In the Shadow of the Chinatis David W. Keller, 2019-01-31 Winner, 2020 Al Lowman Memorial Prize for Best Book on Texas County or Local History There is a deep and abiding connection between humans and the land in Pinto Canyon—a remote and rugged place near the border with Mexico in the Texas Big Bend. Here the land assumes a certain primacy, defined not by the ephemera of plants and animals but by the very bedrock that rises far above the silvery flow of Pinto Creek—looming masses that break the horizon into a hundred different vistas. Yet, over time, people managed to survive and sometimes even thrive in this harsh environment. In the Shadow of the Chinatis combines the rich narratives of history, natural history, and archeology to tell the story of the landscape as well as the people who once inhabited it. Settling the land was difficult, staying on it even more so, but one family proved especially resilient. Rising above their meager origins, the Prietos eventually amassed a 12,000-acre ranch in the shadow of the Chinati Mountains to become the most successful of Pinto Canyon's early settlers. But starting with the tense years of the Great Depression, the family faced a series of tragedies: one son was killed by a Texas Ranger, and another by the deranged son of Chico Cano, the Big Bend's most notorious bandit. Ultimately, growing rifts in the family forced the sale of the ranch, marking the end of an era. Bearing the hallmarks of an epic tragedy, the departure of the Prieto family signaled a transition away from ranching towards a new style of landownership based on a completely different model. Today, Pinto Canyon's scenic and scientific value increasingly overshadows the marginal economics of its past. In the Shadow of the Chinatis reveals a rich tapestry of interaction between humans and their environment, providing a unique examination of the Big Bend region and the people who call it home.

**The Archeology of the New Testament** Jack Finegan, 2014-07-14 The Archeology of the New Testament is the authoritative illustrated account of what is presently known about the chief sites and monuments connected with the life of Jesus and the history of the early church. To follow the order of the New Testament, it first investigates sites connected with John the Baptist and then proceeds to Bethlehem and Nazareth, Samaria and Galilee, Jerash, Caesarea, Jericho, the Mount of Olives, Jerusalem, and Emmaus. Each site is illustrated, and the accompanying text, numbered to facilitate cross-reference, contains a bibliography. This edition has been completely revised to reflect the most recent scholarship and excavations, and it contains many new entries. Anyone concerned with the historical, geographical, and cultural background of the New Testament will want to study this classic work as it retraces the steps of Jesus. The definitive handbook. Finegan's comprehensive treatment of almost every problem in the field of New Testament archeology as well as his judicious evaluation of the evidence makes this book indispensable to every serious student of the Bible.--The New York Times Book Review Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. **Shadows of the Stone Benders** K. Patrick Donoghue, 2016-05-14 World-renowned scientist Anlon Cully is unexpectedly swept into the thick of a suspense-riddled adventure when his archaeologist uncle, Devlin Wilson, dies under suspicious circumstances. Prior to his accidental fall off a New Hampshire mountain trail, Devlin made the discovery of a lifetime--unearthing undeniable proof that a technologically advanced society thrived on Earth long before archaeologists thought possible! The key to this shocking evidence lies in a set of mysterious stones forged by a long forgotten race of ancient mariners. Instilled with formidable powers to build, communicate, fight and heal, the stones draw the ruthless attention of villainous thieves hell bent on their acquisition by any means possible...including murder. Aided by friend Pebbles McCarver and police detective Jennifer Stevens, Anlon follows traces of bewildering clues left by his uncle in a dangerous chase to unravel the stones' secrets before the killer strikes again and escapes with the priceless artifacts.--Page 4 of cover

**The Best of Robert E. Howard Volume 1** Robert E. Howard, 2007-08-14 Robert E. Howard is one of the most famous and influential pulp authors of the twentieth century. Though largely known as the man who invented the sword-and-sorcery genre--and for his iconic hero Conan the Cimmerian--Howard also wrote horror tales, desert adventures, detective yarns, epic poetry, and more. This spectacular volume, gorgeously illustrated by Jim and Ruth Keegan, includes some of his best and most popular works. Inside, readers will discover (or rediscover) such gems as "The Shadow Kingdom," featuring Kull of Atlantis and considered by many to be the first sword-and-sorcery story; "The Fightin'est Pair," part of one of Howard's most successful series, chronicling the travails of Steve Costigan, a merchant seaman with fists of steel and a head of wood; "The Grey God Passes," a haunting tale about the passing of an age, told against the backdrop of Irish history and legend; "Worms of the Earth," a brooding narrative featuring Bran Mak Morn, about which H. P. Lovecraft said, "Few readers will ever forget the hideous and compelling power of [this] macabre masterpiece"; a historical poem relating a momentous battle between Cimbri and the legions of Rome; and "Sharp's Gun Serenade," one of the last and funniest of the Breckinridge Elkins tales. These thrilling, eerie, compelling, swashbuckling stories and poems have been restored to their original form, presented just as the author intended. There is little doubt that after more than seven decades the voice of Robert E. Howard continues to resonate with readers around the world.

Sticks, Stones, and Shadows Martin Isler, 2001 What do the pyramids of Egypt really represent? What could have driven so many to so great, and often so dangerous, an effort? Was the motivation religious or practical? Illustrated with more than 300 photographs and drawings, this book presents an original approach to the subject of pyramid building. It reveals the connection between devices that served both a practical need for survival and a spiritual belief in gods and goddesses. It examines Egyptian technologies and techniques from the origins of pyramid development to the step-by-step details of how the ground was leveled, how the site was oriented, and how the stone was raised and placed to meet at a distant point in the sky. Here the author also asks and answers questions virtually ignored for the last century. He discloses, for example, the ancient use of shadows, now denigrated to the ornamental back-yard sundial, but once an important tool for telling the height of an object, geographical directions, the seasons of the year, and the time of day. He also reinterprets the ancient stretching of the cord ceremony, which once was thought to have only religious significance but here is shown as the means of establishing the sides of a pyramid.

**In the Shadow of Quetzalcoatl** Merilee Grindle, 2023-11-07 The gripping story of a pioneering anthropologist whose exploration of Aztec cosmology, rediscovery of ancient texts, and passion for collecting helped shape our understanding of pre-Columbian Mexico. Where do human societies come from? The drive to answer this question took on a new urgency in the nineteenth century, when a generation of archaeologists began to look beyond the bible for the origins of different cultures and civilizations. A child of the San Francisco Gold Rush whose mother was born in Mexico City, Zelia Nuttall threw herself into the study of Aztec customs and cosmology, eager to use the tools of the emerging science of anthropology to prove that modern Mexico was built over the ruins of ancient civilizations. Proud, disciplined, as prickly as she was independent, Zelia Nuttall was the first person to accurately decode the Aztec calendar stone. An intrepid researcher, she found pre-Columbian texts lost in European archives and was skilled at making sense of their pictographic histories. Her work on the terra-cotta heads of Teotihuacán captured the attention of Frederic Putnam, who offered her a job at Harvard's Peabody Museum. Divorced and juggling motherhood and career, Nuttall chose to follow her own star, publishing her discoveries and collecting artifacts for US museums to make ends meet. From her beloved Casa Alvarado in Coyoacán, she became a vital bridge between Mexican and US anthropologists, connecting them against the backdrop of war and revolution. The first biography of Zelia Nuttall, *In the Shadow of Quetzalcoatl* captures the appeal and contradictions that riddled the life of this trailblazing woman, who contributed so much to the new field of anthropology until a newly professionalized generation overshadowed her remarkable achievements and she became, in the end, an artifact in her own museum.
