Asian American Activism Diane C.

Fujino, Robyn Magalit Rodriguez, 2022-01-28 In the struggles for prison abolition, global anti-imperialism, immigrant rights, affordable housing, environmental justice, fair labor, and more, twenty-first-century Asian American activists are

speaking out and standing up to systems of oppression. Creating emancipatory futures requires collective action and reciprocal relationships that are nurtured over time and forged through cross-racial solidarity and intergenerational connections, leading to a range of on-the-ground experiences. Bringing together grassroots organizers and scholar-activists, Contemporary Asian American Activism presents lived experiences of the fight for transformative justice and offers lessons to ensure the longevity and sustainability of organizing. In the face of imperialism, white supremacy, racial capitalism, heteropatriarchy, ableism, and more, the contributors celebrate victories and assess failures, reflect on the trials of activist life, critically examine long-term movement building, and inspire continued mobilization for coming generations.

Chinese Entrepreneurship Fu-Lai Tony Yu,Diana S. Kwan,2015-07-24 After more than 30 years of reformations in agriculture, manufacturing and trade and industry, China's economy has grown to become the second largest in the world. This book examines the contributions of dynamic entrepreneurs to the economic development of mainland China and Hong Kong – an analysis that is largely lacking in existing studies China's economic stronghold. This book adopts theories of entrepreneurship and market processes as major analytical frameworks to conclude that entrepreneurship is the true engine of growth in mainland China and Hong Kong. Chinese Entrepreneurship focuses on the knowledge drivers and systemic challenges of these

businesses to examine how entrepreneurs under uncertainty identify and pursue profit opportunities, and how their efforts have enhanced China's economic dynamics. This book offers vital insight to students, teachers and researchers of Chinese business and economics, along with Chinese culture and expanding economies.

Indelible City Louisa Lim, 2023-04-18 A NEW YORK TIMES NOTABLE BOOK OF THE YEAR An award-winning journalist and longtime Hong Konger indelibly captures the place, its people, and the untold history they are claiming, just as it is being erased. The story of Hong Kong has long been dominated by competing myths: to Britain, a “barren rock” with no appreciable history; to China, a part of Chinese soil from time immemorial, at last returned to the ancestral fold. For decades, Hong Kong's history was simply not taught, especially to Hong Kongers, obscuring its origins as a place of refuge and rebellion. When protests erupted in 2019 and were met with escalating suppression from Beijing, Louisa Lim—raised in Hong Kong as a half-Chinese, half-English child, and now a reporter who has covered the region for nearly two decades—realized that she was uniquely positioned to unearth the city's untold stories. Lim's deeply researched and personal account casts startling new light on key moments: the British takeover in 1842, the negotiations over the 1997 return to China, and the future Beijing seeks to impose. *Indelible City* features guerrilla calligraphers, amateur historians and archaeologists, and others who, like Lim, aim to put Hong Kongers at the center of their own story. Wending through it all is the King of Kowloon, whose iconic street art both embodied and inspired the identity of Hong Kong—a site of disappearance and reappearance, power and powerlessness, loss and reclamation.

Police Corruption and Police Reforms in Developing Societies Kempe Ronald Hope Sr.,2015-09-25 Much of the literature on police corruption and police reforms is dominated by case studies of societies classified as developed. However, under the influence of globalization, developing societies have become a focal point of scholarly interest and examination. Police Corruption and Police Reforms in Developing Societies provides critical analyses

Evolutionary Governance in China ,2022-03-07 The People's Republic of China has experienced numerous challenges and undergone tremendous structural changes over the past four decades. The party-state now faces a fundamental tension in its pursuit of social stability and regime durability. Repressive state strategies enable the Chinese Communist Party to maintain its monopoly on political power, yet the quality of governance and regime legitimacy are enhanced when the state adopts more inclusive modes of engagement with society. Based on a dynamic typology of state-society relations, this volume adopts an evolutionary framework to examine how the Chinese state relates with non-state actors across several fields of governance. Drawing on original fieldwork, the authors identify areas in which state-society interactions have shifted over time, ranging from more constructive engagement to protracted conflict. This evolutionary approach provides nuanced insight into the circumstances wherein the party-state exerts its coercive power versus engaging in more flexible responses or policy adaptations.

Two Systems, Two Countries Kevin Carrico,2022-04-08 As Hong Kong is integrated into the People's Republic of China, ever fewer people in the city identify as Chinese. Two Systems, Two Countries explains why. Two Systems, Two Countries traces the origins of Hong Kong nationalism and introduces readers to its main schools

of thought: city-state theory, self-determination, independence, and returnism. The idea of Hong Kong independence, Kevin Carrico shows, is more than just a provocation testing Beijing’s red lines: it represents a collective awakening to the failure of One Country Two Systems and the need to transcend obsolete orthodoxies. With a conclusion that examines Hong Kong nationalism’s influence on the 2019 protest movement, Two Systems, Two Countries is an engaging and accessible introduction to the tumultuous shifts in Hong Kong politics and identity over the past decade.
