**Art-Care Practices for Restoring the Communal** Barbara A. Bickel, R. Michael Fisher, 2022-12-28 This book contributes to a larger global call to radically re-create ourselves—to transform our fear and alienation from art, Nature, and ourselves. With compassion and grace, the co-authors outline how everyone may access the gift of Spontaneous Creation-Making and change dominant narratives of individualism. Discovering interconnectivity through art-care we can dream courageously together into the unknown possibilities of a precarious future. Art-care, as coined by the co-authors, is a matrixial form of communicating through art and reverence. This theoretically informed and practice-based book bridges the individual with the communal in Creation-centred ways that interweave the many parts with the whole. It provides examples of teachings, practices and spontaneous creations of makers that will benefit those who want to integrate art-care into individual practices or group facilitation. This book benefits socially engaged artists, arts-based researchers, artist-philosophers, activists, students, teachers, organizers, therapists, caregivers, and more.

*Streamlined ID* Miriam B. Larson, Barbara B. Lockee, 2013-08-22 *Streamlined ID: A Practical Guide to Instructional Design* presents a focused and generalizable approach to instructional design and development - one that addresses the needs of ID novices, as well as practitioners in a variety of career environments. Emphasizing the essentials and big ideas of ID, *Streamlined ID* presents a new perspective - one that aims to produce instruction that is sustainable, optimized, appropriately redundant, and targeted at continuous improvement. The book features an enhanced version of the classic ADDIE model (Analysis, Design, Development, Implementation, and Evaluation) that emphasizes the iterative nature of design and the role of evaluation throughout the design/development process. It clearly lays out a systematic approach that emphasizes the use of research-based

theories, while acknowledging the need to customize the process to address a variety of pedagogical approaches: Instructivist, Constructivist, and Connectivist. The book opens with an overview of the basics of ID and each subsequent chapter describes major activities in the ID process with step-by-step instructions and tips for streamlining the process. Numerous job aids serve to maximize the efficiency and effectiveness of your design efforts. Each chapter highlights key concepts and provides additional exercises and assignments based on the work of Benjamin Bloom. Streamlined ID is an ideal reference guide for optimizing professional practice.

**The Multimedia Internet** Stephen Weinstein, 2007-02-15 Here is a thorough, not-overly-complex introduction to the three technical foundations for multimedia applications across the Internet: communications (principles, technologies and networking); compressive encoding of digital media; and Internet protocol and services. All the contributing systems elements are explained through descriptive text and numerous illustrative figures; the result is a book well-suited toward non-specialists, preferably with technical background, who need well-composed tutorial introductions to the three foundation areas. The text discusses the latest advances in digital audio and video encoding, optical and wireless communications technologies, high-speed access networks, and IP-based media streaming, all crucial enablers of the multimedia Internet.

*Image and Video Retrieval* Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2007-05-22 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval (CIVR) at the National University of Singapore on 20-22 July 2005. CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image/video retrieval technologies. It addresses innovative research in the broad field of image and video retrieval. A unique feature of this conference is the high level of participation by researchers from both academia and industry. Another unique feature of CIVR this year was in its format – it offered both the traditional oral presentation sessions, as well as the short presentation cum poster sessions. The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants. We are pleased to note that interest in CIVR has grown over the years. The number of submissions has steadily increased from 82 in 2002, to 119 in 2003, and 125 in 2004. This year, we received 128 submissions from the international communities: with 81 (63.3%) from Asia and Australia, 25 (19.5%) from Europe, and 22 (17.2%) from North America. After a rigorous review process, 20 papers were accepted for oral presentations, and 42 papers were accepted for poster presentations. In addition to

the accepted submitted papers, the program also included 4 invited papers, 1 keynote industrial paper, and 4 invited industrial papers. Altogether, we offered a diverse and interesting program, addressing the current interests and future trends in this area.

**The Digitally-Agile Researcher** Natalia Kucirkova, Oliver Quinlan, 2017-11-30 What survival skills do academics need to become digitally agile and to establish an effective digital academic presence? The twenty-first century academic is an engaged researcher who connects, builds and sustains varied and global audiences interested in their research. In one handy book, this essential read contains comprehensive advice on developing and sustaining a unique mix of twenty-first century scholarly skills and digital competencies. From getting started with Twitter to more detailed advice on how to manage time when performing the roles of an academic blogger and forum moderator, this book provides real world case studies to illustrate how to integrate digital engagement with traditional scholarly work. With a range of helpful strategies, *The Digitally-Agile Researcher* is a credible and practical guide for academics at all stages of their career, doctoral students, early career researchers or experienced academics. 'The Digitally-Agile Researcher is an important and welcome contribution to a growing literature on academic scholarship in the digital age. The book should be read by faculty and administrators alike, as it lays out a clear roadmap of the digital opportunities and challenges that researchers face and they support they require. If there is any hope for the future of the contemporary university, it will come through the communities we forge in new scholarly practices and the ways in which we negotiate digital society. *The Digitally-Agile Researcher* will be instrumental in fostering those communities.'
