Fade Away Harlan Coben,2010-08-31 EDGAR AWARD WINNER • “What sets Harlan Coben above the crowd are wit and . . . an entertaining plot.”—Los Angeles Times Book Review In novels that crackle with wit and suspense, Harlan Coben has created one of the most fascinating heroes in suspense fiction: the wisecracking, tenderhearted sports agent Myron Bolitar. In this gripping third novel in the acclaimed series, Myron must confront a past that is dead and buried—and more dangerous than ever before. The home is top-notch New Jersey suburban. The living room is Martha Stewart. The basement is Legos—and blood. The signs of a violent struggle. For Myron Bolitar, the disappearance of a man he once competed against is bringing back memories—of the sport he and Greg Downing had both played and the woman they both loved. Now, among the stars, the wannabes, the gamblers, and the groupies, Myron is embarking upon the strange ride of a sports hero gone wrong that just may lead to certain death. Namely, his own.

**Covid-19 and Capitalism** Koen Byttebier,2022-04-22 This open access book provides a comprehensive analysis of the socioeconomic determinants of Covid-19. From the end of 2019 until presently, the world has been ravaged by the Covid-19 pandemic. Although the cause of this is (obviously) a virus, the extent to which this virus spread, and therefore the number of infections and deaths, was largely determined by socio-economic factors. From this, it follows that the course of the pandemic varies greatly from one country to another. This observation applies both to countries' resilience to such a pandemic (which is mainly rooted in the period preceding the outbreak of the virus) and to the way in which countries have reacted to the virus (including the political choices on how to respond). Meanwhile, research has made it clear that the nature of this response (e.g., elimination policy, mitigation policy, and proceeding herd immunity) was, on the one hand, strongly determined by political and ideological factors and, on the other hand, was highly influential in the factors of success or failure in combating the pandemic. The book focuses on the situation in a number of Western regions (notably the USA, the UK, and the EU and its Member States). The author addresses the reasons why in many Western countries both pandemic prevention and response policies to Covid-19 have failed. The book concludes with recommendations concerning the rearrangement of the socio-economic order that could increase the resilience of (Western) societies against such pandemics.

The Holiday Makers Richard K. Popp,2012-05-16 Between the 1930s and 1960s, the spread of new transportation networks and the democratization of paid vacations struck many observers as a sign that tourism was growing into a folkway of modern American life. Easy mobility and free time lay at the heart of this idealized vision, and vacations were seen as a ritualized expression of the movement and egalitarianism that characterized midcentury modernity. The Holiday Makers tells the story of how advertisers sold tourist travel in popular magazines during this era, transforming consumer culture in the process.
