Illustrating Asia John A. Lent, 2001-11-30 Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.

Written on Water Eileen Chang, 2023-05-02 Now back in print, these witty, insightful essays on fashion, cinema, wartime, and everyday life demonstrate why Eileen Chang was and is a major icon of twentieth-century Chinese literature. Eileen Chang is one of the most celebrated and influential modern Chinese novelists and cultural critics of the twentieth century. First published in 1944, and just as beloved as her fiction in the Chinese-speaking world, *Written on Water* collects Chang's reflections on art, literature, war, urban culture, and her own life as a writer and woman, set amid the sights and sounds of wartime Shanghai and Hong Kong. In a style at once meditative and vibrant, Chang writes of friends, colleagues, and teachers turned soldiers or wartime volunteers, and her own experiences as a part-time nurse. She also reflects on Chinese cinema, the aims of the writer, and the popularity of the Peking Opera. Chang engages the reader with her sly and sophisticated humor, conversational voice, and intense fascination with the subtleties of everyday life. In her examination of Shanghainese food, culture, and fashions, she not only reveals but also upends prevalent attitudes toward women, presenting a portrait of a daring and cosmopolitan woman bent on questioning pieties and enjoying the pleasures of modernity, even as the world convulses in war and a revolution looms.

The History of the Book in South Asia Francesca Orsini, 2016-12-05 *The History of the Book in South Asia* covers not only the various modern states that make up South Asia today but also a multitude of languages and scripts. For centuries it was manuscripts that dominated book production and circulation, and printing technology only began to make an impact in the late eighteenth century. Print flourished in the colonial period and in particular lithographic printing proved particularly popular in South Asia both because it was economical and because it enabled multi-script printing. There are now vibrant publishing cultures in the nation states of South Asia, and the essays in this volume cover the whole range from palm-leaf manuscripts to contemporary print culture.

Opening the Gates to Asia Jane H. Hong, 2019-10-18 Over the course of less than a century, the U.S. transformed from a nation that excluded Asians from immigration and citizenship to one that receives more immigrants from Asia than from anywhere else in the world. Yet questions of how that dramatic shift took place have long gone unanswered. In this first comprehensive history of Asian exclusion repeal, Jane H. Hong unearths the transpacific movement that successfully ended restrictions on Asian immigration. The mid-twentieth century repeal of Asian exclusion, Hong shows, was part of the price of America's postwar empire in Asia. The demands of U.S. empire-building during an era of decolonization created new opportunities for advocates from both the U.S. and Asia to lobby U.S. Congress for repeal. Drawing from sources in the United States, India, and the Philippines, *Opening the Gates to Asia* charts a movement more than twenty years in the making. Positioning repeal at the intersection of U.S. civil rights struggles and Asian decolonization, Hong raises thorny questions about the meanings of nation, independence, and citizenship on the global stage.

By More Than Providence Michael J. Green, 2017-03-21 Soon after the American Revolution, certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural resources at stake there. Over the coming generations, the United States continued to ask how best to expand trade with the region and whether to partner with China, at the center of the continent, or Japan, looking toward the Pacific. Where should the United States draw its defensive line, and how should it export democratic principles? In a history that spans the eighteenth century to the present, Michael J. Green follows the development of U.S. strategic thinking toward East Asia, identifying recurring themes in American statecraft that reflect the nation's political philosophy and material realities. Drawing on archives, interviews, and his own experience in the Pentagon and White House, Green finds one overarching concern driving U.S. policy toward East Asia: a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade, values, and forward defense. *By More Than Providence* works through these problems from the perspective of history's major strategists and statesmen, from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger. It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America's stakes in the region, especially when compared with those of Europe and the Middle East.
