Camille Adams Helminski

Who is Allah? Bruce B. Lawrence, 2015-03-10 Engaging with the age old question of who is the God of Islam, Bruce B. Lawrence stakes out the historical nuance of Allah throughout the past 1500 years, from the earliest mention of his name to his appropriation by cyberspace. It introduces a broad range of perspectives, practices and problems linked to Allah, including debates that are intra-religious as well as inter-religious, concerning differences among Muslims as well as between Muslims and non-Muslim others. Chapters cover the range of Muslim perspectives on Allah and tackle such topics as war in the name of Allah and controversies about the use of the name Allah/ God. Throughout the author highlights the need to look at Islam with fresh eyes and to understand Allah/ God with dispassionate insight.

A Prayer for Spiritual Elevation and Protection Muhyiddin Ibn 'Arabi, 2007-06-01 Widely used for centuries in Sufi circles, the prayer known as The Most Elevated Cycle (*al-Dawr al-a'la*) or The Prayer of Protection (*Hizb al-wiqaya*), written by the great Sufi master Muhyiddin Ibn 'Arabi, has never before been available in English. This book provides a lucid English translation and an edited Arabic text of this beautiful and powerful prayer. It includes a transliteration for those unable to read Arabic, who wish to recite the prayer in the original language. Showing the importance of Ibn 'Arabi's devotional teaching, the book explores the prayer's contemporary life, properties and historical transmission. It gives full details of generations of well-known scholars and Sufi masters who have transmitted the prayer, providing an intimate and fascinating insight into Islamic history.

Islamic Spectrum in Java Timothy Daniels, 2016-05-06 This empirically grounded work explores the emerging aspects of cultural politics in the world's most populous Muslim nation. It engages with complex issues of cultural translation, localization and globalization from various perspectives through analyzing a diverse range of cultural forms, including government or palace-based celebrations, ceremonies and rituals, modern student theatre, and Islamic revival sessions. With its discussion of both old and new Islamic movements, alongside the contested religious interpretations of public cultural events, this book will be of interest not only to anthropologists, but also to scholars of religion, culture and sociology.

What the Qur'an Meant Garry Wills, 2018-12-04 America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text. Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam—claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims—such as Pope Francis—find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration—and which offer some thrills of discovery. *What the Qur'an Meant* is the opening of a conversation on one of the world's most practiced religions.

The Ninety-nine Beautiful Names of God Ghazzālī, 1992 In this work, here presented in a complete English edition for the first time, the problem of knowing God is confronted in an original and stimulating way. Taking up the Prophet's teaching that 'Ninety-nine Beautiful Names' are truly predicated of God, Ghazali explores the meaning and resonance of each of these divine names, and reveals the functions they perform both in the cosmos and in the soul of the spiritual adept. Although some of the book is rigorously analytical, the author never fails to attract the reader with his profound mystical and ethical insights, which, conveyed in his sincere and straightforward idiom, have made of this book one of the perennial classics of Muslim thought, popular among Muslims to this day. This volume won a British Book Design and Production Award in 1993.
