Army Training: Improvements Are Needed in 5-Ton Truck Driver Training and Supervision ,2001 The Army has around 97,000 medium tactical wheeled vehicles (about 57,000 5-ton trucks and 41,000 2-1/2-ton trucks) in its fleet. The M939 accounts for more than half its 5-ton trucks. The truck is used to carry personnel or pull equipment under all weather and road conditions, including rain, snow, ice, unpaved roads, sand, and mud. The active Army uses formal and informal programs to train 5-ton truck drivers. The formal program is aimed at military personnel whose official primary occupation will be 88M Motor Transport Operator--Or truck driver. The program lasts 6 weeks and is taught in schools at Fort Leonard Wood, Missouri, and Fort Bliss, Texas. Fort Leonard Wood trains about 90 percent of all 88M students. Fort Bliss for the most part trains the overflow of students that Fort Leonard Wood cannot accommodate. The formal instruction program calls for about 1 week in the classroom and 5 weeks of hands-on training. Students who complete the program do not immediately receive a license to drive a 5-ton truck; they are licensed at their next duty station after undergoing additional training and testing there. The Army Transportation Center and School at Fort Eustis, Virginia, is responsible for the content of the instruction program used by the formal training schools. It aligns under the Army Training and Doctrine Command at Ft. Monroe, Virginia.

It stresses hands-on training with minimal classroom instruction. It does not include any theater-unique requirements. This TC teaches the novice (inexperienced) driver to operate the HMMWV. It also can be used to teach the apprentice driver. (The apprentice driver is a driver that has been driving military vehicles for at least one year.) The apprentice driver may learn to operate the HMMWV in less time than the novice, assuming that skills learned on other military vehicles are positive skills transferable to operating a HMMWV.

Vietnam Convoy Trucker William E. (Bill) Patterson,2014-10-29 Vietnam Convoy Trucker recounts the story of Specialist Five William (Bill) Patterson, as he and his fellow truck drivers delivered supplies to American combat troops battling the North Vietnamese Army and Viet Cong. The men experienced moments of fear, boredom and humor during their almost year-long tour during the Vietnam War in the late 1960s. The Lord watched over them and brought all but one back safely. Various members of the company took the photographs that accompany many of the incidents he describes. Author Bio: William E. (Bill) Patterson was born in Augusta, GA in 1943, one of seven children. He has lived all his life within ten miles of the Augusta National Golf Course. No, he has never played there! He attended public schools, and used his G.I. Bill benefit and graduated from Augusta College (now Georgia Regents University) with a Bachelor Of Business Administration (emphasis Management) degree. He was awarded the U.S. Army Commendation Medal for his Vietnam War service. Bill was a Georgia State Bowling Championship Team member as a youth and as an adult. He was awarded the U.S. Army Major Command Outstanding Program (Bowling) Managers Award in 1988 and 1989. After nearly forty years' employment with bowling centers he is now retired. He and wife Shelley are Christians and very active in their Warren Baptist Church. His priorities now are God, Family, Country and Other in that order of importance. He hopes his fellow Vietnam War Veterans and others will find this book worth reading.

Slowing for the Rough Stuff Jonathan Jones, 2021-11-15 The complexities of war are only truly known when you've experienced it. From 1992 to 1994, Jonathan Jones, an ex-serviceman of the Gloucestershire Regiment, found himself in the depths of chaos while providing humanitarian aid as a civilian truck driver in the former Yugoslavia. As part of the British Convoy Team, Jones, along with other civilian truck drivers, were able to access areas cut off to the military; allowing much-needed supplies to reach those who were affected by the war the most—the people. With funding from the British Government and support from the United Nations High Commission for Refugees (UNHCR), the duties of truck driving were clear, but the truth behind it was not. Part history, part memoir, Slowing for the Rough Stuff discusses the economic and political landscape of this volatile war prior to the British Convoy Team's arrival. Jones delves into the challenging situations faced by the UNHCR Convoy teams of political red tape, the black market, and facing death every day. Slowing for the Rough Stuff will keep you on the edge of your seat while you learn and witness the true events surrounding civilian truck drivers in the warzone of the former Yugoslavia.

Training Circular Tc 21-305-8 Training Program for Medium Vehicles United States Government US Army, 2017-02-28 Training Circular TC 21-305-8 Training Program For Medium Vehicles This training circular (TC) provides a training program for the wheeled vehicle operator of medium vehicles (straight vehicles, 5 ton and greater), in accordance with Army Regulation (AR) 600-55. It can be used to train drivers of tactical or commercially- designed vehicles. Instructions in this TC are written in general terms because they include driver tasks for several vehicles. Therefore, use the appropriate vehicle operator's manual in conjunction with this TC. While developing this TC, each driver candidate was assumed to have a state driver's license and some past driving experience. Less experienced soldiers will need additional subjects and time to train to the standard. This TC provides standardized training and testing in the operation, maintenance, and safety of medium wheeled vehicles. It stresses hands-on training with minimal classroom instruction. It does not include any theater-unique requirements. To provide effective training, each instructor should ensure his operators are trained and tested to the standards in this TC. Any deviation from successfully completing these basic standards will only decrease the soldiers' overall driving effectiveness. This training program offers commanders some alternatives. Chapter 7 contains training and testing for drivers transporting personnel in trucks; Chapter 8, for drivers transporting personnel in buses. For safety reasons, all drivers should be tested on the End Of Course Comprehensive Test (EOCCT) (Chapter 6) before proceeding to Chapters 7 or 8. Also, Chapter 9 includes additional subjects that can be added at the commander's discretion based on the unit's mission. Graduates (licensed drivers) of this training program should be supervised until they have gained the experience to operate safely. They should not be placed in situations that may be above their skill level. Periodically, the supervisor should ride with each driver to observe safe operating procedures and to determine the need for more training.
