Richard Chbeir, Bechara Al Bouna

The Social Media Revolution Jarice Hanson, 2016-05-23 Social media shapes the ways in which we communicate, think about friends, and hear about news and current events. It also affects how users think of themselves, their communities, and their place in the world. This book examines the tremendous impact of social media on daily life. When the Internet became mainstream in the early 2000s, everything changed. Now that social media is fully entrenched in daily life, contemporary society has shifted again in how we communicate, behave as consumers, seek out and enjoy entertainment, and express ourselves. Every one of the new applications of social media presents us with a new way of thinking about the economy that supports technological development and communication content and offers new models that challenge us to think about the economic impact of communication in the 21st century. The Social Media Revolution examines the tremendous influence of social media on how we make meaning of our place in the world. The book emphasizes the economic impacts of how we use the Internet and World Wide Web to exchange information, enabling readers to see how social media has taken root and challenged previous media industries, laws, policies, and social practices. Each entry in this useful reference serves to document the history, impact, and criticism of every subject and shows how social media has become a primary tool of the 21st-century world—one that not only contributes to our everyday life and social practices but also affects the future of business. The coverage of topics is extremely broad, ranging from economic models and concepts relevant to social media, such as e-commerce, crowdfunding, the use of cyber currency, and the impact of freeware; to key technologies and devices like Android and Apple

iOS, apps, the cloud, streaming, and smartphones and tablets; to major entrepreneurs, inventors, and subjects of social media, such as Julian Assange, Bill Gates, Steve Jobs, Marissa Mayer, Edward Snowden, Steve Wozniak, and Mark Zuckerberg.

**I Know Who You Are and I Saw What You Did** Lori B.

Andrews, 2012 Social networks, the defining cultural movement of our time, offer many freedoms. But as we work and shop and date over the Web, we are opening ourselves up to intrusive privacy violations by employers, the police, and aggressive data collection companies that sell our information to any and all takers. Through groundbreaking research, Andrews reveals how routinely colleges reject applicants due to personal information searches, robbers use vacation postings to target homes for break-ins, and lawyers scour our social media for information to use against us in court. And the legal system isn't protecting us in the thousands of privacy violations brought to trial, judges often rule against the victims. Providing expert advice and leading the charge to secure our rights, Andrews proposes a Social Network Constitution to protect us all. Now is the time to join her and take action the very future of privacy is at stake. Log on to [www.loriandrews.com](http://www.loriandrews.com) to sign the Constitution for Web Privacy.
