Death in the Everglades Randi Minetor,2022-09-01 Hidden in the tall grasses and shallow waters of the Florida Everglades are true tales of mysterious deaths, clandestine crime, and disasters, both natural and manmade. Desperados fled here after escaping from prison, rum runners gunned down their enemies, and killers slipped their prey into canals as food for reptilian wildlife. Commercial airlines crashed and burned in the sawgrass, while smaller planes vanished from view. Hurricanes tore through the region, forcing Lake Okeechobee to overrun its banks and wipe out entire towns. And every once in a while, an alligator made someone its lunch. Collected here are some of the most gripping accounts in Everglades history, caused by natural forces, crime, operator error, or human folly.

Lifestyle blogger Ashley Hetherington tackles the question so we can finally start living the life that's waiting for us. Many women have no idea how to get into their faith. It's even easier for them to wonder what the heck is out there and if there really is someone Divine looking over them. Ashley Hetherington understands this problem. But she also discovered that no matter where you come from or how much you know, there is a way to start a relationship with

Jesus from scratch. Her experience helps us: · Learn how to pray, and see that it's a lot easier than you'd think. · Open up the Bible and actually understand it. · Find a church home, even if you don't have anyone to go with. · Make friends that will support you on your faith journey, and what Christian community looks like. Hetherington, a former Jesus-googler herself, delivers just how you can find your faith from ground zero. By the end of *A Scoop Of Honey*, you will understand more about your purpose, gain a sense of your worth, and you will surely feel closer to your Maker.

Understanding Young Children's Learning through Play Pat Broadhead, Andy Burt, 2012-03-12 This timely and accessible text introduces, theorises and practically applies two important concepts which now underpin early years practice: those of 'playful learning' and 'playful pedagogies'. Pat Broadhead and Andy Burt draw upon filmed material, conversations with children, reflection, observation, and parental and staff interviews, in their longitudinal study of outdoor and indoor play environments in an early years unit. This research-based text offers extensive insights into related theories, as well drawing on the authors' skills and knowledge as researcher and as class teacher in order to provide opportunities for personal reflection and possibilities for practical application in early years classes and settings. Discussing both indoor and outdoor environments, the text explores ideas surrounding 'open-ended play', and 'the whatever you want it to be place'. It illustrates how the themes of children's play reflect their interests, experiences, knowledge gained at home and in school, and their cultural heritages. By showing how children become familiar and skilful within open-ended play environments, the authors illustrate how the children's co-operative skills develop over time as they become connected in communities of learners. Alongside the examples of children's playful learning, the book also considers the implications for resourcing and organising playful settings through playful pedagogies that connect with the Early Years Foundation Stage curriculum (DfES 2007) and with the Tickell Review, ongoing as the book went to press. *Understanding Young Children's Learning through Play* uses children's perspectives on their play to illustrate how rich their personal understandings are.

It also includes parental reflections on what may initially appear a risky and unusual outdoor environment, and it draws attention to the importance of conflict resolution in play in order to extend children's resilience and assertiveness. This insightful text will be of interest to students of early years education, early years practitioners, academics and researchers.

Losing Our Edge Jeff Gomez, 2018-03-13 Generation X cult classics *Our Noise* and *Geniuses of Crack* chronicled a group of friends just out of college who lived in a small town, cared more about their record collections than their careers, and never imagined they'd have to grow up. *Losing Our Edge*—the sequel to both books—revisits a number of the characters, seeing where they are twenty years later and discovering what's happened with their lives. There's Charles and Randy, two old friends and former roommates who reconnect only to discover they now have nothing in common. There's Craig and Ashley, ex-lovers who contemplate getting back together, even if it means breaking up a marriage. And then there's the band *Bottlecap*, reuniting for one last gig and another shot at the dream that was derailed the first time around. For everyone in *Losing Our Edge*, it's a second chance to get things right. A tough and honest look at what the passing of time does to romance, friendship, and dreams, *Losing Our Edge* shows that you can go home again—you just might not like what you find when you get there.

Diversity Issues in American Colleges and Universities Lamont A. Flowers, 2004 The primary objective of this book is to help higher education and student affairs graduate students as well as current higher education and student affairs professionals practice and refine thinking skills needed to resolve diversity-related issues and problems on college and university campuses. Within each chapter the author has included case studies that address all of the different aspects of diversity and the following functional areas within higher education and student affairs: academic advising, administration, admissions, career services, counseling and psychological services, financial aid, Greek affairs, international education, institutional research, judicial affairs, multicultural affairs, orientation services, residence life, student activities, student development in the two-year college, teaching, and wellness and student health. The case studies are designed to serve as a useful starting point to enable students and professionals to practice examining and thoughtfully articulating appropriate plans of action in response to the issues presented in each. Specifically, each case study is designed to help readers recognize and develop multicultural awareness and become competent users of multicultural knowledge and related skills. This book may be used as a supplementary textbook or a stand-alone text in undergraduate or graduate level courses, training modules, workshops, and seminars designed to provide opportunities to learn how to communicate with persons from different cultural backgrounds. In addition, the text contains a number of research projects that students and researchers will find interesting and challenging, including some that may be expanded to serve as dissertation projects and/or research publications.

Pressure Cooker Sarah Bowen, Joslyn Brenton, Sinikka Elliott, 2019-01-07 Food is at the center of national debates about how Americans live and the future of the planet. Not everyone agrees about how to reform our relationship to food, but one suggestion rises above the din: We need to get back in the kitchen. Amid concerns about rising rates of obesity and diabetes, unpronounceable ingredients, and the environmental footprint of industrial agriculture, food reformers implore parents to slow down, cook from scratch, and gather around the dinner table. Making food a priority, they argue, will lead to happier and healthier families. But is it really that simple? In this riveting and beautifully-written book, Sarah Bowen, Joslyn Brenton, and Sinikka Elliott take us into the kitchens of nine women to tell the complicated story of what it takes to feed a family today. All of these mothers love their children and want them to eat well. But their kitchens are not equal. From cockroach infestations and stretched budgets to picky eaters and conflicting nutrition advice, *Pressure Cooker* exposes how modern families struggle to confront high expectations and deep-seated inequalities around getting food on the table. Based on extensive interviews and field research in the homes and kitchens of a diverse group of American families, *Pressure Cooker* challenges the logic of the most popular foodie mantras of our time, showing how they miss the mark and up the ante for parents and children. Romantic images of family meals are inviting, but they create a fiction that does little to fix the problems in the food system. The unforgettable stories in this book evocatively illustrate how class inequality, racism, sexism, and xenophobia converge at the dinner table. If we want a food system that is fair, equitable, and nourishing, we must look outside the kitchen for answers.

Carnivalizing Reconciliation Hanna Teichler, 2021-10-15 Transitional justice and national inquiries may be the most established means for coming to terms with traumatic legacies, but it is in the more subtle social and cultural processes of “memory work” that the pitfalls and promises of reconciliation are laid bare. This book analyzes, within the realms of literature and film, recent Australian and Canadian attempts to reconcile with Indigenous populations in the wake of forced child removal. As Hanna Teichler demonstrates, their systematic emphasis on the subjectivity of the victim is problematic, reproducing simplistic narratives and identities defined by victimization. Such fictions of

reconciliation venture beyond simplistic narratives and identities defined by victimization, offering new opportunities for confronting painful histories.
