**Merchant Marine Survivors of World War II** Michael Gillen,2014-12-19 World War II could not have been won without the U.S. Merchant Marine. Crewed by civilian seamen in peacetime and carrying much of the nation's ocean-borne commerce, the Merchant Marine became the fourth arm of defense in wartime, providing vital support for beachheads in all theaters of operation. Twenty World War II Merchant Marine veterans are featured in this oral history. Most had at least one ship torpedoed, bombed, shelled or mined out from under them--some of them two. Some became prisoners of the Japanese for the duration of the war, working on the infamous River Kwai Bridge. Many spent time on lifeboats or flimsy rafts under harsh conditions; one--Donald Zubrod--endured 42 days in a lifeboat with several others before their eventual rescue, close to death. American merchant mariners suffered a casualty rate that was a close second to the Marine Corps during the war.

**Defensively-Armed Merchant Ships and Submarine Warfare (Classic Reprint)** A. Pearce Higgins,2017-10-16 Excerpt from *Defensively-Armed Merchant Ships and Submarine Warfare* Much has happened since August, 1914. Old problems in new forms have arisen, and a further examination of them, in view of new developments, seems called for. I propose

in the following pages shortly to recapitulate the evidence and the conclusions reached in the former paper, written, it will be noticed before the outbreak of the war, conclusions to which I fully adhere to add further evidence which has been acquired since that paper was written; and to discuss the unprecedented situation which has arisen in view of the German use of submarines as commerce destroyers. **The Ship That Never Was** B.J. BRYAN, 2011-03-19 The United States Merchant Marine provided the greatest sealift in history between the production army at home and the fighting forces scattered around the globe in World War II. The prewar total of 55,000 experienced mariners was increased to over 215,000 through U. S. Maritime Service training programs. Merchant ships faced danger from submarines, mines, armed raiders, and destroyers, aircraft (kamikaze), and the element. About 8,300 mariners were killed at sea, 12,000 wounded of whom at least 1,100 died from their wounds, and 663 men and women were taken prisoner. Some were blown to death, some incinerated, some drowned, some froze and some starved. Many died in prison camps or aboard Japanese ships while being transported to other camps. 31 ships vanished without a trace to a watery grave. ( Total killed estimated 9,300)

**The Merchant Navy Seaman Pocket Manual 1939–1945** Chris McNab, 2018-12-19 A view into the world of the intrepid but often forgotten seamen who helped the Allies win WWII. They may not have worn gold braid or medals, but the Allied Merchant Navies in World War II provided a vital service to their countries' war efforts. Hundreds of thousands of British and American sailors—some as young as fourteen—faced considerable risks to maintain an essential flow of armaments, equipment, and food: submarines, mines, armed raiders and destroyers, aircraft, kamikaze pilots, and the weather itself. Life on board a merchant ship could be tense, with hour after hour spent battling high seas, never knowing if a torpedo was about to hit. In the Arctic convoys, sailors had to cope with extreme cold and ice. But there was also comradeship and more open society than was the norm at the time, free of distinctions of class, race, religion, age, or color, and a mixture of nationalities, especially in the British fleet. The Merchant Navy Seaman Pocket Manual provides a fascinating glimpse into the world of these brave sailors, many of whom did not return. Drawing on documents, diagrams, and illustrations from British and American archives, it combines information on training, gunnery, convoys, and antisubmarine techniques with dramatic personal accounts. Covering the Battle of the Atlantic, the Arctic Convoys, and the Pacific, this book pitches the reader into the heart of this vital but often forgotten arena of WWII.

*Fourth Arm of Defense* Salvatore R. Mercogliano, 2017 This publication is the eighth in the series *The U.S. Navy and the Vietnam War*. The publication focuses on the sealift and logistic operations during the war and includes a number of photographs as well as sidebars detailing specific people and ships involved in the logistic operations. This historical pictorial reference would be of interest to students, historians, members of the military, specifically the Navy, and military leaders, veterans, Vietnam War veterans, and the U.S. merchant marines.

Heroes in Dungarees Estate of: John Bunker, 2013-01-15 A World War II merchant seaman, John Bunker takes a thorough look at the American merchant marines' significant contributions to the war effort. There are plenty of fascinating facts about their extensive supply operations, but the focus of the book is on the men and their often-heroic actions. Bunker draws from his own experiences to describe the action at sea and also includes the personal stories of many other civilian participants. It is an engaging portrayal of the courage, bravery, and ingenuity demonstrated by these merchant seamen. All theaters of operation using U.S. merchant ships are covered; in addition, Bunker provides information on events before the country entered the war when efforts were being made to build more ships and to recruit the men necessary to crew the huge fleet.
