Choosing and Using a News Alert Service Robert Berkman,2004 There are dozens of competing firms that offer an e-mail-based news alert service. But how to know which one is best? This comprehensive new guide explains how these tools work and then identifies, compares, and evaluates more than two dozen free, inexpensive, and fee-based alert services. It not only helps you pick the right one, but also advises how to get the most out of the news alert once you begin the service. A detailed appendix also compares specific news source coverage for the major news alert vendors.

**The Oxford Handbook of Religion and the American News Media** Diane Winston,2012-09-06 Whether the issue is the rise of religiously inspired terrorism, the importance of faith based NGOs in global relief and development, or campaigning for evangelical voters in the U.S., religion proliferates in our newspapers and magazines, on our radios and televisions, on our computer screens and, increasingly, our mobile devices. Americans who assumed society was becoming more and more secular have been surprised by religions' rising visibility and central role in current events. Yet this is hardly new: the history of American journalism has deep religious roots, and religion has long been part of the news mix. Providing a wide-ranging examination of how religion interacts with the news by applying the insights of history, sociology, and cultural studies to an analysis of media, faith, and the points at which they meet, The Oxford Handbook of Religion and the American News Media is the go-to volume for both secular and religious journalists and journalism educators, scholars in media studies, journalism studies, religious studies, and American studies. Divided into five sections, this handbook explores the historical relationship between religion and journalism in the USA, how religion is covered in different media, how different religions are reported on, the main narratives of religion coverage, and the religious press.

Remnants Bitsy Frink Willmott,2018-12-19 This native Floridian author’s Southern roots were firmly in place before her adult life whirled through eight states and twenty-six moves with her husband—a union lasting fifty-eight years. Graduating in 1955 from Stetson University in DeLand, Florida, she met and married her lover the same year. This memoir, Remnants, is their true love story. Included besides the text are fifty-three old-fashioned love letters (109 pages) written in two summertime months alongside dating. The memoir is written for their son and three daughters. The romance in their heartfelt letters is a vanishing treasure in this era of electronic expression.

**The Science of the Mind** Ernest Holmes,2007-06-01 First published in 1926, this book is the most important writing from preacher Ernest Shurtleff Holmes. In it, he strives to introduce man to himself, as he truly is. Man is part of the Infinite Spirit, as is all of the visible and invisible in existence. And sharing in the creative power of the Infinite, man becomes able to make thought manifest, as is the case with illness. Holmes explains how the mind controls illness in the body and how changing one's mental state can be healing. In this volume, Holmes gives readers a complete course in Mental Science, so that they may come to understand the power and potential that exists within. Anyone looking for a new way to understand the world and their place in it will find this an empowering read.

*North Carolina Civil War Monuments* Douglas J. Butler,2013-05-07 Monuments honoring leaders and victorious armies have been raised throughout history. Following the American Civil War, however, this tradition expanded, and by the early twentieth century, the Confederate dead and surviving veterans, although defeated in battle, ranked among the world's most commemorated troops. This memorialization, described in North Carolina Civil War Monuments, evolved through a challenging and contentious process accomplished over decades. Prompted by the need to rebury wartime dead, memorialization, led by women, first expressed regional grief and mourning then expanded into a vital aspect of Southern memory. In North Carolina, 109 Civil War monuments--101 honoring Confederate troops and eight commemorating Union forces--were raised prior to the Civil War centennial. Photographs showcase each memorial while committee records, legal documents, and contemporaneous accounts are used to detail the difficult process through which these monuments were erected. Their design, location, and funding reflect not only the period's sculptural and cultural milieu but also reveal one state's evolving grief and the forging of public memory.
