Aktuboo: Mastering the Arabic Script Amy Michelle Mosier, 2015-09-11 Written from an American perspective, Aktuboo: Mastering the Arabic Script seeks to remove the anxiety of learning not only the Arabic language but its script too. It teaches Modern Standard Arabic, the most ubiquitous dialect in the Middle East. Besides gently guiding you into the Arabic language, it also contains a wealth of cultural information and so it's ideal for Egyptophiles, travelers and Christian missionaries. * Use mnemonics to help you remember the Arabic alphabet. * Practice reading Arabic by first reading English words written in Arabic. * Transition easily from cognates to true Arabic words. * Develop good grammar by examining generic sentences. * Learn how to conjugate at least 50 common verbs. The assistance I had from many Arab people for the translation samples is uncredited.

Alarabia: A Communicative Approach to Learning Arabic for Non-Native Speakers Mahmoud Amer, 2010-08-19 This book is meant to assist students learning Arabic with the basics in communication and sentence structure. Because this book focuses on the communicative aspect of using Arabic, the first few chapters will introduce students to expressions in everyday speech in a colloquial Jordanian dialect. In later chapters, however, texts written in Modern Standard Arabic (MSA) are presented and examined.

Inside Arabic Music Johnny Farraj, Sami Abu Shumays, 2019-07-18 What makes hundreds of listeners cheer ecstatically at the same instant during a live concert by Egyptian diva Umm Kulthum? What is the unspoken language behind a taqsim (traditional instrumental improvisation) that performers and listeners implicitly know? How can

Arabic music be so rich and diverse without resorting to harmony? Why is it so challenging to transcribe Arabic music from a recording? Inside Arabic Music answers these and many other questions from the perspective of two insiders to the practice of Arabic music, by documenting a performance culture and a know-how that is largely passed on orally. Arabic music has spread across the globe, influencing music from Greece all the way to India in the mid-20th century through radio and musical cinema, and global popular culture through Raqs Sharqi, known as Bellydance in the West. Yet despite its popularity and influence, Arabic music, and the maqam scale system at its heart, remain widely misunderstood. Inside Arabic Music de-mystifies maqam with an approach that draws theory directly from practice, and presents theoretical insights that will be useful to practitioners, from the beginner to the expert - as well as those interested in the related Persian, Central Asian, and Turkish makam traditions. Inside Arabic Music's discussion of maqam and improvisation widens general understanding of music as well, by bringing in ideas from Saussurean linguistics, network theory, and Lakoff and Johnson's theory of cognition as metaphor, with an approach parallel to Gjerdingen's analysis of Galant-period music - offering a lens into the deeper relationships among music, culture, and human community.

Handbook for Arabic Language Teaching Professionals in the 21st Century Kassem Wahba, Zeinab A. Taha, Liz England, 2014-06-03
This landmark volume offers an

introduction to the field of teaching Arabic as a foreign or second language. Recent growth in student numbers and the demand for new and more diverse Arabic language programs of instruction have created a need that has outpaced the ability of teacher preparation programs to provide sufficient numbers of well-qualified professional teachers at the level of skill required. Arabic language program administrators anticipate that the increases in enrollment will continue into the next decades. More resources and more varied materials are seriously needed in Arabic teacher education and training. The goal of this Handbook is to address that need. The most significant feature of this volume is its pioneer role in approaching the field of Arabic language teaching from many different perspectives. It offers readers the opportunity to consider the role, status, and content of Arabic language teaching in the world today. The Handbook is intended as a resource to be used in building Arabic language and teacher education programs and in guiding future academic research. Thirty-four chapters authored by leaders in the field are organized around nine themes: *Background of Arabic Language Teaching; *Contexts of Arabic Language Teaching; *Communicative Competence in Arabic; *The Learners; *Assessment; *Technology Applications; *Curriculum Development, Design, and Models; *Arabic Language Program Administration and Management; and *Planning for the Future of Arabic Language Learning and Teaching. The Handbook for Arabic Language Teaching Professionals in the 21st Century will benefit and be welcomed by Arabic language teacher educators and trainers, administrators, graduate students, and scholars around the world. It is intended to create dialogue among scholars and professionals in the field and in related fields--dialogue that will contribute to creating new models for curriculum

and course design, materials and assessment tools, and ultimately, better instructional effectiveness for all Arabic learners everywhere, in both Arabic-speaking and non-Arabic speaking countries.

Your Computer Is on Fire Thomas S. Mullaney, Benjamin Peters, Mar Hicks, Kavita Philip, 2021-03-09 Techno-utopianism is dead: Now is the time to pay attention to the inequality, marginalization, and biases woven into our technological systems. This book sounds an alarm: after decades of being lulled into complacency by narratives of technological utopianism and neutrality, people are waking up to the large-scale consequences of Silicon Valley-led technophilia. This book trains a spotlight on the inequality, marginalization, and biases in our technological systems, showing how they are not just minor bugs to be patched, but part and parcel of ideas that assume technology can fix--and control--society. Contributors Janet Abbate, Ben Allen, Paul N. Edwards, Nathan Ensmenger, Mar Hicks, Halcyon M. Lawrence, Thomas S. Mullaney, Safiya Umoja Noble, Benjamin Peters, Kavita Philip, Sarah T. Roberts, Sreela Sarkar, Corinna Schlombs, Andrea Stanton, Mitali Thakor, Noah Wardrip-Fruin

Self-Translation and Power Olga Castro, Sergi Mainer, Svetlana Page, 2017-08-07 This

book investigates the political, social, cultural and economic implications of self-translation in multilingual spaces in Europe. Engaging with the 'power turn' in translation studies contexts, it offers innovative perspectives on the role of self-translators as cultural and ideological mediators. The authors explore the unequal power relations and centre-periphery dichotomies of Europe's minorised languages, literatures and cultures. They recognise that the self-translator's double affiliation as author and translator places them in a privileged position to challenge power, to negotiate the experiences of the subaltern and colonised, and to scrutinise conflicting minorised vs. hegemonic cultural identities. Three main themes are explored in relation to self-translation: hegemony and resistance; self-minorisation and self-censorship; and collaboration, hybridisation and invisibility. This edited collection will appeal to scholars and students working on translation, transnational and postcolonial studies, and multilingual and multicultural identities.

The first six papers deal directly with Arabic handwriting together with a short historic survey of the language and techniques used in recognition. The book closes with two articles on recognition of English and south Indian handwriting.

Resisting Austerity Cristina Flesher Fominaya, Graeme Hayes, 2019-10-23 Following the subprime lending crisis and the financial market crash of 2008-9, governments throughout Europe implemented a series of debt reduction measures collectively known as austerity. Across the continent, citizens and social movements mobilized dramatically against these measures, calling strikes, occupying public squares, and developing new forms of political action. These movements challenged the political and economic elite

consensus that there was no alternative to cutting spending, and protecting the financial industry at the expense of the public sector; they also challenged the political systems that gave rise to these measures and assumptions, demanding democratic renewal, and imagining new modes of citizenship and political participation. In order to better understand this wave of protest - its common themes, its local contexts, its ideas and its actions - this collection brings together leading scholars in the field to provide a series of theoretically grounded, empirically rich analyses of Europe's anti-austerity mobilizations. This book was originally published as a special issue of Social Movement Studies.
