**Asteroid Discovery** Bobby Akart, 2019-06-19 Gunner Fox finds himself in a place of darkness, without a reason to live. Until now. An asteroid is on a collision course with our planet. Gunner Fox is on a collision course with death. International best selling author, Bobby Akart, introduces Gunner Fox, a United States Air Force fighter pilot and Earth Scientist. When America needs a hero, they turn to a man who has nothing to live for, without a care in the world - except to save it. Somewhere out there, an asteroid is on a collision course with Earth. Five times in the history of our planet, extinction level events have occurred, arguably all of which have been caused by asteroids. Will we be ready to meet it? We'll get just one chance to defend ourselves. Will we succeed? In Bobby Akart's Asteroid Series, he serves up hard evidence for the astonishing fragility of life and a humbling lesson for us all. It shows we are at the mercy of forces we do not see nor understand; forces that made our existence possible a few hundred thousand years ago and that just as quickly - in the twinkling of an eye - can and will one day, take us out. A page turning trilogy from a master storyteller, this new Gunner Fox series begins with Asteroid Discovery. WHAT READERS ARE SAYING I have not been so enthralled in a story in a long time! If you want an intense, intelligent read, this is for you. I love the way Mr. Akart does his research and his writing shows it. Bobby Akart writes so eloquently that you forget you're reading a story. You're in the book ... racing against time, looking over your shoulder, gasping for air.

When you have nothing to lose, you have everything to gain. Regarded for his fact based fiction, Bobby Akart once again masterfully mixes science with suspense in this page turning Asteroid trilogy, as it continues with book TWO, DIVERSION. \_\_\_\_\_ What readers are saying: Bobby Akart spins a tale that will keep you awake at night. I stayed up all night to finish this book. A thrill ride of a new series. I love the way Mr. Akart does his research and his writing shows it. **Cosmic Collisions: Asteroid Vs. Comet** Marc J. Kuchner, 2024-04-02 What happens when two massive hunks of hurtling space debris slam into each other? Welcome to round one in the Cosmic Collisions series--an exciting children's debut from an expert astrophysicist. There's a comet speeding in from the outer solar system, and it's about to slam into an asteroid. Who will be left standing after this interplanetary smackdown? The pockmarked asteroid, a veteran fighter who's already seen some action? Or the dazzling comet, with its incredible velocity and a tail that stretches millions of miles? Kicking off a dynamic series on cosmic collisions, Asteroid vs. Comet starts by comparing the two opponents, then offers hints and context to encourage readers to use real science to form a hypothesis. Action-packed full-color illustrations with a graphic, comic-book feel will attract reluctant readers and kids who love smash-and-crash along with budding scientists. Curious readers can find back matter addressing the question of fact versus fiction, how to become a citizen scientist, and comets and asteroids in the news.

**The Asteroid Threat** William E. Burrows, 2014 Presents a realistic, workable plan for defusing a potentially lethal threat from a rogue asteroid or comet. The explosion of a large meteor over Chelyabinsk, Siberia, in February 2013 is just the latest reminder that planet Earth is vulnerable to damaging and potentially catastrophic collisions with space debris of various kinds. In this informative and forward-looking book, veteran aerospace writer William E. Burrows explains what we can do in the future to avoid far more serious impacts from Near-Earth Objects (NEOs), as they are called in the planetary defense community. The good news is that humanity is now equipped with the advanced technology necessary to devise a long-term strategy to protect the planet. Burrows outlines the following key features of an effective planetary defense strategy- \* A powerful space surveillance system capable of spotting a serious threat from space at least a year in advance \* A space craft nudge that would throw a collision-course asteroid off target long before it poses the threat of imminent impact \* A weapons system to be used as a last-ditch method to blast an NEO should all else fail. The author notes the many benefits for world stability and increasing international cooperation resulting from a united worldwide effort to protect the planet. Combining realism with an optimistic can-do attitude, Burrows shows that humanity is capable of overcoming a potentially calamitous situation.

Earlier in this year of important events, Admiral Oden proudly graduated the first Ape-oid cadet ensigns from the Space Academy. On a training run, cadets encounter a friendly new people, the Greens, exploring outside their own star system. Oden is asked to run as Edun's representative to the Union of Planets. In this climate of serenity and accord, no one anticipates that Galan fosters aggression and is preparing to overrun the Union. **Star Warrior** J. Lesley Graham, 2017-08-18 Tradition had the League of Star Warriors being rooted in the Tejas Rangers of the State United on the mythical First Earth. However, while the Tejas Rangers rode horses over the vast wastelands of a single planet, Star Warriors flew and lived on their thunderturkies, as their class of battle starships were called. They went from planet to planet. Rangers fought with six shot slug throwers, rifles, and shotguns. Star Warriors fought with the latest technological weapon systems, including a sling pistol, heavily armed thunderturkey, and Hawk star fighter. Rangers rode with other rangers and were controlled by the Tejas government. Star Warriors operated alone and were governed by the League of Star Warriors. Rangers went after common criminals. Star Warriors went after master criminals, powerful criminal organizations, and other evil people, who were above the law for one reason or another reason or another. Rangers brought lawbreakers before judges, who handed out justice. Star Warriors were judges, juries, and off time executioners. Unlike other law enforcement professionals and members of military organizations, Star Warriors were still Star Warriors even after they voluntarily retired or were barred from serving on active duty. The forehead of each Star Warrior was covered with tattoos identifying him as a Star Warrior, telling how many years he spent of active duty, and telling the number of times he had been wounded. People sought out those tattoos when they needed help because the local police couldn't or wouldn't help them. Jack Quantum had been medically retired. Yet, he still operated as a Star Warrior. He stopped two assignation attempts, and saved a small boy from suffering through a painful and ugly death. He unmasked a major drug lord and stopped his plans to take over the star trader he was flying on. Jack became the Master of the star trader after being critically injured during a firefight the star trader had with an overwhelming number of starships. Yet, he was instrumental in saving the starship and over forty thousand people as it blindly flew across the galaxy.
