The Establishment Owen Jones, 2014-09-04 THE PHENOMENAL BESTSELLER 'Fantastic, timely, eye-opening' Armando Iannucci, New Statesman, Books of the Year 'Captures a collective sense of anger and awakening' Matt Haig, Observer, Books of the Year Behind our democracy lurks a powerful but unaccountable network of people who wield massive power and reap huge profits in the process. In exposing this shadowy and complex system that dominates our lives, Owen Jones sets out on a journey into the heart of our Establishment, from the lobbies of Westminster to the newsrooms, boardrooms and trading rooms of Fleet Street and the City. Exposing the revolving doors that link these worlds, and the vested interests that bind them together, Jones shows how, in claiming to work on our behalf, the people at the top are doing precisely the opposite. In fact, they represent the biggest threat to our democracy today - and it is time they were challenged. 'A book of revelations ... The Establishment have stitched it up - stitched you up - and they know it' Danny Dorling, Times Higher Education Supplement 'A dissection of the profoundly and sickeningly corrupt state that is present-day Britain. He is a fine writer, and this is a truly necessary book' Philip Pullman 'Owen Jones is a phenomenon of our times' David Kynaston, The Times Literary Supplement 'You will be enlightened and angry' Irvine Welsh

Improving Reading Comprehension of Self-Chosen Books Through Computer Assessment and Feedback Keith James Topping, 2022-07-12 Schools around the world use online programs like Accelerated Reader and Reading Counts to improve students' reading comprehension of real books, but how can such software be used most effectively? In this unique resource, researcher Keith Topping analyzes independent research studies and brings you best practices on quality implementation to enhance effectiveness. He explains the evidence base for the programs in a comprehensible way and addresses many common questions, such as Does it work?, How should it be implemented to make it work?, and Is it cheaper and more efficient in teacher time than what we were doing before? He also discusses best practices for using the assessment data, for tailoring implementation in elementary vs. high schools, and for working with disadvantaged students. Appropriate for teachers, literacy coaches, curriculum leaders, and other stakeholders, the book will provide you with a strong research foundation and easily accessible information to help you fine-tune your understanding of the reading programs and implement them more successfully in your schools and classrooms.

Reframing Disability? Daniel Jackson, Caroline E.M. Hodges, Mike Molesworth, Richard Scullion, 2014-12-05 The London 2012 Paralympic Games - the biggest, most accessible and best-attended games in the Paralympics' 64-year history - came with an explicit aim to transform the perception of disabled people in society, and use sport to contribute to a better world for all people with a disability. This social agenda offered the potential to re-frame disability; to symbolically challenge ableist ideology and to offer a reinvention of the (dis)abled body and a redefinition of the possible. This edited collection investigates what has and is happening in relation to these ambitions. The book is structured around three key questions: 1. What were the predominant mediated narratives surrounding the Paralympics, and what are the associated meanings attached to them? 2. How were the Paralympics experienced by media audiences (both disabled and non-disabled)? 3. To what extent did the 2012 Paralympics inspire social change? Each section of this book is interspersed with authentic voices from outside academia: broadcasters, athletes and disabled schoolchildren.

Teaching STEM and Common Core with Mentor Texts Anastasia Suen, Shirley L. Duke, 2013-12-02 Librarians can use this book to become leaders in their schools, collaborating with teachers to keep them abreast of resources that will facilitate the inclusion of STEM in the curriculum. Teaching STEM and Common Core with Mentor Text explains the basics of STEM (Science, Technology, Engineering, and Mathematics) and shows how librarians can become a key component in STEM education, guiding teachers and sparking interest through the books and technology inherent in their curriculum. The volume offers 20 mentor texts, plus in-depth, collaborative lesson plans linked to the Common Core Standards for K–5 librarians. There are additional lessons for classroom teachers, as well as activities that can easily be done in the library or classroom. Each lesson includes mentor text information, an overview of the lesson, step-by-step lesson plans, assessment options, and extension activities. By implementing these lessons in the library, librarians will be able to cover multiple Common Core State Standards and science standards, and at the same time establish the library as a resource for teaching STEM subjects.

Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional, a disabled female veteran and an independent researcher. This book is the culmination of six years of self-funded research and the evidence exposes the influence of corporate America, since 1992, with the future welfare reforms of the UK. The impact of the enforced austerity measures of the UK government is identified, as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work. The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people. Endorsed by the disabled community and by academics, the research has identified the adoption of lethal social policies, copied from American social security policies, and linked to the death of thousands of the most vulnerable of all, as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government.

Good News, Bad News Jeff Mack, 2012-06-22 Good news, Rabbit and Mouse are going on a picnic. Bad news, it is starting to rain. Good news, Rabbit has an umbrella. Bad news, the stormy winds blow the umbrella (and Mouse!) into a tree. So begins this clever story about two friends with very different dispositions. Using just four words, Jeff Mack has created a text with remarkable flair that is both funny and touching, and pairs perfectly with his energetic, and hilarious, illustrations. Good news, this is a book kids will clamor to read again and again!
