*Mobile Oriented Future Internet (MOFI)* Seok-Joo Koh,2020-07-01 This Special Issue consists of seven papers that discuss how to enhance mobility management and its associated performance in the mobile-oriented future Internet (MOFI) environment. The first two papers deal with the architectural design and experimentation of mobility management schemes, in which new schemes are proposed and real-world testbed experimentations are performed. The subsequent three papers focus on the use of software-defined networks (SDN) for effective service provisioning in the MOFI environment, together with real-world practices and testbed experimentations. The remaining two papers discuss the network engineering issues in newly emerging mobile networks, such as flying ad-hoc networks (FANET) and connected vehicular networks.

**Law's Task** Louis E. Wolcher,2016-04-22 What is the ultimate task of law? This deceptively simple question guides this volume towards a radically original philosophical interpretation of law and justice. Weaving together the philosophical, jurisprudential and ethical problems suggested by five general terms - thinking, human suffering, legal meaning, time and tragedy - the book places the idea of law's ultimate task in the context of what

actually happens when people seek to do justice and enforce legal rights in a world that is inflected by the desperation and suffering of the many. It traces the rule of law all the way down to its most fundamental level: the existence of universal human suffering and how it is that law-doers inflict or tolerate that suffering.

*Josephus' Story of the Later Monarchy* Christopher Begg,2000 Josephus recounts events of the period extending from the later reign of Jehoshaphat of Judah through the immediate sequels to the fall of Jerusalem to the Babylonians in Antiquitates Judaicae (AJ) 9,1-10,185. Begg's monograph - a followup to his earlier work, Josephus Account of the Early Divided Monarchy (AJ 8,212-420) (BETL 108, 1993) - provides a detailed investigation of this portion of AJ. In particular, it seeks to address a range of overarching questions: which sources - both biblical and extra-biblical - did Josephus draw on in constructing his account of the later monarchy? Which text-form(s) of the Biblical sources were used by him? What sort of rewriting techniques has he applied to the data of his sources and what is distinctive about the Josephan version of events which results from their application? Finally, what messages may Josephus' account be intended to convey to his two intended audiences, i.e. cultivated Gentiles and fellow Jews? This study is envisaged as a contribution to a fuller appreciation of Josephus' work as an interpreter of the Bible.
