Salt Water Josep Pla, 2020-12-01 Peter Bush, winner of the Ramon Llull Prize for Literary Translation, brings to English this most prolific and influential of Catalan writers. Dripping with a panache that can turn in a comic instant to the most conciliatory humility, Josep Pla's foray into the land and sea most familiar to him will plunge readers head-first into its mysterious (and often tasty!) depths. Here are adventures and shipwrecks, raspy storytellers and the fishy meals that sustain them. After describing the process of beating an octopus with branches to soften up its flesh, Pla writes, These are dishes that must be seen as a last resort. Pla inflects the mundane with the hidden rhythms of power sculpting culture, so that a hot supper is never just food--it embodies economic precarity and environmental erosion along with its own peculiar flavor. A lifetime of reporting on current events gave Pla the necessary skills to describe the world in all its gritty, funny, invigorating detail.

Distant Transit Maja Haderlap, 2022-03-22 From a groundbreaking Slovenian-Austrian poet comes an evocative, captivating collection on searching for home in a landscape burdened with violent history. At its core, Distant Transit is an ode to survival, building a monument to traditions and lives lost. Infused with movement, Maja Haderlap's Distant Transit traverses Slovenia's scenic landscape and violent history, searching for a sense of place within its ever-shifting boundaries. Avoiding traditional forms and pronounced rhythms, Haderlap unleashes a flow of evocative, captivating passages whose power lies in their associative richness and precision of expression, vividly conjuring Slovenia's natural world—its rolling meadows, snow-capped alps, and sparkling Adriatic coast. Belonging to the Slovene ethnic minority and its inherited, transgenerational trauma, Haderlap explores the burden of history and the prolonged aftershock of conflict—warm, lavish pastoral passages conceal dark memories, and musings on the way language can create and dissolve borders reveal a deep longing for a sense of home.

Dawn Sevgi Soysal, 2022-11-15 A searing autobiographical novel about a single night in prison suggests how broken spirits can be mended, and dreams rebuilt through imagination and human kindness "Like Pamuk's Snow, Dawn is the Turkish tragedy writ small. In contrast to Snow, it places gender at its heart." --Maureen Freely In Dawn, translated into English for the first time, legendary Turkish feminist Sevgi Soysal brings together dark humor, witty observations, and trenchant criticism of social injustice, militarism, and gender inequality. As night falls in Adana, köftes and cups of cloudy raki are passed to the dinner guests in the home of Ali – a former laborer who gives tight bear hugs, speaks with a southeastern lilt, and radiates the spirit of a child. Among the guests are a journalist named Oya, who has recently been released from prison and is living in exile on charges of leftist sympathizing, and her new acquaintance, Mustafa. A swift kick knocks down the front door and bumbling policemen converge on the guests, carting them off to holding cells, where they'll be interrogated and tortured throughout the night. Fear spools into the anxious, claustrophobic thoughts of a return to prison, just after tasting freedom. Bristling snatches of Oya's time in prison rush back – the wild curses and wilder laughter of inmates, their vicious quarrels and rapturous belly-dancing, or the quiet boon of a cup of tea. Her former inmates created

fury and joy out of nothing. Their brimming resilience wills Oya to fight through the night and is fused with every word of this blazing, lucid novel.

Kibogo Scholastique Mukasonga, 2022-09-13 FINALIST FOR THE 2022 NATIONAL BOOK AWARD A new masterwork of satire, lore, and living memory from the leading voice of French-Rwandan literature “Mukasonga breathes upon a vanished world and brings it to life in all its sparkling multifariousness” --J.M. Coetzee In four beautifully woven parts, Mukasonga spins a marvelous recounting of the clash between ancient Rwandan beliefs and the missionaries determined to replace them with European Christianity. When a rogue priest is defrocked for fusing the gospels with the martyrdom of Kibogo, a fierce clash of cults ensues. Swirling with the heady smell of wet earth and flashes of acerbic humor, Mukasonga brings to life the vital mythologies that imbue the Rwandan spirit. In doing so, she gives us a tale of disarming simplicity and profound universal truth. Kibogo’s story is reserved for the evening’s end, when women sit around a fire drinking honeyed brew, when just a few are able to stave off sleep. With heads nodding, drifting into the mist of a dream, one faithful storyteller will weave the old legends of the hillside, stories which church missionaries have done everything in their power to expunge. To some, Kibogo’s tale is founding myth, celestial marvel, magic incantation, bottomless source of hope. To white priests spritzing holy water on shriveled, drought-ridden trees, it looms like red fog over the village: forbidden, satanic, a witchdoctor’s hoax. All debate the twisted roots of this story, but deep down, all secretly wonder – can Kibogo really summon the rain?

Kin Miljenko Jergovic, 2021-06-15 Kin is a dazzling family epic from one of Croatia's most prized writers. In this sprawling narrative which spans the entire twentieth century, Miljenko Jergović peers into the dusty corners of his family's past, illuminating them with a tender, poetic precision. Ordinary, forgotten objects - a grandfather's beekeeping journals, a rusty benzene lighter, an army issued raincoat - become the lenses through which Jergović investigates the joys and sorrows of a family living through a century of war. The work is ultimately an ode to Yugoslavia - Jergović sees his country through the devastation of the First World War, the Second, the Cold, then the Bosnian war of the 90s; through its changing street names and borders, shifting seasons, through its social rituals at graveyards, operas, weddings, markets - rendering it all in loving, vivid detail. A portrait of an era.

Toxic Archipelago Brett L. Walker, 2011-07-01 Every person on the planet is entangled in a web of ecological relationships that link farms and factories with human consumers. Our lives depend on these relationships -- and are imperiled by them as well. Nowhere is this truer than on the Japanese archipelago. During the nineteenth century, Japan saw the rise of Homo sapiens industrialis, a new breed of human transformed by an engineered, industrialized, and poisonous environment. Toxins moved freely from mines, factory sites, and rice paddies into human bodies. Toxic Archipelago explores how toxic pollution works its way into porous human bodies and brings unimaginable pain to some of them. Brett Walker examines startling case studies of industrial toxins that know no boundaries: deaths from insecticide contaminations; poisonings from copper, zinc, and lead mining; congenital

deformities from methylmercury factory effluents; and lung diseases from sulfur dioxide and asbestos. This powerful, probing book demonstrates how the Japanese archipelago has become industrialized over the last two hundred years -- and how people and the environment have suffered as a consequence.

The Notion of Near Islands Nenad Starc, 2020-09-30 Viewed from the mainland, the history of the archipelago appears as a long list of non-invited but irresistible disembarkations. Viewed from on an island the archipelago has had a rich and unique history of sustainable use of scarce resources. The main theme of this book is the exploration of the meanings of near islands, of the archipelago. General and particular features of 1,246 islands of the Croatian archipelago are starting points of stories about particular islands, subarchipelagos and urban archipelagos. The chapters question and analyse the archipelago identity from different perspectives. Approached as a group of islands, the analysis investigates features of subarchipelagos, urban subarchipelagos, mainland dependent islands, outlying islands and island emigrant communities that are trying to restore and conserve their island. This book highlights the identity and identities of the archipelago as both complex and multidimensional.

Archipelago LeeAnne Hill Adams, 2004 Based almost entirely on experiences recounted by Gulag survivors. Archipelago honors the memories of artists and others who suffered and died in Stalin's concentration camps.

Archipelago Gavan Daws, Marty Fujita, 1999 From the 19th-century discoveries of Alfred Russell Wallace to the fate of forests and reefs in the 21st century, examine the beauty and grace of Indonesian Islands. 211 color illustrations. Maps, photos & line drawings.

Archipelago Monique Roffey, 2013-05-28 By the author of *The Mermaid of Black Conch*, a mesmerizing tale of a father and daughter's sailing adventure from Trinidad to the Galapagos Islands, winner of the 2013 OCM Bocas Prize for Caribbean Literature and finalist for the 2014 Orion Book Award Monique Roffey, vibrant new voice in Caribbean fiction and author of the Costa Book of Year Award-winning *The Mermaid of Black Conch* and Orange Prize finalist *The White Woman on the Green Bicycle*, returns with *Archipelago*, a new novel that is a journey of redemption, healing, and hope in the wake of devastating loss. When a flood destroys Gavin Weald's home in Trinidad and rips his family apart, life as he knows it will never be the same. A year later he returns to his house and tries to start over, but when the rainy season arrives, his daughter's nightmares about the torrents make life there unbearable. So father and daughter--and their dog--embark upon a voyage to make peace with the waters. Their journey takes them far from their Caribbean island home, as they sail through archipelagos, encounter the grandeur of the sea, and meet with the challenges and surprises of the natural world.

Small Lives Pierre Michon, 2012-03-24 *Small Lives* (*Vies minuscules*), Pierre Michon's first novel, won the Prix France Culture. Michon explains that he wrote it to save my own skin. I felt in my body that my life was turning around. This book born in an aura of inexpressible joy and catharsis rescued me more effectively than my aborted analysis. *Le Monde* calls it his chef d'oeuvre. A bolt of lightning. In *Small Lives*, Michon paints portraits of eight individuals, whose stories span two centuries in his native region of La Creuse. In the process of exploring their lives, he explores the act of writing and his emotional connection to both. The quest to trace and recall

these interconnected lives seared into his memory ultimately becomes a quest to grasp his own humanity and discover his own voice.

This edition is published with Santa Catalina Editions and NoPassport.

Plant Life of a Desert Archipelago Richard Stephen Felger, Benjamin Theodore Wilder, Humberto Romero-Morales, 2013-01-31 The desert islands of the Gulf of California are among the world's best-preserved archipelagos. The diverse and unique flora, from the cardón forests of Cholludo to the agave-dominated slopes of San Esteban remain much as they were centuries ago, when the Comcaac (Seri people) were the only human presence in the region. Almost 400 plant species exist here, with each island manifesting a unique composition of vegetation and flora. For thousands of years, climatic and biological forces have sculpted a set of unparalleled desert worlds. Plant Life of a Desert Archipelago is the first in-depth coverage of the plants on islands in the Gulf of California found in between the coasts of Baja California and Sonora. The work is the culmination of decades of study by botanist Richard Felger and recent investigations by Benjamin Wilder, in collaboration with Sr. Humberto Romero-Morales, one of the most knowledgeable Seris concerning the region's flora. Their collective effort weaves together careful and accurate botanical science with the rich cultural and stunning physical setting of this island realm. The researchers surveyed, collected, and studied thousands of plants—seen here in meticulous illustrations and stunning color photographs—providing the most precise species accounts of the islands ever made. To access remote parts of the islands the authors worked directly with the Comcaac, an indigenous community who have lived off marine and terrestrial life in this coastal desert region for centuries. Invaluable information regarding indigenous names and distributions are an intrinsic part of this work. The flora descriptions are extraordinarily detailed and painstakingly crafted for field biologists. Conservationists, students, and others who are interested in learning about the natural wealth of the Gulf of California, desert regions, or islands in general are sure to be captivated by this rich and fascinating volume.

The Atomic Archipelago Davide Orsini, 2022-05-24 Finalist, 2023 Turku Book Award In 1972, the US Navy installed a base for nuclear submarines in the Archipelago of La Maddalena off the northeastern shore of Sardinia, Italy. In response, Italy established a radiation surveillance program to monitor the impact of the base on the environment and public health. In the first systematic study of nuclear expertise in Italy, Davide Orsini focuses on the ensuing technopolitical disputes concerning the role and safety of US nuclear submarines in the Mediterranean Sea from the Cold War period to the closure of the naval base in 2008. His book follows the struggles of different groups—including local residents of the archipelago, US Navy personnel, local administrators, Italian experts, and politicians—to define nuclear submarines as either imperceptible threats, much like radiocontamination, or efficient machines at the service of liberty and freedom. Unlike inland nuclear power plants, vividly present and visible with their tall cooling towers and reactor containers, the mobility and invisibility of submarines

contributed to an ambivalence about their nature, perpetuating the idea of nuclear exceptionalism. In Italy, they symbolized objects in constant motion, easily removable at the first sign of potential harm. Orsini demonstrates how these mobile sources of hazard posed special challenges for both expert assessments and public understandings of risk, and in contexts outside the Anglo-Saxon world, where unique social power dynamics held sway over the outcome of technopolitical controversies.

The Archipelago of Hope Gleb Raygorodetsky, 2017-11-07 While our politicians argue, the truth is that climate change is already here. Nobody knows this better than Indigenous peoples who, having developed an intimate relationship with ecosystems over generations, have observed these changes for decades. For them, climate change is not an abstract concept or policy issue, but the reality of daily life. After two decades of working with indigenous communities, Gleb Raygorodetsky shows how these communities are actually islands of biological and cultural diversity in the ever-rising sea of development and urbanization. They are an “archipelago of hope” as we enter the Anthropocene, for here lies humankind’s best chance to remember our roots and how to take care of the Earth. We meet the Skolt Sami of Finland, the Nenets and Altai of Russia, the Sapara of Ecuador, the Karen of Myanmar, and the Tla-o-qui-aht of Canada. Intimate portraits of these men and women, youth and elders, emerge against the backdrop of their traditional practices on land and water. Though there are brutal realities—pollution, corruption, forced assimilation—Raygorodetsky's prose resonates with the positive, the adaptive, the spiritual—and hope.

The Security Archipelago Paul Amar, 2013-07-26 In *The Security Archipelago*, Paul Amar provides an alternative historical and theoretical framing of the refashioning of free-market states and the rise of humanitarian security regimes in the Global South by examining the pivotal, trendsetting cases of Brazil and Egypt. Addressing gaps in the study of neoliberalism and biopolitics, Amar describes how coercive security operations and cultural rescue campaigns confronting waves of resistance have appropriated progressive, antimarket discourses around morality, sexuality, and labor. The products of these struggles—including powerful new police practices, religious politics, sexuality identifications, and gender normativities—have traveled across an archipelago, a metaphorical island chain of what the global security industry calls hot spots. Homing in on Cairo and Rio de Janeiro, Amar reveals the innovative resistances and unexpected alliances that have coalesced in new polities emerging from the Arab Spring and South America's Pink Tide. These have generated a shared modern governance model that he terms the human-security state.

Archipelago David Liittschwager, Susan Middleton, 2005 Extending more than 1,200 miles from Honolulu, the dazzling Northwestern Hawaiian Islands are designated refuges of rare seabirds and marine life, where no one except research may tread. This book vividly captures the quicksilver nature of this gossamer strand of shoals, atolls, and basalt islands.

Archipelago Huw Lewis-jones, 2019-10-01 Celebrate the three-hundredth anniversary of Daniel Defoe’s *Robinson*

Crusoe with this vibrant atlas in which an international gathering of illustrators conjure imaginary islands and castaway dreams. What is it about islands that is so alluring, and why do so many people find these self-contained worlds irresistible? Utopia and Atlantis were islands, and islands have captured the imaginations of writers and artists for centuries. In 1719, Daniel Defoe published his tale of a castaway on a desert island, Robinson Crusoe, one of the first great novels in the history of English literature and an instant bestseller. Defoe's tale combined the real and the imagined into a compelling creative landscape, establishing a whole literary genre and unleashing the power of islands in storytelling. To celebrate the tercentenary of the publication of Robinson Crusoe, Archipelago presents a truly international range of leading illustrators who imagine they too have washed up on their own remote island. In specially created maps, they visualize what their island looks like, what it's called, and what can be found on its mythical shores. In a panoply of astonishingly creative responses, we are invited to explore a curious and fabulous archipelago of islands of invention that will beguile illustrators, cartographers, and dreamers alike.

Urban Archipelago Pavla Simková, 2021-10-29 The Boston Harbor Islands have been called Boston's hidden shores. While some are ragged rocks teeming with coastal wildlife, such as oystercatchers and harbor seals, others resemble manicured parks or have the appearance of wooded hills rising gently out of the water. Largely ignored by historians and previously home to prisons, asylums, and sewage treatment plants, this surprisingly diverse ensemble of islands has existed quietly on the urban fringe over the last four centuries. Even their latest incarnation as a national park and recreational hub has emphasized their separation from, rather than their connection to, the city. In this book, Pavla Simková reinterprets the Boston Harbor Islands as an urban archipelago, arguing that they have been an integral part of Boston since colonial days, transformed by the city's changing values and catering to its current needs. Drawing on archival sources, historic maps and photographs, and diaries from island residents, this absorbing study attests that the harbor islands' story is central to understanding the ways in which Boston has both shaped and been shaped by its environment over time.
