

Arcane Hermetic Philosophy

Thomas Colquith

Kybalion Akram Tote,2020-08-04 We take great pleasure in presenting to the attention of students of philosophy and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, notwithstanding the countless references to the Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of the present volume. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered.sounds interesting have a look.....

The Kybalion Three Initiates,2010-09 The Kybalion is a volume of Hermetic Philosophy. Anonymously printed in 1908, the book claims to be the essence of the teachings of Hermes Trismegistus. Many of its ideas are relatively modern concepts arising from the New Thought movement. The Kybalion will make its appearance in one's life when the time is appropriate, and never before. The Three Initiates who authored The Kybalion chose to remain anonymous. As a result, a great deal of speculation has been made about who actually wrote the book.

The Kybalion (Royal Collector's Edition) (Case Laminate Hardcover with Jacket) Three Initiates,2021-01-26 The Kybalion is divided into mentalism, correspondence, vibration, polarity, rhythm, gender, and cause and affect. Based upon ancient Hermeticism, the philosophies became founding pillars within the New Thought movement of the early 1910s.

The Kybalion Three Initiates,2020-05-19 The Three Initiates who authored The Kybalion chose to remain anonymous. As a result, a great deal of speculation has been made about who actually wrote the book. The most common proposal is that The Kybalion was authored by William Walker Atkinson (1862 –1932), either alone or with others, such as Paul Foster Case (1884 –1954) and Elias Gewurz ._x000D_ The Kybalion is based on the extensive research and study of the world-old Hermetic Teachings. A Dictionary of All the Obscure Words, Hermetic Subjects, and Arcane Phrases of Paracelsus Martinus Rulandus,2014-03-29 This Is A New Release Of The Original 1888 Edition.

The Kybalion William Walker Atkinson,Three Initiates,Philip Deslippe,2011-04-28 Here is the flagship edition of the most popular occult work of the past century, now published with a groundbreaking historical introduction that establishes its authentic authorship and a lost bonus work by the original author. It is one of the most mysterious and hotly debated occult works ever written-and without question the most popular and widely influential book of arcane philosophy of the twentieth century: The Kybalion has been credited only to the cryptic Three Initiates since its first appearance in 1908. Debate rages over the identity of the Three Initiates, the origin of the book's mysterious title and insights, and the nature of the Hermetic teachings on which it is thought to be based. Now the veil is parted. The Kybalion: The Definitive Edition presents the first full- scale analysis of this work of practical occult wisdom. It features the complete text of The Kybalion and the first-ever publication of Atkinson's previously unknown post-Kybalion work: The Seven Cosmic Laws. In an engaging introduction to this unique volume, religious scholar Philip Deslippe surveys the work's context, history, and impact (including as a source of spiritual insight to communities ranging from New Thought to Black Nationalism), and provides a biographical sketch of its elusive author, the New Thought pioneer William Walker Atkinson. As valuable to new fans as it is to longtime readers who crave more knowledge about Atkinson and his work, The Kybalion: The Definitive Edition illuminates the remarkable history of this long-cherished text.

The Kybalion William Walker Atkinson, 2019-01-09 The Kybalion: Hermetic Philosophy is a book claiming to be the essence of the teachings of Hermes Trismegistus. We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, notwithstanding the countless references to the Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. There is no portion of the occult teachings possessed by the world which have been so closely guarded as the fragments of the Hermetic Teachings which have come down to us over the tens of centuries which have elapsed since the lifetime of its great founder, Hermes Trismegistus, the scribe of the gods, who dwelt in old Egypt in the days when the present race of men was in its infancy. Contemporary with Abraham, and, if the legends be true, an instructor of that venerable sage, Hermes was, and is, the Great Central Sun of Occultism, whose rays have served to illumine the countless teachings which have been promulgated since his time. All the fundamental and basic teachings embedded in the esoteric teachings of every race may be traced back to Hermes. Even the most ancient teachings of India undoubtedly have their roots in the original Hermetic Teachings.

The Secret Teachings of All Ages Manly P. Hall, 2010-01-01 Acclaimed by Publishers Weekly as a classic reference, dizzying in its breadth, this volume explores the themes underlying ancient mythology, philosophy, and religion. Hundreds of entries range from esoteric elements of Islamic and Christian history to arcane rituals practiced by Druids, Freemasons, alchemists, and other secret societies. 16 pages of color plates, 100 black-and-white illustrations.

The Kybalion Mani Publishing, Three Initiates, 2021-01-10 We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, notwithstanding the countless references to the Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume. In this little work we have endeavored to give you an idea of the fundamental teachings of The Kybalion, striving to give you the working Principles, leaving you to apply them yourselves, rather than attempting to work out the teaching in detail. If you are a true student, you will be able to work out and apply these Principles-- if not, then you must develop yourself into one, for otherwise the Hermetic Teachings will be as words, words, words to you. This edition also includes (in the back of the book) a list of all quotes of wisdom provided in this work. We hope you enjoy this wonderful book and blessings to you all!

Hermetic Philosophy Thomas Colquith, 2020-11-03 This book attempts to detail who we are, where we came from, and where we are going by exploring humanity's myths, parables, and symbols which may hold the needed clues. Arcane knowledge that comes from past sources, often referred to as Hermetic Philosophy, is delved into and studied then applied to the world around us and to the end time scriptures of Christianity. This book seeks to create a holistic view which can answer life's mysteries such as who are aliens, demons, watchers, and fallen angels; and how have they influenced humans across time and culture. By going back in time and studying the myths of ancient Egypt, Babylon, Greece, and Rome, which can then be compared to the Judeo-Christian tradition, some interesting observations can be made.

It has been completely reformatted, yet retains a look and feel that is comparable to the original 1909 edition, right down to the blue cloth binding and gold stamped spine. From Alchemy to Zoroaster, and everything in between, The Arcane Schools continues to be one of the most comprehensive and authoritative works concerning the history and migration of the Western Mystery Tradition. Students of Freemasonry, Rosicrucianism, and Theosophy will find this to be an indispensable addition to their collection.

Occult Philosophy for the Modern Age Tarl Warwick,2015-06-18 This work contains a collection of arcane material ranging from fringe mathematics and science to the world of the psychic and the realm of philosophy. Unlike some texts, which cover only those topics from the generally spiritual or the completely secular, this work seeks to unite both under one cover. Important here is the concept of the cycle, and oscillation, and the overarching ideal of as above, so below so often regarded as a spiritual singularity, which should instead be seen as a connection strictly, without bias, between the spiritual world and the physical one. When these concepts; that of the cycle, and of correlation, are applied to prophecy, and to tales of the end times, a greater system is made apparent; one overlooked by most Western occultism and, indeed, much of that from the East. From society and politics to religion and mysticism, this work attempts to draw all forms of human experience together and to quantify them in as easily understood a way as possible, while denigrating not one iota of its content.

The Kybalion Three Initiates,1940 Seven Fundamental Principles That Could Change Your Life According to ancient Greek and Egyptian literature, Hermes Trismegistus, legendary father of the occult and ascribed founder of astrology, practiced a divinely inspired form of mental alchemy focused on transforming the mind rather than physical materials. In essence, he pursued a sort of spiritual ascension, a transmutation of the soul leading to a freeing of one's true self. For millennia, though, the foundational precepts of early Hermetic mysticism remained shrouded in secrecy, known only to a select few. The Kybalion, purportedly written by three anonymous initiates of Hermes' teaching, finally parts the obscuring fog and reveals clear and simple pathways to understanding and applying the transformative spiritual knowledge, regardless of one's religious tradition or belief system. This life-changing treatise outlines seven universal laws upon which the entire Hermetic Philosophy, and possibly even the nature of existence itself, are based. These seven key principles are: mentalism, correspondence, vibration, polarity, rhythm, cause and effect, and gender. With its lucid commentary on aphorisms from original source material, The Kybalion provides modern readers with invaluable insights for achieving personal self-development and living the best life possible. It is also a vital resource for anyone seeking to deepen their understanding of paranormal philosophies, arcane truths, esoteric studies, magic, mysticism, the occult, the supernatural, or the wonders of the universe, or those simply seeking a deeper appreciation for the secret doctrines and powerful wisdom of the ancients. This Echo Point Books edition is complete with index. This book is also available from Echo Point Books in hardcover (ISBN 1635617561).
