Television and the Second Screen James Blake, 2016-11-10 Television is changing almost beyond recognition. In the battle for consumers, social media sites, smart phones and tablets have become rivals to traditional linear TV. However, audiences and producers are also embracing mobile platforms to enhance TV viewing itself. This book examines the emerging phenomenon of the second screen: where users are increasingly engaging with content on two screens concurrently. The practice is transforming television into an interactive, participatory and social experience. James Blake examines interactive television from three crucial angles: audience motivation and agency, advances in TV production and the monetisation of second screen content. He also tracks its evolution by bringing together interviews with more than 25 television industry professionals - across the major UK channels - including commissioning editors, digital directors, producers and advertising executives. These reveal the successes and failures of recent experiments and the innovations in second screen projects. As the second screen becomes second nature for viewers and producers, the risks and opportunities for the future of television are slowly beginning to emerge. **Television and the Second Screen** will offer students and scholars of television theory, industry professionals and anyone with an abiding interest in television and technology, an accessible and illuminating guide to this important cultural shift.

A Text-book on Applied Mechanics Andrew Jamieson, 1898

What's in a Text? Inquiries into the Textual Cornucopia Adam Głaz, Hubert Kowalewski, Anna Weremczuk, 2012-03-15 Numerous linguists of various orientations, translators and literary scholars share an interest in text. As students of language with very diverse interests and aims, they ask

themselves, if only subconsciously, the following questions: What kind(s) of texts do we study? Why do we study them? What are we looking for? What do and don't we find? What do we do with whatever we do find? What does it tell us about language, its speakers or the human mind? Generally, what is (a) text for me as a linguist and/or translator? In the present volume, the questions are brought onto the level of the conscious and addressed by several practitioners in the fields of linguistics and translation – contributions with a literary slant also have a linguistic orientation. Although ultimate answers to these questions may not exist, the ambition of the book is to help the reader appreciate the richness of text and the variety of texts as a treasure-trove for scholars representing multifarious approaches to language.

A Text-book of Applied Mechanics and Mechanical Engineering ...: Theory of mechanics and practical mechanisms Andrew Jamieson, 1910

Mobile TV: Customizing Content and Experience Aaron Marcus, Anxo Cereijo Roibás, Riccardo Sala, 2009-12-01 Developing usable, useful, and appealing solutions for the customer or user experience requires customization according to specific users' needs amidst frequently changing physical and social environments. Complex design problems like these require interdisciplinary perspectives that cover software functionality, human interaction and communication experiences, and perceived value. After defining and summarizing current research and development, this book focuses on Mobile TV experience in everyday life, innovative conceptual and participatory design methods, contextual analysis methods, social context for interactive multimedia systems, advanced interaction with mobile digital content, and future trends for the wide range of products and services that will be offered in the decade to come. The Editors have carefully balanced

the theoretical and empirical approaches providing a valuable insight into principles and methods, as well as actionable guidelines and recommendations for all those interested in exploring how to achieve the core objectives of usability, usefulness, and social appeal of this new mobile-video technology. The book answers many questions, and raises some new ones that only future technology development and deployment in mobile human-computer interaction and communication can answer.

A Text Book of Social Sciences for Class 7 (A.Y. 2023-24) Onward D.N. KUNDRA, 2023-05-20 The series A TEXTBOOK OF SOCIAL SCIENCES is a set of three books for Classes 6 to 8. It is aligned with National Education Policy, 2020 and is in accordance with National Curriculum Framework (NCF}. Each book in the series is supported with Online Support, Teacher's Resource Book and E-book for teachers. Each book in the series is divided into three sections - History, Geography & Social and Political Life. Our attempt, in this series, is to capture the interest and arouse genuine curiosity in the learners through presentation of facts and concepts in a simple and lucid style, infused with numerous original illustrations and photographs. Utmost care has been taken to encapsulate in the series the key parameters laid down in National Education Policy (NEP) 2020. The NEP places the learner at the heart of the teaching-learning process. In recent years, there has been a paradigm shift towards designing a learner-centric curriculum that is based on an activity-based approach. There is also an equal emphasis on equipping young learners with essential twenty-first-century skills. The text as well as the exercises in the book promote the holistic development of the learners. Besides, there is a lot of emphasis on enhancing the creativity, critical thinking, and communication and collaboration skills of learners. Salient

Features of the Course Books : • Learner-centred with a comprehensive approach • The content is written in a learner..friendly language. • Captivating photographs, illustrations and Maps • Know More gives interesting information related to the subject matter. • Key Terms give difficult words and their meanings. • Exercises includes various types of subjective and objective questions as well. These includes Assertion-Reason type questions, Case-Study based questions, Problem-Solving Skills based questions and questions based on Art integration. • Activities & Projects encourage student to explore wider horizons of knowledge. • Model Test Papers are included for the half-yearly and yearly examinations for practice. Salient Features of Online Support : • Animated Lessons to make the concepts crystal clear. • Interactive exercises to help students recall and recapitulate the main points. • eBooks for teachers. Salient Features of Teacher's Resource Books : • Plan to Achieve the Learning Objectives has been provided to guide the teachers in effective teaching. • Overview of the Lesson has been provided to help teachers easily recapitulate the finer points of the lesson. • Complete Answer Key of the course book. We hope the series A TEXTBOOK OF SOCIAL SCIENCES finds favour with teachers and students. Suggestions for improvement are welcome from teachers, students and other readers of the books. -Author

The Hallmark Channel Emily L. Newman,Emily Witsell,2020-04-29 Originally known as a brand for greeting cards, Hallmark has seen a surge in popularity since the early 2010s for its made-for-TV movies and television channels: the Hallmark Channel and its spinoffs, Hallmark Movie Channel (now Hallmark Movies & Mysteries) and Hallmark Drama. Hallmark's brand of comforting, often sentimental content includes standalone movies, period and contemporary television series, and mystery film series that center on strong, intuitive

female leads. By creating reliable and consistent content, Hallmark offers people a calming retreat from the real world. This collection of new essays strives to fill the void in academic attention surrounding Hallmark. From the plethora of Christmas movies that are released each year to the successful faith-based scripted programming and popular cozy mysteries that air every week, there is a wealth of material to be explored. Specifically, this book explores the network's problematic relationship with race, the dominance of Christianity and heteronormativity, the significance placed on nostalgia, and the hiring and re-hiring of a group of women who thrived as child stars.

Corrections: A Text/Reader Mary K. Stohr, Anthony Walsh, Craig

Hemmens, 2012-03-20 Corrections: A Text/Reader, Second Edition is designed for undergraduate and/or graduate corrections courses. Organized like a traditional corrections text, it offers brief authored introductions in a mini-chapter format for each key Section, followed by carefully selected and edited original articles by leading scholars. This hybrid format - ensuring coverage of important material while emphasizing the significance of contemporary research - offers an excellent alternative which recognizes the impact and importance of new directions and policy in this field, and how these advances are determined by research.
