Thornton Wilder, Classical Reception, and American Literature Stephen J. Rojcewicz, Jr., 2021-11-25 This book delineates how Thornton Wilder (1897–1975), a learned playwright and novelist, embeds himself within the classical tradition, integrating Greek and Roman motifs with a wide range of sources to produce heart-breaking masterpieces such as *Our Town* and comedy sensations such as Dolly Levi. Through this study of archival sources and close reading, readers will understand Wilder's avant-garde staging and innovative time sequences not as a break with the past, but as a response to the classics. The author traces the genesis of unforgettable characters like Dolly Levi in *The Matchmaker*, Emily Webb in *Our Town*, and George Antrobus in *The Skin of Our Teeth*. Vergil's expression, Here are the tears of the world, and human matters touch the heart haunts Wilder's oeuvre. Understanding Vergil's phrase as tears for the beauty of the world, Wilder utilizes scenes depicting the beauty of the world and the sorrow when individuals recognize this too late. Wilder exhorts us to observe lovingly, alert to the wonder of the everyday. This work will appeal to actors and directors, professors and students in classics and in American literature, those fascinated by modern drama and performance studies, and non-specialists, theatre-goers, and readers in the general public.

The Garland Handbook of Latin American Music Dale Olsen, Daniel Sheehy, 2007-12-17 The Garland Handbook of Latin American Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 2, South America, Mexico, Central America, and the Caribbean, (1998). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Latin America and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to the area of Latin America and describes the history, geography, demography, and cultural settings of the regions that comprise Latin America. It also explores the many ways to research Latin American music, including archaeology, iconography, mythology, history, ethnography, and practice. Part Two focuses on issues and processes, such as history, politics, geography, and immigration, which are responsible for the similarities and the differences of each region's uniqueness and individuality. Part Three focuses on the different regions, countries, and cultures of Caribbean Latin America, Middle Latin America, and South America with selected regional case studies. The second edition has been expanded to cover Haiti, Panama, several more Amerindian musical cultures, and Afro-Peru. Questions for Critical Thinking at the end of each major section guide focus attention on what musical and cultural issues arise when one studies the music of Latin America -- issues that might not occur in the study of other musics of the world. Two audio compact discs offer musical examples of some of the music of Latin America.

A Grammar of Southern Pomo Neil Alexander Walker, 2020-02-15 A title in the Recovering Languages and Literacies of the Americas initiative, supported by the Andrew W. Mellon Foundation. A Grammar of Southern Pomo is the first comprehensive description of the Southern Pomo language, which lost its last fluent speaker in 2014. Southern Pomo is one of seven Pomoan languages once spoken in the vicinity of Clear Lake and the Russian River drainage of California. Prior to European contact, a third of all Pomoan peoples spoke Southern Pomo, and descendants of these speakers are scattered across several present-day reservations. These descendants have recently initiated efforts to revitalize the language. The unique culture of Southern Pomo speakers is embedded in the language in several ways. There are separate words for the many different species of oak trees and their different acorns, which were the people's staple cuisine. The kinship system is unusually rich both semantically and morphologically, with terms marked for possession, generation, number, and case. Verbs similarly encode the ancient interactions of speakers with their land in more than a dozen directional suffixes indicating specific paths of movement. A Grammar of Southern Pomo sheds new light on

a relatively unknown Indigenous California speech community. In many instances Neil Alexander Walker discusses phenomena that are rare or entirely unattested outside the language and challenges long-standing ideas about what human speech communities can create and pass on to children as well as the degree to which culture and place are inextricably woven into language.

Speaking Qur'an Timur R. Yuskaev, 2017-10-18 An exploration of how Muslims in the United States have interpreted the Qur'an in ways that make it speak to their American realities In *Speaking Qur'an: An American Scripture*, Timur R. Yuskaev examines how Muslim Americans have been participating in their country's cultural, social, religious, and political life. Essential to this process, he shows, is how the Qur'an has become an evermore deeply American text that speaks to central issues in the lives of American Muslims through the spoken-word interpretations of Muslim preachers, scholars, and activists. Yuskaev illustrates this process with four major case studies that highlight dialogues between American Muslim public intellectuals and their audiences. First, through an examination of the work of Fazlur Rahman, he addresses the question of how the premodern Qur'an is translated across time into modern, American settings. Next the author contemplates the application of contemporary concepts of gender to renditions of the Qur'an alongside Amina Wadud's American Muslim discourses on justice. Then he demonstrates how the Qur'an becomes a text of redemption in W. D. Mohammed's oral interpretation of the Qur'an as speaking directly to the African American experience. Finally he shows how, before and after 9/11, Hamza Yusuf invoked the Qur'an as a guide to the political life of American Muslims. Set within the rapidly transforming contexts of the last half century, and central to the volume, are the issues of cultural translation and embodiment of sacred texts that Yuskaev explores by focusing on the Qur'an as a spoken scripture. The process of the Qur'an becoming an American sacred text, he argues, is ongoing. It comes to life when the Qur'an is spoken and embodied by its American faithful.

Hearing Eye II Douglas Burnham, Ruth Campbell *G.Away*, B J Dodd, 2013-10-28 This volume outlines some of the developments in practical and theoretical research into speechreading lipreading that have taken place since the publication of the original *Hearing by Eye*. It comprises 15 chapters by international researchers in psychology, psycholinguistics, experimental and clinical speech science, and computer engineering. It answers theoretical questions what are the mechanisms by which heard and seen speech combine? and practical ones what makes a good speechreader? Can machines be programmed to recognize seen and seen-and-heard speech?. The book is written in a non-technical way and starts to articulate a behaviourally-based but cross-disciplinary programme of research in understanding how natural language can be delivered by different modalities.

The SAGE Handbook of Film Studies James Donald, Michael Renov, 2008-04-16 Written by a team of veteran scholars and exciting emerging talents, The SAGE Handbook of Film Studies maps the field internationally, drawing out regional differences in the way that systematic intellectual reflection on cinema and film has been translated into an academic discipline. It examines the conversations between Film Studies and its contributory disciplines that not only defined a new field of discourse but also modified existing scholarly traditions. It reflects on the field's dominant paradigms and debates and evaluates their continuing salience. Finally, it looks forward optimistically to the future of the medium of film, the institution of cinema and the discipline of Film Studies at a time when the very existence of film and cinema are being called into question by new technological, industrial and aesthetic developments.

Native Activism in Cold War America Daniel M. Cobb, 2008-10-24 The heyday of American Indian activism is generally seen as bracketed by the occupation of Alcatraz in 1969 and the Longest Walk in 1978; yet Native Americans had long struggled against federal policies that threatened to undermine tribal sovereignty and self-determination. This is the first book-length study of American Indian political activism during its seminal years, focusing on the movement's largely neglected early efforts before Alcatraz or Wounded Knee captured national attention. Ranging from the end of World War II to the late 1960s, Daniel Cobb uncovers the groundwork laid by earlier activists. He draws on dozens of interviews with key players to relate untold stories of both seemingly well-known events such as the American Indian Chicago Conference and little-known ones such as Native participation in the Poor People's Campaign of 1968. Along the way, he introduces readers to a host of previously neglected but critically important activists: Mel Thom, Tillie Walker, Forrest Gerard, Dr. Jim Wilson, Martha Grass, and many others. Cobb takes readers inside the early movement—from D'Arcy McNickle's founding of American Indian Development, Inc. and Vine Deloria Jr.'s tenure as executive director of the National Congress of American Indians to Clyde Warrior's leadership in the National Indian Youth Council—and describes how early activists forged connections between their struggle and anticolonialist movements in the developing world. He also describes how the War on Poverty's Community Action Programs transformed Indian Country by training bureaucrats and tribal leaders alike in new political skills and providing activists with the leverage they needed to advance the movement toward self-determination. This book shows how Native people who never embraced militancy—and others who did—made vital contributions as activists well before the American Indian Movement burst onto the scene. By highlighting the role of early intellectuals and activists like Sol Tax, Nancy Lurie, Robert K. Thomas, Helen Peterson, and Robert V. Dumont, Cobb situates AIM's efforts within a much broader context and reveals how Native people translated the politics of Cold War civil rights into the language of tribal sovereignty. Filled with fascinating portraits, Cobb's groundbreaking study expands our understanding of American Indian political activism and contributes significantly to scholarship on the War on Poverty, the 1960s, and postwar politics and social movements.
