Sandwiched by editorial chapters that include critical analysis, the book contains 19 chapters by 21 authors about the forming of the autistic community and neurodiversity movement, progress in their influence on the broader autism community and field, and their possible threshold of the advocacy establishment. The actions covered are legendary in the autistic community, including manifestos such as “Don’t Mourn for Us”, mailing lists, websites or webpages, conferences, issue campaigns, academic project and journal, a book, and advisory roles. These actions have shifted the landscape toward viewing autism in social terms of human rights and identity to accept, rather than as a medical collection of deficits and symptoms to cure.

When a child is diagnosed with an Autism Spectrum Disorder (ASD), parents often feel overwhelmed and uncertain about how to communicate the diagnosis to their child. This book is designed to be read with the child as a simple introduction to their diagnosis. Written by a doctor and a children's author, the book is tailored precisely to the needs and experiences of the child with ASD aged 5 and up. It explains what an autism diagnosis means and encourages an exploration of the child's likely strengths and differences using clear language that speaks directly to the child. The colourful pictures throughout show how the world looks from the child's perspective and the book ends with a summary checklist to encourage the child to record and discuss how autism affects them.

Autism Goes to School! Dr. Sharon A. Mitchell, 2022-02-14 A single dad. A boy with autism. A dedicated teacher. Can they be what each other needs? After suddenly receiving custody of his five year old son, Ben must learn how to be a dad. The fact that he'd even fathered a child was news to him. Not only does this mean restructuring his sixty-hour workweek and becoming responsible for another human being, but Kyle is autistic. Enter the school system and a shaky beginning. Under the guidance of a gifted teacher, Ben and Kyle take tentative steps to becoming father and son. Teacher Melanie Nicols sees Ben as a deadbeat dad, but grudgingly comes to admire how he hangs in, determined to learn for his son's sake. Her admiration grows to more as father and son come to rely on Melanie being a part of their lives. When parents receive the news that their child has autism, they spend countless hours researching the subject, usually at night, after an exhausting day. Teachers, when they hear that they'll have a student with an autism spectrum disorder, also try to learn as much as they can. This novel was written for such parents and teachers - an entertaining read that's fun, yet still offers strategies and information on autism.

Parenting Across the Autism Spectrum Maureen Morrell, Ann Palmer, 2006-04-27 Maureen F. Morrell and Ann Palmer are raising two very different children: Justin, a whirlwind of activity and mood swings, who is supervised in a residential farm community, and Eric, quiet and passive, who lives independently at college. The authors give an account of the striking similarities as well as the stark differences in their experiences of parenting children at opposite extremes of the autism spectrum. The two mothers speak openly about their children's diagnosis and early childhood through to adolescence, young adulthood and the day they leave home. They give a moving account of the challenges they faced and the surprising consolations they found along their sons' very different paths in life. Through their friendship and two decades of shared experiences of parenting an ASD child, each has gained a clear understanding of her own strengths and limitations, as well as those of

her child. Parenting Across the Autism Spectrum offers a personal perspective and practical guidance for parents at the start of their journey with autism, especially those whose children are newly diagnosed. It also provides useful insights for professionals working with individuals across the autism spectrum and their families. The book was elected the 2007 Autism Society of America's Outstanding Literary Work of the Year.
