From the Prairie to the Pentagon Denise M. Jelinski-Hall, 2021-10-15 A poignant story of faith, family, and country that reveals the courage it takes to try, succeed, and live to tell about life's often-improbable journey. --Linda Lingle Governor of Hawaii (2002-2010) The inspirational story of a young girl's journey from the family farm to a seat at the table with the most powerful civilian and military men in the world. Raised on the family farm in Central Minnesota, Denise Jelinski-Hall attended a one-room country school through the fifth grade and never dreamed of opportunities beyond her rural community. After graduating from high school, she took an assembly-line job as a seamstress, then became a teller at the local bank. One day, a chance observation by a member of the Minnesota Army National Guard changed her life forever: I see so much more potential in you, Denise. Why don't you join the Air Force and get out of this town? Over the next three decades, Denise rose through the ranks, ultimately serving as the first woman to be the Senior Enlisted Advisor to the chief of the National Bureau, a member of the Joint Chiefs of Staff (JCS). In this position, she became the first woman to serve as a Senior Enlisted Advisor to a member of the JCS--the highest position ever achieved by an enlisted woman in the history of the US military. Denise's memoir demonstrates what one person can achieve with a strong work ethic and a desire to serve. It is a timeless American story of success, determination, perseverance, and faith. This story is an inspiration to those in the military. Denise is a role model for leadership in the corporate world and an example of achievement to those looking for self-improvement. --Sergeant Major of the Army Kenneth O. Preston United States Army (ret.)

The History of the Indian Mutiny of 1857-58: Vol 4 Sir John Kaye, Colonel Malleeson, 2013-01-07 Volume IV of VI Best edition of the standard work (with analytical index in Vol. VI) Contemporary review from the Athenaeum: It only be remarked that Colonel Malleeson wields his pen with so much skill that while giving a realistic account of all important operations, passing over no really noteworthy act of talent or heroism, and acutely criticising everything which demands criticism, he abstains from overlaying his narrative with details which would have increased the bulk of his book beyond all reason. Another characteristic of Colonel Malleeson is that he never hesitates to condemn conduct of which he disapproves or to draw attention to errors which he conceives were committed, whatever the rank or position of those who are the objects of his criticism. The result is that many of the actors in the drama will find their laurels somewhat injured, while others, who from official prejudice have not yet received full credit for their exploits, obtain from the author due praise for their services. The rewards given for the Mutiny were liberal, but it is distressing to find that some of them were undeserved, while on the other hand, many able and gallant men have received no recognition at all ... There are many highly-placed officials whose fame is sadly tarnished by the frank, truthful criticisms of the fearless, uncompromising author of the book before us.

Vietnam Studies Col Francis J. Kelly,2016–12–10 As long ago as 1957, U.S. Army Special Forces soldiers were in the Republic of Vietnam. going about their business of training, advising, and assisting members of the Vietnamese Army. Despite the old Army witticism about never volunteering for anything, the Special Forces soldier is. in fan, a double volunteer, having first volunteered for airborne training and then again for Special Forces training. From a very meager beginning but sustained by a strong motivation and confidence in his mission, the Special Forces soldier has marched through the Vietnam struggle in superb fashion. In 1957 some fifty-eight Vietnamese soldiers were given military training by Special Forces troops. Ten years later the Special Forces were advising and assisting over 40,000 paramilitary troops, along with another 40,000 Regional Forces and Popular Forces soldiers. This monograph traces the development and notes the progress, problems. successes, and failures of a unique program undertaken by the U.S. Army for the first lime in its history. It is hoped that all the significant lessons learned have been recorded and the many pitfalls of such a program uncovered. I am responsible for the conclusions reached, yet my thought processes could not escape the influence of the many outstanding officers and men in the Special Forces who joined in the struggle. Particularly, I must lake note of the contributions of the Special Forces noncommissioned officers, without question the most competent soldiers in the world. With the withdrawal of the Special Forces from Vietnam in 1971, the Army could honestly lay claim to a new dimension in ground warfare—the organized employment of a paramilitary force in sustained combat against a determined enemy. I know I speak for my predecessors and successors in claiming that the 5th Special Forces Group (Airborne) was the finest collection of professional soldiers ever assembled by the U.S. Army, anywhere, anytime. Francis John Kelly Colonel, Armor 1972
