Blasphemy Jon Webster,2012-10-01 Brilliant! Wow... just wow! Thank you for that! I never thought of it that way! Clever. Very interesting! Wow. I have read the Bible, and never looked at it like that before. Very insightful! This is amazing. I read it like 4 times. Love at first sight. Oh, that is good. Genius! These are just some of the responses I have gotten from people who have read the quotes and essays contained within this book. But don't take my word for it. Read the first few pages using the preview function on here and see for yourself if you want to buy it and then act accordingly. As you read this book, you will find some of the most creative, original, and thought-provoking insight on Christianity, religion, and the Bible that you have ever read. Many different fields or scholarly subjects have categories where critiques and criticism are directed towards the subjects being studied, scrutiny is applied, and objections are raised. The Bible has this category as well. It is called Blasphemy. Jon Webster, a published author at age 27, has also put together another book as well. Nothing Sacred: An Atheist Quote-A-Day Calendar is also available online on BarnesandNoble.com, Amazon.com, and FastPencil.com

Citing Atheists Steve Dustcircle,Christopher Hitchens,Richard Dawkins,Sam Harris,Thomas Paine,2015-02-12 A comprehensive, condensed volume of quotes by atheists, agnostics, freethinkers, skeptics, philosophers, and even the spiritual. Not exhaustive, but a great quick A-to-Z reference of quotes by atheists, freethinkers and philosophers--almost a greatest hits, if you will. Some quotes are very anti-theist in nature while others lean more political or non-religious. There are even a few appalling quotes by the religious. Coming from a religious background, the editor put these quotes together based on what helped him leave religion behind. Citing Atheists is a great book to add to any skeptic's library without the heavy cost of a huge, exhaustive volume.

I Don't Have Enough Faith to Be an Atheist Norman L. Geisler,Frank Turek,2021-05-17 To some, the concept of having faith in a higher power or a set of religious beliefs is nonsensical. Indeed, many view religion in general, and Christianity in particular, as unfounded and unreasonable. Norman Geisler and Frank Turek argue, however, that Christianity is not only more reasonable than all other belief systems, but is indeed more rational than unbelief itself. With conviction and clear thinking, Geisler and Turek guide readers through some of the traditional, tested arguments for the existence of a creator God. They move into an examination of the source of morality and the reliability of the New Testament accounts concerning Jesus. The final section of the book deals with a detailed investigation of the claims of Christ. This volume will be an interesting read for those skeptical about Christianity, as well as a helpful resource for Christians seeking to articulate a more sophisticated defense of their faith.

Why I am an Atheist Bhagat Singh,2019-08-15 A discussion with a friend soon turned into a matter of self-assessment, leading to this discourse on why Bhagat Singh chose to be an atheist. Even in the face of death at a very young age, with uncanny observations and sharp questions, he forces us to re-think our foundations to faith in god.

Religion for Atheists Alain De Botton,2012-03-06 What if religions are neither all true nor all nonsense? The long-running and often boring debate

between fundamentalist believers and non-believers is finally moved forward by Alain de Botton's inspiring new book, which boldly argues that the supernatural claims of religion are entirely false—but that it still has some very important things to teach the secular world. Religion for Atheists suggests that rather than mocking religion, agnostics and atheists should instead steal from it—because the world's religions are packed with good ideas on how we might live and arrange our societies. Blending deep respect with total impiety, de Botton (a non-believer himself) proposes that we look to religion for insights into how to, among other concerns, build a sense of community, make our relationships last, overcome feelings of envy and inadequacy, inspire travel and reconnect with the natural world. For too long non-believers have faced a stark choice between either swallowing some peculiar doctrines or doing away with a range of consoling and beautiful rituals and ideas. At last, in Religion for Atheists, Alain de Botton has fashioned a far more interesting and truly helpful alternative.

It contains a vast array of atheism quotes, arguments for and against this 'new religion', as well as a history of atheism. A fascinating look into the links between religion and morality, this book provides an inspirational look at great minds, atheist authors, and their thoughts on both old and new atheism. The 'Writers on...' series is a collection of extracts, anecdotes and occasional philosophical musings from the world's most well known authors. This book of quotes, inspirational poems, letters, and quips, celebrates writers who have an individual, creative outlook on the world; on subjects from 'drink' to 'death', and 'love' to 'libraries'. Isn't Religion Weird? Quotations for Atheists Dave Lane, 2008-08-08 The title says it all! A collection of quotations from all areas of the religious and atheist world to make you think - and to keep you amused. Although the author is an atheist, he has no problem whatsoever with anyone's religious beliefs. He believes that if a person's religion brings them inner peace, personal satisfaction, or just gives them the feel good factor, then good luck to them. He also wishes these people well - just as he wishes well to all who gain satisfaction from believing in the Tooth Fairy, Father Christmas or the Golden Gnome at the bottom of the garden. Be warned - no attempt whatsoever has been made to make this book either fair or balanced!

A collection of uplifting quotations from some of mankind's most important philosophers, scientists, writers, and even comedians, THE INSPIRATIONAL ATHEIST will be a treasured daily companion for the growing demographic of humanists who believe that life has meaning when we live it meaningfully, independent of the existence of a higher power. With words from Carl Sagan, D. H. Lawrence, Julia Child, Douglas Adams, Charlotte Bronte, Bertrand Russell, Ralph Waldo Emerson, George Carlin, Joan Didion, Alfred Lord Tennyson, Thomas Jefferson and dozens of others on topics ranging from Love and Nature to Wisdom and Beauty, this book is a celebration of the sublime without the divine.

Seven Types of Atheism John Gray,2018-10-02 From the provocative author of Straw Dogs comes an incisive, surprising intervention in the political and scientific debate over religion and atheism When you explore older atheisms, you will find that some of your firmest convictions—secular or religious—are highly questionable. If this prospect disturbs you, what you are looking for may be freedom from thought. For a generation now, public debate has been corroded by a shrill, narrow derision of religion in the name of an often vaguely understood “science.” John Gray's stimulating and enjoyable new book, Seven Types of Atheism, describes the complex, dynamic world of older atheisms, a tradition that is, he writes, in many ways intertwined with and as rich as religion itself. Along a spectrum that ranges from the convictions of “God-haters” like the Marquis de Sade to the mysticism of Arthur Schopenhauer, from Bertrand Russell's search for truth in mathematics to secular political religions like Jacobinism and Nazism, Gray explores the various ways great minds have attempted to understand the questions of salvation, purpose, progress, and evil. The result is a book that sheds an extraordinary light on what it is to be human.

An Atheist's a to Z of Religion - Controversies, Comments and Quotes Clive Carthew,2013-12 When the meaning of the word religion is binding or holding together, why are so many people unbinding themselves? The number of Americans who claim no religious affiliation is the highest it has ever been with a third of adults under the age of thirty not identifying with any religion. In the UK, during the past decade, the number of people who have escaped from religious belief has risen from 6 million to 14 million. Against this, however, Islam marches on, as does the profitable business of Fundamentalist Protestantism. Why is there so much inter-religion antagonism? Could it be that on a daily basis and throughout the world, religion is seen to be causing pain, suffering, division, conflict, violence, war and death? Not to mention child abuse. An Atheist's A to Z of Religion tries to answer these questions by drawing attention to the childishness, dangers, and failings of religion. Specifically, it reviews almost 100 religious or related topics,

beginning with Abraham and ending with Zen Buddhism. Each topic attracts a number of quotations which range in tone from humorous to critical and on to definitively damning. They come from scientists, songwriters and psychologists, from poets, priests, politicians and playwrights, and from comedians, philosophers and intellectuals who together represent a variety of times, nationalities and cultures. An amusing but challenging read, this book offers a wealth of entertaining and devastating quotations and stories.
