Mobile Baseball Connection Joey Warner, 2019-07-04 Mobile Baseball Connection is the History of Baseball in Lower Alabama. Mobile, Alabama is losing its Southern League AA baseball team after the 2019 season. The Bay Bears are moving to Madison County, Alabama near Huntsville. The Biloxi Shuckers became the same team which was once the Huntsville Stars until the 2015 season. The Stars were members of the Southern League from 1985 to 2014. Hank Aaron was ONE of the GREATEST baseball players in the world...and he represents Mobile, Alabama. He is just one of the biggest reasons Mobile has such a storied history in baseball. In my opinion, Mobile can lay claim to arguably and debatable...the greatest hitter in Hank Aaron; the greatest pitcher in Satchel Paige and the greatest fielder in Ozzie Smith. MOBILE BASEBALL CONNECTION and PROFESSIONAL BASEBALL in LOWER ALABAMA are available on Create Space and Amazon.com. I have self-published three book versions about the wonderful history of BASEBALL related to Mobile, Alabama. Completing these BOOKS project is like finishing a marathon that I never thought was possible. I was rejected by hundreds of publishers although I never once let anything discourage my focus. Patience has given me courage and strength to conclude my compilation of what has been so very special to me for numerous years. MOBILE BASEBALL CONNECTION is a very unique TRIBUTE to thousands of baseball players...young and old. Thousands of the topics represent Mobilians and Hundreds of the characters written about might not be from Mobile although they are many of the greatest men and boys to ever play the game. One must purchase the book to find all the GREAT baseball news that is written and recognized between the covers. From the HALL of FAME in Cooperstown to the Major Leagues and along the minor league trail are stories, statistics and memories. The Colleges and Universities in Mobile are highlighted along with best high school players and coaches. Don't ever think for a moment standouts on the Youth level would be left out from Babe Ruth and Dixie Boys all the way to the Little League World Series. MOBILE BASEBALL CONNECTION goes in to detail about thousands of facts, figures, stats, records, memories, births, deaths, milestones, and tidbits. It is a book that the real baseball fan will cherish. MBC is a reference book a lot like an almanac. The biographies, stories and reports about the great players connected and attached to Mobile, Alabama will educate the smartest baseball experts in the world. This book is definitely a collector's item that deserves a place on shelves in libraries and museums, on coffee tables and in book bags of our youth, but most importantly between the hands of baseball readers throughout our amazing country. I have held on to this idea and ambition to write about all this outstanding baseball for more than 20 years while the great players just keep coming around. I am humble with a spiritual thankfulness to GOD for allowing me to finish this project. Putting a cap on it is an everlasting feeling. There was only one way to put it all together and I did the very best I could. It is not about profit or gratitude. The 565 pages and 44 chapters of MOBILE BASEBALL CONNECTION are about the greatest baseball players that played in and around Mobile, Alabama. It brings me true joy to know that I have been a witness to such great baseball in my lifetime. Mobile Baseball Connection displays to the entire world how much baseball players and people have contributed to the City of Mobile through the wonderful sport of baseball. Mobile is best known for Mardi Gras, the Senior Bowl College football all-star game and good ole' Deep South outdoors on the Gulf Coast in Lower Alabama. The baseball players that were born, grew up, spent time and even died in the Port City are revealed and recognized.

Discipline and Punish Michel Foucault, 2012-04-18 A brilliant work from the most influential philosopher since Sartre. In this indispensable work, a brilliant thinker suggests that such vaunted reforms as the abolition of torture and the emergence of the modern penitentiary have merely shifted the focus of punishment from the prisoner's body to his soul.

The Yellow Wallpaper Charlotte Perkins Gilman, 2023-08-31 The Yellow Wallpaper by Charlotte Perkins Gilman is a short story by American writer

Charlotte Perkins Gilman, first published in January 1892 in *The New England Magazine*. It is regarded as an important early work of American feminist literature for its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the husband forbids the unnamed woman from working or writing and encourages her to eat well and get plenty of air so that she can recuperate from what he calls a temporary nervous depression – a slight hysterical tendency, a common diagnosis in women at the time. Plot summary: The story describes a young woman and her husband. He imposes a rest cure on her when she suffers temporary nervous depression after the birth of their baby. They spend the summer at a colonial mansion, where the narrator is largely confined to an upstairs nursery. The story makes striking use of an unreliable narrator in order to gradually reveal the degree to which her husband has imprisoned her due to her physical and mental condition: she describes torn wallpaper, barred windows, metal rings in the walls, a floor scratched and gouged and splintered, a bed bolted to the floor, and a gate at the top of the stairs, but blames all these on children who must have resided there. The narrator devotes many journal entries to describing the wallpaper in the room – its sickly color, its yellow smell, its bizarre and disturbing pattern like an interminable string of toadstools, budding and sprouting in endless convolutions, its missing patches, and the way it leaves yellow smears on the skin and clothing of anyone who touches it. She describes how the longer one stays in the bedroom, the more the wallpaper appears to mutate, especially in the moonlight. With no stimulus other than the wallpaper, the pattern and designs become increasingly intriguing to the narrator. She soon begins to see a figure in the design. Eventually, she comes to believe that a woman is creeping on all fours behind the pattern. Believing she must free the woman in the wallpaper, she begins to strip the remaining paper off the wall.

How to Change Your Mind Michael Pollan, 2019-05-14 Now on Netflix as a 4-part documentary series! “Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's mental travelogue is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

That Middle World Julia S. Charles, 2020-10-01 In this study of racial passing literature, Julia S. Charles highlights how mixed-race subjects invent cultural spaces for themselves—a place she terms that middle world—and how they, through various performance strategies, make meaning in the interstices between the Black and white worlds. Focusing on the construction and performance of racial identity in works by writers from the

antebellum period through Reconstruction, Charles creates a new discourse around racial passing to analyze mixed-race characters' social objectives when crossing into other racialized spaces. To illustrate how this middle world and its attendant performativity still resonates in the present day, Charles connects contemporary figures, television, and film—including Rachel Dolezal and her Black-passing controversy, the FX show *Atlanta*, and the musical *Show Boat*—to a range of nineteenth- and early twentieth-century literary texts. Charles's work offers a nuanced approach to African American passing literature and examines how mixed-race performers articulated their sense of selfhood and communal belonging.

A Walking Life Antonia Malchik, 2019-05-07 For readers of *On Trails*, this is an incisive, utterly engaging exploration of walking: how it is fundamental to our being human, how we've designed it out of our lives, and how it is essential that we reembrace it. I'm going for a walk. How often has this phrase been uttered by someone with a heart full of anger or sorrow? Or as an invitation, a precursor to a declaration of love? Our species and its predecessors have been bipedal walkers for at least six million years; by now, we take this seemingly arbitrary motion for granted. Yet how many of us still really walk in our everyday lives? Driven by a combination of a car-centric culture and an insatiable thirst for productivity and efficiency, we're spending more time sedentary and alone than we ever have before. If bipedal walking is truly what makes our species human, as paleoanthropologists claim, what does it mean that we are designing walking right out of our lives? Antonia Malchik asks essential questions at the center of humanity's evolution and social structures: Who gets to walk, and where? How did we lose the right to walk, and what implications does that have for the strength of our communities, the future of democracy, and the pervasive loneliness of individual lives? The loss of walking as an individual and a community act has the potential to destroy our deepest spiritual connections, our democratic society, our neighborhoods, and our freedom. But we can change the course of our mobility. And we need to. Delving into a wealth of science, history, and anecdote -- from our deepest origins as hominins to our first steps as babies, to universal design and social infrastructure, *A Walking Life* shows exactly how walking is essential, how deeply reliant our brains and bodies are on this simple pedestrian act -- and how we can reclaim it.

Assessment of Nontimber Forest Products in the United States Under Changing Conditions James L. Chamberlain, 2018-08-24 Nontimber forest products (NTFPs) are fundamental to the functioning of healthy forests and play vital roles in the cultures and economies of the people of the United

States. However, these plants and fungi used for food, medicine, and other purposes have not been fully incorporated into management, policy, and resource valuation. This report is a forest-sectorwide assessment of the state of the knowledge regarding NTFPs science and management information for U.S. forests and rangelands (and hereafter referred to as the NTFP assessment). The NTFP assessment serves as a baseline science synthesis and provides information for managing nontimber forest resources in the United States. In addition, this NTFP assessment provides information for national-level reporting on natural capital and the ecosystem services NTFPs provide. The report also provides technical input to the 2017 National Climate Assessment (NCA) under development by the U.S. Global Change Research Program (USGCRP).
