Command Of The Air General Giulio Douhet,2014-08-15 In the pantheon of air power spokesmen, Giulio Douhet holds center stage. His writings, more often cited than perhaps actually read, appear as excerpts and aphorisms in the writings of numerous other air power spokesmen, advocates-and critics. Though a highly controversial figure, the very controversy that surrounds him offers to us a testimonial of the value and depth

of his work, and the need for airmen today to become familiar with his thought. The progressive development of air power to the point where, today, it is more correct to refer to aerospace power has not outdated the notions of Douhet in the slightest. In fact, in many ways, the kinds of technological capabilities that we enjoy as a global air power provider attest to the breadth of his vision. Douhet, together with Hugh "Boom" Trenchard of Great Britain and William "Billy" Mitchell of the United States, is justly recognized as one of the three great spokesmen of the early air power era. This reprint is offered in the spirit of continuing the dialogue that Douhet himself so perceptively began with the first edition of this book, published in 1921. Readers may well find much that they disagree with in this book, but also much that is of enduring value. The vital necessity of Douhet's central vision—that command of the air is all important in modern warfare—has been proven throughout the history of wars in this century, from the fighting over the Somme to the air war over Kuwait and Iraq.

How They Stole the Game David Yallop, 2011-09-15 What's wrong with Football today? In June 2011, Sepp Blatter was elected - uncontested - as president of Fifa once more. Despite attempts to halt the vote amidst allegations and accusations of corruption, the show went on. As *How They Stole The Game*, David Yallop's classic expose of the dark heart behind the beautiful game showed when it was first published, Football was rotten from the top down. In the book Yallop reveals the story of João Havelange, Fifa President from 1974 to 1998, the Godfather of football, and how he turned a religion to millions of fans into a multi-billion dollar business, riven with suspicious deals and unexpected payments.

And I Don't Want to Live This Life Deborah Spungen, 2011-10-12 "Honest and moving . . . Her painful tale is engrossing."—Washington Post Book World For most of us, it was just another horrible headline. But for Deborah Spungen, the mother of Nancy, who was stabbed to death at the Chelsea Hotel, it was both a relief and a tragedy. Here is the incredible story of an infant who never stopped screaming, a toddler who attacked people, a teenager addicted to drugs, violence, and easy sex, a daughter completely out of control—who almost destroyed her parents' marriage and the happiness of the rest of her family.

"Cause Unknown" Ed Dowd, 2022-11-09 What is killing healthy young Americans? 2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective. But then, in 2021, the stats people expected went off the rails. The CEO of the OneAmerica insurance company publicly disclosed that during the third and fourth quarters of 2021, death in people of working age (18-64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID. A 40 percent increase in deaths is literally earth-shaking. Even a 10 percent increase in excess deaths would have been a 1-in-200-year event. But this was 40 percent. And therein lies a story—a story that starts with obvious questions: What has caused this historic spike in deaths among younger people? What has caused the shift from old people, who are expected to die, to younger people, who are expected to keep living? It isn't COVID, of course, because we know that COVID is not a significant cause of death in young people. Various stakeholders opine about what could be causing this

epidemic of unexpected sudden deaths, but “CAUSE UNKNOWN” doesn’t opine or speculate. The facts just are, and the math just is. The book begins with a close look at the actual human reality behind the statistics, and when you see the people who are represented by the dry term Excess Mortality, it’s difficult to accept so many unexpected sudden deaths of young athletes, known to be the healthiest among us. Similarly, when lots of healthy teenagers and young adults die in their sleep without obvious reason, collapse and die on a family outing, or fall down dead while playing sports, that all by itself raises an immediate public health concern. Or at least it used to. Ask yourself if you recall seeing these kinds of things occurring during your own life—in junior high? In high school? In college? How many times in your life did you hear of a performer dropping dead on stage in mid-performance? Your own life experience and intuition will tell you that what you’re about to see is not normal. Or at least it wasn’t normal before 2021.

Teachers and Mentors Craig Kridel, Robert V. Bullough, Jr., Paul Shaker, 2014-10-29 The unique relationship between mentors and students informs the art of teaching and enhances the intellectual vitality of higher education and quality of teacher and student life. This collection of original essays presents autobiographical vignettes of important professors of our time. These essays reflect the appreciation of the authors—now successful academics—for their teachers/mentors, whose drive and creativity had such an influence on the careers of their students. No other collection presents such an autobiographical and biographical portrayal of college of education faculty. The essays examine what it means to be a professor in today’s academia, with its erosion of the professoriate and the emergence of a questionable entrepreneurial pragmatism. The writers and their subjects explain their vision of the academic life sustained by a community and perpetuated through the lives of their teachers and their students, a tradition not only in teaching but also in mentoring.
