*The Content Governance Dilemma* Edoardo Celeste, Nicola Palladino, Dennis Redeker, Kinfe Yilma, 2023 This open access book is one of the first academic works to comprehensively analyse the dilemma concerning global content governance on social media. To date, no single human rights standard exists across all social media platforms, allowing private companies to set their own rules, values and parameters. On the one hand, this normative autonomy raises serious concerns, primarily around whether companies should be permitted to establish the rules governing free speech online. On the other hand, if social media platforms simply adopted international law standards, they would be compelled to operate a choice on which model to follow, and put in place mechanisms to uphold these general standards. This book examines this topic from a multidisciplinary perspective, drawing from the expertise of the authors in law, political science and communication studies. It provides a carefully reconstructed theory of the content governance dilemma, as well as pragmatic solutions for companies and policymakers. In this way, the book not only benefits academics by advancing the debate on content moderation issues, but also informs new policies and regulatory strategies by offering an up-to-date overview of rules and tools for content moderation, as well as an evaluation of their current level of compliance with standards emerged in international human rights law and digital constitutionalism initiatives. Edoardo Celeste is Assistant Professor of Law, Technology and Innovation and Director of the European Master in Law, Data and AI at the School of Law and Government, Dublin City University, Ireland. Nicola Palladino is a Research Fellow under the Human+ Co-Fund Marie Skłodowska-Curie Programme at the Trinity Long Room Hub Arts and Humanities Research Institute, Trinity College Dublin, Ireland. Dennis Redeker is a Postdoctoral Researcher at ZeMKI, Centre for Media, Communication and Information Research, University of Bremen, Germany. Kinfe Yilma is Assistant Professor of Law at the School of Law, Addis Ababa University, Ethiopia.

*Goodbye Globalization* Elisabeth Braw, 2024-02-13 A bold new account of the state of globalization today--and what its collapse might mean for the world economy After the Cold War, globalization accelerated at breakneck speed. Manufacturing, transport, and consumption defied national borders, companies made more money, and consumers had access to an ever-increasing range of goods. But in recent years, a profound shift has begun to take place. Business executives and politicians alike are realising that globalization is no longer working. Supply chains are imperilled, Russia has been expelled from the global economy after its invasion of Ukraine, and China is using these fissures to leverage a strategic advantage. Given these pressures, what will the future of our world economy look like? In this groundbreaking account, Elisabeth Braw explores the collapse of globalization and the profound challenges it will bring to the West. Drawing on interviews with prominent executives and policymakers from around the world, Braw poses the difficult questions all businesses and economies will face--and traces the intricate story of globalization from the exuberant '90s to the embattled present.

The Oxford Handbook of Community Singing Esther M. Morgan-Ellis, Kay Norton, 2024 The Oxford Handbook of Community Singing shows in abundant detail that singing with others is thriving. Using an array of interdisciplinary methods, chapter authors prioritize participation rather than performance and provide finely grained accounts of group singing in community, music therapy, religious, and music education settings. Themes associated with protest, incarceration, nation, hymnody, group bonding, identity, and inclusivity infuse the 47 chapters. Written almost wholly during the 2020-21 COVID-19 pandemic, the Handbook features a section dedicated to collective singing facilitated by audiovisual or communications media (mediated singing), some of it quarantine-mandated. The last of eight substantial sections is a repository of new theories about how group singing practices work. Throughout, the authors problematize the limitations inherited from the western European choral music tradition and report on workable new remedies to counter those constraints--

**Renegades** Trevor Boffone, 2021-06-18 Renegades: Digital Dance Cultures from

Dubsmash to TikTok explores how hip hop culture -- principally music and dance -- is used to construct and perform identity and maintain a growing urban youth subculture. This community finds its home on Dubsmash, a social media app that lets users record short dance challenge videos before cross-sharing them on different social media apps such as Instagram and Snapchat. Author Trevor Boffone interrogates the roles that Dubsmash, social media, and hip hop music and dance play in youth identity formation in the United States. These so-called Dubsmashers privilege their cultural and individual identities through the use of performance strategies that reinforce notions of community and social media interconnectedness in the digital age. These young people create a sense of identity and community that informs and is informed by hip hop culture. As such, the book argues that Dubsmash serves as a fundamental space to fashion contemporary youth identity. To do this, the book re-appropriates the term Renegade to explain the nuanced ways that Dubsmashers take up visual and sonic space on social media apps to self-fashion identity, form supportive digital communities, and exert agency to take up space that is often denied to them in other facets of their lives.

**TikTok** D. Bondy Valdovinos Kaye, Jing Zeng, Patrik Wikström, 2022-06-16 Since its acquisition and rebranding in 2018, TikTok has become one of the fastest growing platforms in the world. Moreover, it's the first Chinese-developed platform to find mainstream international success, carving its own niche in the global short video industry. In the first comprehensive exploration of TikTok, Kaye, Zeng, and Wikström provide a history of the emergent genre of short video and situate the platform within the cultures and controversies that have accompanied its dramatic growth. They provide an extensive overview of TikTok's functions and uses, the diverse markets in which the platform

operates, and the issues of governance that have impacted its expansion. Once thought to be 'just for kids', the authors illustrate how TikTok is further transforming platform cultures and the dynamics of broader creative industries. TikTok, the authors argue, represents an evolutionary step in the way culture is produced and consumed on digital platforms. This timely book is essential reading for students and scholars in media and communication studies and for anyone who has been captivated by the global growth of TikTok and short video.

**Simsim** Garima Garg, 2022-08-16 What will the future bring? The ancient astrologer turned the impulse to answer this question into something meaningful by mapping the night skies and attempting to see in the movement of planets and stars an impact on human lives. But did all astrologers see the same night sky? Did the observations of the Hindu astrologer match those of the Greek? How did the Egyptians and the Chinese understand the influence of the Sun and the Moon on our lives? Over the centuries, as astrology developed and evolved, it also seeped into our philosophies, religions, literature and arts. And it grew and shape-shifted in step with the times. Whereas the ancient astrologer was as much seer as astronomer, the modern counterpart is a tech-savvy innovator. *Heavens and Earth* examines the history of astrology, its many different systems and its development as a modern cultural phenomenon. Deeply researched and expertly narrated, the book contextualises the role of astrology in the ever-evolving human perspective of the cosmos and in understanding our place in it.
