Feyre has returned to the Spring Court, determined to gather information on Tamlin's actions and learn what she can about the invading king threatening to bring her land to its knees. **Armed Organizations and Political Elites in Civil Wars** Erwin van Veen,2024-06-03 This book analyses under what conditions, and with what developmental effects, armed organizations shift their 'coercive profile' during civil wars, with a focus on the recent conflicts in Syria and Iraq. The work begins with an operationalisation of the term 'political settlement', focusing on how power is organized in fragile and conflict-affected countries, and then uses this operationalization to analyse the political settlements of contemporary Syria and Iraq, including their breakdown and transformation during recent civil wars (of 2011-today in Syria and 2014-17 in Iraq). It subsequently examines why and how elite factions have used armed organizations in times of conflict. This approach links an understanding of the broad evolution of power relations at the national level

with the specific effects of the use of armed organizations on such relations. It argues for a shift from assigning fixed labels to armed organizations during civil wars to studying their coercive profile in a dynamic fashion, i.e. how armed organizations behave in terms of their use of threats and coercive force. The book introduces five profiles of coercive behaviour that demonstrate how the same organization can behave very differently at various points in time. One of these, the 'hybrid coercive profile', fills a gap in the existing civil war typology of organized armed violence by opening up the possibility of elite factions deliberately combining collaborative and competitive modes of behaviour. As an evidence base, the book provides in-depth analysis of the origins, evolution and operations of four armed organizations that have acted under a hybrid coercive profile during the Syrian and Iraqi civil wars: the Syrian Kurdish People's Defence Forces, the Eagles of the Whirlwind of the Syrian Social Nationalist Party, the Iraqi Kurdish Peshmerga and the Badr Organization. By connecting the concepts of political settlement and civil war, and applying them to specific armed organizations operating in Syria and Iraq, the book offers new insights into this nexus. This book will be of much interest to students of civil wars, conflict studies, Middle Eastern Studies and International Relations.

*The De-Radicalization of Jihadists* Omar Ashour, 2009-04-07 This book is the first detailed study of the causes of de-radicalization in armed Islamist

movements. It is based on frontline research that includes interviews with Jihadist leaders, mid-ranking commanders, and young sympathizers, as well as former security and intelligence officers and state officials. Additionally, it is also the first book to analyze the particular conditions under which successful de-radicalization can take place. The current literature on Islamist movements attempts to explain two principal issues: their support of violence (radicalization) and their changing attitudes towards democracy and democratization (moderation). However, the reasons behind renouncing (behavioural de-radicalization) and de-legitimizing (ideological de-radicalization) violence have not been evaluated to date. The author provides an in-depth analysis of the de-radicalization processes of the Egyptian Muslim Brothers (1951-73), former allies of al-Qa'ida, such as al-Gama'a al-Islammiyya (Islamic Group of Egypt, 1997-2002) and al-Jihad Organization (2007- present), as well as of Algerian Islamist groups (1997-2000). The book also analyzes cases of de-radicalization failure. The two questions that the book highlights and attempts to answer are Why? and How? For example, why do radical Islamist militants revise their ideologies, strategies and objectives and initiate a de-radicalization process; and what are the necessary conditions behind successful de-radicalization? De-radicalization of Jihadists shows how a combination of charismatic leadership, state repression, social interactions and selective inducements can ultimately lead jihadists to abandon 'jihad' and de-legitimize violence. This book will be of

great interest to students of radical Islamist movements and Islamic Studies, terrorism and political violence, security studies, and Middle Eastern politics. Omar Ashour is a Lecturer in Politics in the Institute of Arab and Islamic Studies, University of Exeter. He has a PhD in International Relations from McGill University in Canada.
