**Protect Yourself** Steve Kovacs, 2006-03 Drawing on his professional experience in helping women learn self-defense, author Steve Kovacs offers a practical, encouraging guide for women in *Protect Yourself: The Simple Keys Women Need to be Safe and Secure*. Most women's safety guides cover the specifics of fighting off attackers. But *Protect Yourself* focuses on commonsense strategies women can implement daily. By taking certain precautions and adapting specific behaviors, women can greatly increase their chances of avoiding violence. A former police officer who himself was a two-time victim of violent crime at a young age, Kovacs offers a practical approach to learning self-defense and discusses key issues: What criminals look for Home security Safety while on the go Tools to protect women Defending yourself in an attack The real foundation for women's self protection is the ability to identify certain attitudes, behaviors, and universal truths. Understanding these concepts is simple yet essential to helping women of all ages in developing characteristics and thinking patterns that will enable them to lead safer, more empowered lives. Don't become a victim of violence-let *Protect Yourself: The Simple Keys Women Need to be Safe and Secure* teach you to protect yourself!

**Laravel: Up & Running** Matt Stauffer, 2019-04-01 What sets Laravel apart from other PHP web frameworks? Speed and simplicity, for starters. This rapid application development framework and its ecosystem of tools let you quickly build new sites and applications with clean, readable code. Fully updated to cover Laravel 5.8, the second edition of this practical guide provides the definitive introduction to one of today's most popular web frameworks. Matt Stauffer, a leading teacher and developer in the Laravel community, delivers a high-level overview and concrete examples to help experienced PHP web developers get started with this framework right away. This updated edition also covers Laravel Dusk and Horizon and provides information about community resources and other noncore Laravel packages. Dive into features, including: Blade, Laravel's powerful custom templating tool Tools for gathering, validating, normalizing, and filtering user-provided data The Eloquent ORM for working with application databases The role of the Illuminate request object in the application lifecycle PHPUnit, Mockery, and Dusk for testing your PHP code Tools for writing JSON and RESTful APIs Interfaces for filesystem access, sessions, cookies, caches, and search Tools for implementing queues, jobs, events, and WebSocket event publishing

Protect Yourself Online David Chappelle,2007-08-15 Typical media may have you thinking that as soon as you log on to the Internet a horde of virus writers, pornographers, bomb makers, mass marketers, and identity thieves will pounce on you. Of course the reality is very different from what the media portrays. While potential dangers exist, most are mere annoyances. You're more likely to encounter grief elsewhere. A few simple preventative measures will make your online experiences more enjoyable, and safer. This easy to read book explains computer security in simple terms. A few things you'll learn: Various ways to secure your computer. Simple ways to

prevent unauthorized access of your files. How to prevent unauthorized gathering of your surfing records. FREE methods of keeping hackers out of your system. About protecting your children when they surf the Internet. Of programs that track everything done on a computer, without the owner knowing! How corporations follow you online, and How to STOP them from following you! The way you address your email may be helping someone else's illegal activity. How to keep your email address private. Ways to prevent others from changing your settings. Common security terms explained in plain language. **Stalking Victimization in the United States** Katrina Baum,2011 This is a print on demand edition of a hard to find publication. Stalking is defined as a course of conduct directed at a specific person that would cause a reasonable person to feel fear. The Supplemental Victimization Survey identified seven types of harassing or unwanted behaviors consistent with a course of conduct experienced by stalking victims. The survey classified individuals as stalking victims if they responded that they experienced at least one of these behaviors on at least two separate occasions. In addition, the individuals must have feared for their safety or that of a family member as a result of the course of conduct, or have experienced additional threatening behaviors that would cause a reasonable person to feel fear. This report presents information on stalking victimization. Illustrations.
