The Politics of Personal Law in South Asia Partha S. Ghosh, 2012-05-23 It is a political study of the controversy surrounding the issue of the uniform civil code vis-à-vis personal laws from a South Asian perspective. At the centre of the debate is whether there should be a centralized view of the legal system in a given society or a decentralized view, both horizontally and vertically. This issue is entangled within the threads of identity politics, minority rights, women's rights, national integration, global Islamic politics and universal human rights. Champions of each category view it through their own prisms, making the debate extremely complex, especially in politically and socially plural South Asia. So, this book attempts to harmonize the threads of the debate to provide a holistic political analysis.

*Love and Intimacy in Online Cross-Cultural Relationships* Wilasinee

Pananakhonsab,2016-11-16 This book challenges assumptions about the motivations that drive women from relatively poor, developing countries to use intermarriage dating sites to find partners from relatively wealthy, developed countries. It is generally assumed that economic deprivation or economic opportunities are the main factors, but this book instead focuses on the work of women's imagination in online cross-cultural relationships, including the role of desire, love and intimacy. The experiences of Thai women are used to explore how they initiate, develop and maintain love and intimacy with Western men across distance and time. The book shows that, in the absence of opportunities to search and meet partners from geographically distant parts of the world, the technology of the internet offers new ways of searching for and managing relationships and has significant consequences for local experiences and expectations of love and partnering. The book will be of interest to scholars and students with an interest in family and intimate life, gender and sexualities, Asian and Thai studies, globalization and nationalism, culture and media, sociology and anthropology.

Online Dating - A cross-cultural comparison of matchmaking websites in the United States of America, Germany, India, and Japan Dana Lützow, 2013-01-04 Bachelor Thesis from the year 2011 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: 1,3, University of Applied Sciences Berlin, course: Vertiefung Marketing, language: English, abstract: "We are all born and raised into a nation, a community and a family. And what we learn to value in these cultural environments stays with us for life. Even if we leave our family, community and our nation we never fully leave their cultures behind". (Yahya R. Kamalipour) In today's society, the Internet and its possibilities have had an increasing influence in our daily life. The world is going online and it seems that how we choose to live our lives is more related to opportunities offered by the online world than to the cultural values we are born in and raised with. We shop, socialize, connect, communicate, work and even find our partners online. - What role does our culture play in this context? In this thesis the author will demonstrate that culture influences online dating and determining factors for finding a partner online.

*The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea* Ian J. McNiven, Bruno David, 2023 65,000 years ago, modern humans arrived in Australia, having navigated more than 100 km of sea crossing from southeast Asia. Since then, the large continental islands of Australia and New Guinea, together with smaller islands in between, have been connected by land bridges and severed again as sea levels fell and rose. Along with these fluctuations came changes in the terrestrial and marine environments of both land masses. The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea reviews and assembles the latest findings and ideas on the archaeology of the Australia-New Guinea region, the world's largest island-continent. In 42 new chapters written by 77 contributors, it presents and explores the archaeological evidence to weave stories of colonisation; megafaunal extinctions; Indigenous architecture; long-distance interactions, sometimes across the seas; eel-based aquaculture and the development of techniques for the mass-trapping of fish; occupation of the High Country, deserts, tropical swamplands and other, diverse land and waterscapes; and rock art and symbolic behaviour. Together with established researchers, a new generation of

archaeologists present in this Handbook one, authoritative text where Australia-New Guinea archaeology now lies and where it is heading, promising to shape future directions for years to come.

*Southeast Asian Tribes, Minorities, and Nations, Volume 1* Peter

Kunstadter, 2017-03-14 A major source of political instability in Southeast Asia has been ethnic diversity and the lack of congruence between ethnic distributions and national boundaries. Here twenty specialists base their papers largely on original field work in Burma, China, India, Laos, Malaysia, Thailand, and Vietnam. Contrary to the usual picture of tribal people as isolated, homogeneous, stable, and conservative, the papers show tribesmen are often a dynamic force in the modern history of Southeast Asian states. Descriptions of tribal life and government programs, together with charts, tables, maps, and photographs give a wealth of data. Originally published in 1967. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
