Denise Gaskins

Speed Math for Kids Martin Scott,2020-05-18 Speed Math for Kids Learn how to easily do quick mental math calculations Speed Math for Kids is your guide to becoming a math genius--even if you have struggled with math in the past. Believe it or not, you have the ability to perform lightning quick calculations that will astonish your friends, family, and teachers. You'll be able to master your multiplication tables in minutes, and learn basic number facts while doing it. While the other kids in class are still writing down the problems, you can be calling out the answers.Speed Math for Kids is all about playing with mathematics.This fun-filled book will teach you

**One-Sheet-A-Day Math Drills** Neki C. Modi,Alpa A. Shah,2020-09-16 This One-Sheet-A-Day math drill workbook is for 5th grade students who want extra practice with two numbers subtraction with decimals from hundredths to thousandths. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 5th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that ONE-SHEET-A-DAY is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. One-Sheet-A-Day math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.

**Lifetypes** Sandra Krebs Hirsh,Jean M. Kummerow,2009-09-26 Based on the Myers-Briggs personality test, this guide will help readers develop a complete, accurate psychological self-portrait and show them how to achieve success in life.

**Numbers for Kids Age 1-3** Dayna Martin,A. R. Roumanis,2015-06 This book introduces basic numbers and develops early language skills using images of things that every kid should know. Vibrant colors and images are designed to attract the attention of babies and toddlers. This book will help children identify all of their numbers before preschool.

One-Sheet-A-Day Math Drills Neki C. Modi,Alpa A. Shah,2020-09-16 This One-Sheet-A-Day math drill workbook is for 3rd grade students who want extra practice with two numbers, one digit division. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. One-Sheet-A-Day math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities. About the Author

**The Taylor Method for Multiplication** Sierra Mercedes Taylor,2023-04-22 Math can often be the hardest subject we take in school, but it doesn't have to be. Mother and daughter team Sierra and Emma Taylor worked hard to develop a simpler method for multiplication that children can now use to make math fun. Taking Emma from three weeks of practicing rote memory drills, down to 30 minutes; The Taylor Method for Multiplication revolutionizes stagnant teaching methods while energizing students, both traditional and home schooled, to look forward to math for the first time. If your child is struggling with math this is the book and the method for you! Filled with neat rhymes and illustrations for tear free times tables. The Taylor Method for Multiplication is a major breakthrough children will excel at .

**Multiplication & Fractions** Denise Gaskins,2016-11-09 Rescue your child from math phobia – by playing games! You'll love these math games because they give your child a sturdy foundation for understanding multiplication and fractions. Help your child master the times tables and build mental math skills. Play with advanced concepts such as division, fractions, decimals, and multi-step calculations. Multiplication & Fractions features 25 kid-tested games, offering a variety of challenges for upper-elementary and middle school students. Chapters include: • Mathematical Models: Learn to picture multiplication and fractions in a way that supports your child's comprehension. • Conquer the Times Tables: Enjoy practicing the math facts until correct answers become automatic. • Mixed Operations: Give mental muscles a workout with games that require number skills and logical thinking. • Fractions and Decimals: Master equivalent fractions, work with decimal place value, and multiply fractions and decimal numbers. Math games prevent math anxiety. Games pump up your child's mental muscle, reduce the fear of failure, and generate a positive attitude toward mathematics. Parents can use these games to enjoy quality time with your children. Classroom teachers like them as warm-ups and learning center activities or for a relaxing review day at the end of a term. If you are a tutor or homeschooler, make games a regular feature in your lesson plans to build your students' mathskills. So what are you waiting for? Clear off a table, grab a deck of cards,

and let's play some math!

**One-Sheet-A-Day Math Drills** Neki C. Modi,Alpa A. Shah,2020-06-23 his One-Sheet-A-Day math drill workbook is for 4rd grade students who want extra practice with four and five digits subtraction. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4rd grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. **Easy Math for Kids** Michelle Green,2018-01-30 Do you want to be able to help your child understand math better? Would you like a comprehensive book, with a great teaching style that will make math easy for them? We all know that math is one of the most important subjects. It is one of the cornerstones for a successful life and without it children can face difficult challenges as adults. But finding the right book to help is difficult. This book changes all of that, is all about basic math - numbers, for children up to the age of 7 and comes complete with: All must know word problems, no need for other books More than 300 pages of exercises Fun drawings make learning easy All pages in black and white and can be colored in afterwards Repeat exercises to reinforce lessons Increasing levels of difficulty And more... This book is also excellent as a homeschool resource or for classroom work it will boost confidence in problem-solving. Unlike other books, which are written by experts, this is one that comes from the experience of a mother who was frustrated with the available books on the market and so took matters into her own hands. Having struggled to find something suitable for her own children when they were learning, she has produced something which is suitable for starting with kindergarten children and continuing until they have a firm grasp of basic math. Encouragement and learning from mistakes are all part of the process and with this book your child will have the perfect platform to build confidence with their math. Bonus material This book includes a voucher for a free eBook, having the same exercises, that you can print as many times as you want for all of your kids as they grow.

**Maths for Kids** Free Life,2021-04-27 This math practice workbook is organized in a progressively skill building way for kids to develop confidence in Addition & Subtraction, starting with: - Step 1: Addition - Step 2: Subtraction - Step 3: Addition & Subtraction With 90 pages of practice, your child will develop the muscle memory for Addition & Subtraction while also learning to do the sums quicker if they wish to challenge themselves. The student will find the Answers for each Exercise at the End of the Book.

**100 Days Math Subtraction Series: 1 Digit Minuends, 1 Digit Subtrahends, Daily Practice Workbook To Improve**

This e-book contains several subtraction worksheets for practice with one minuend and one subtrahend of 1 digit each. These maths problems are provided to improve the mathematics skills by frequent practicing of the worksheets provided. There is nothing more effective than a pencil and paper for practicing some math skills. These math worksheets are ideal for teachers, parents, students, and home schoolers. This ebook allows you to take print outs of these worksheets instantly or you can save them for later use. Teachers and home schoolers use the maths worksheets to test and measure the child's mastery of basic math skills. These math drill sheets can save you precious planning time when homeschooling as you can use these work sheets to give extra practice of essential math skills. Parents use these mathematic worksheets for their kids homework practice too. You can use the worksheets during the summer to get your children ready for the upcoming school term. Designed for after school study and self study, it is also used by homeschoolers, special needs and gifted kids to add to the learning experience in positive ways. It helps your child excel in school as well as in building good study habits. If a workbook or mathematic textbook is not allowing for much basic practice, these sheets give you the flexibility to follow the practice that your student needs for a curriculum. These worksheets are not designed to be grade specific for students, rather depend on how much practice they've had at the skill in the past and how the curriculum in your school is organized. Kids work at their own level and their own pace through these activities. The learner can practice one worksheet a day, one per week, two per week or can follow any consistent pattern. Make best use of your judgement. Categories: Free, Math, Mathematics, Maths, Education, Textbooks, PDF, Worksheets, Workbooks, Teachers, Students, Worksheet, Workbook

Designed for after school study and self study, it is used by homeschooler, special needs and gifted kids to add to the learning experience in positive ways. You can also use the worksheets during the summer to get your children ready for the upcoming school term. It helps your child excel in school as well as in building good study habits. If a workbook or mathematic textbook is not allowing for much basic practise, these sheets give you the flexibility to follow the practice that your student needs for an education curriculum. These worksheets are not designed to be grade specific for students, rather depend on how much practice they've had at the skill in the past and how the curriculum in your school is organized. Kids work at their own level and their own pace through these activities. The learner can practice one worksheet a day, two worksheets a day, one every alternate day, one per week, two per week or can follow any consistent pattern. Make best use of your judgement. Categories: Free, Math, Mathematics, Maths, Education, Textbooks, PDF, Worksheets, Workbooks, Teachers, Students, Worksheet, Workbook
