On top of that, the index in the second half of the book provides you with a basic Spanish-English as well as English-Spanish dictionary which makes this a great resource for learners of all levels. The Spanish vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 3 - Basic Spanish-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to look for Spanish words and directly find the English translation How to use this Spanish vocabulary book: Not sure where to start? We suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will give you a great base for further studying and already enough vocabulary for basic communication. The Spanish dictionaries in part two and three can be used whenever needed to look up words you hear on the street, English words you want to know the Spanish translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well.

Together with the basic Spanish dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning Spanish and comes in particularly handy at times when there is no internet to look up words and phrases.
