*Scars and Stripes* Tim Kennedy,Nick Palmisciano,2024-01-09 From decorated Green Beret sniper, UFC headliner, and all around badass, Tim Kennedy, a rollicking, inspirational memoir offering lessons in how to embrace failure and weather storms, in order to unlock the strongest version of yourself. Tim Kennedy has a problem; he only feels alive right before he's about to die. Kennedy, a Green Beret, decorated Army sniper, and UFC headliner, has tackled a bull with his bare hands, jumped out of airplanes, dove to the depths of the ocean, and traveled the world hunting poachers, human traffickers, and the Taliban. But he's also the same man who got kicked out of the police department, fire department, and as an EMT, before getting two women pregnant four days apart, and finally, been beaten up by his Special Forces colleagues for, quite simply, being a selfish asshole. In *Scars and Stripes*, Kennedy describes how these failures shaped him into the successful businessman and devoted husband and father he is today. Through unbelievably vivid, wild anecdotes Kennedy reveals all the dumb, violent, embarrassing, and undeniably heroic things he's done in his life, including

multiple combat missions in Afghanistan, building a school in Texas for elementary kids, and creating two-multimillion-dollar businesses. You will learn that failure isn't the end-rather it's the first step towards unearthing the best version of yourself and finding success, no matter how overwhelming the setbacks may feel--

Their ultimate goal of a return to Fenris - with their honour restored and oaths resworn - becomes steadily more elusive. As the Imperium's borders crumble and the long-propheesied onslaught of the Archenemy begins, Járnhamar pack must race to uncover the truth of an ancient betrayal and halt its horror from coming to pass, lest everything they have fought for be destroyed in the coming storm.

Gamma Wolves Ash Barker, 2020-11-26 In the blasted, radiation-scorched, wastelands of the Earth's surface, towering mecha do battle, defending the interests of one of the few remaining arcology governments, providing security for wilderness outposts, or seeking out loot and supplies as a mercenary company. With detailed rules for designing and customizing your mecha, from size and propulsion type to payload and pilot skills, and a campaign system that allows pilots to gain experience and skills as they patrol the shattered Earth, Gamma Wolves is a fast-playing game of post-apocalyptic mecha warfare.

**Regions and Powers** Barry Buzan, Ole Wæver, 2003-12-04 This book develops the idea that since decolonisation, regional patterns of security have become more prominent in international politics. The authors combine an operational theory of regional security with an empirical application across the whole of the international system. Individual chapters cover Africa, the Balkans, CIS Europe, East Asia, EU Europe, the Middle East, North America, South America, and South Asia. The main focus is on the post-Cold War period, but the history of each regional security complex is traced back to its beginnings. By relating the regional dynamics of security to current debates about the global power structure, the authors unfold a distinctive interpretation of post-Cold War international security, avoiding both the extreme oversimplifications of the unipolar view, and the extreme deterritorialisations of many globalist visions of a new world disorder. Their framework brings out the radical diversity of security dynamics in different parts of the world.

*Firethorn* Sarah Micklem,2007-11-01 Firethorn, the first volume in an epic trilogy, is a stunning debut. Sarah Micklem has introduced an unforgettable heroine into the fantasy pantheon. Loving, reckless, and indomitable, Firethorn travels through an imaginary world as real as history and as marvelous as legend. Firethorn flees a life of drudgery to live alone in the forest, relying on her knowledge of herb lore to survive. She returns transformed, indebted to the god who saved her life, and blessed - or cursed -- with uncanny abilities and a nagging sense of destiny. After a few nights of dalliance with Sire Galan, a high-caste warrior on his way to join the king's army, Firethorn seizes the chance to go with him, only to find she has exchanged one form of servitude for another. The army readies for war in the vast encampment of the Marchfield, where men prey on each other and women dare go nowhere alone. Among the lowborn harlots and the highborn dames of the camp, Firethorn learns to use her gifts as a healer, venturing into realms of dream and shadow. Desire drew Firethorn and Sire Galan together, but love binds them -- a love that has no place in the arrangement between

a warrior and his sheath. When Galan makes a wager with disastrous consequences, Firethorn uses her gifts to intervene in his fate and learns just how hard it can be to tell honor from dishonor, justice from vengeance. Sarah Micklem has written an extraordinary tale -- at once magical and earthbound, beautiful and violent. She immerses readers in a remarkably imagined world where gods are meddlesome, the highborn uphold their privileges with casual brutality, and a woman's only recourse may be the strength she finds within.
