Android Apps for the Drunk Harold N. Malt, Winston Sauer, Scott Scotch, 2012-08-10 As alcohol connoisseurs and Android aficionados both, we felt the world was long overdue for a book targeted at what we know to be a large and growing market: people with smartphones who like to get blitzed. The collection of apps we've compiled is a testament to drunken debauchery in the age of smartphones and tablet computers, for despite the introduction of these world-changing devices into our lives, the requisites of the boozers among us have changed little. Song, sport, and passionate expression have long been keystones of the mind of the drunken reveler, and we're confident that our ebook contains apps that would excite Dionysians of the past just as much as it will delight today's intoxicated Android users. This book contains real stories, real jokes, and real profanity - so don't buy it if you can't handle it.

Leading in the Digital Environment Lin Carver, Holly S. Atkins, 2021-03-15 This book provides the theory behind integration of

technology, provides a rationale for that integration, and explores resources and methods for supporting others in their growth in technology integration. Educational leaders will be a particular focus of the book as the need to be prepared to help their faculty integrate technology into their institutions. They are knowledgeable about administrative responsibilities, but not always as knowledgeable about theories and best practices of technology integration. Each chapter begins with a scenario or example from K-12 or higher education to illustrate the ideas presented in the chapter, then the chapter delves into the theoretical background, followed by a technology example, and concluding with activities readers could engage in to deepen their understanding of the concepts presented.

Artful Design Ge Wang, 2018-09-11 What we make, makes us.

This is the central tenet of *Artful Design*, a photorealistic comic book that examines the nature, purpose, and meaning of design. A call to action and a meditation on art, authenticity, and social connection in a world disrupted by technological change, this book articulates a fundamental principle for design: that we should design not just from practical needs but from the values that underlie those needs. *Artful Design* takes readers on a journey through the aesthetic dimensions of

technology. Using music as a universal phenomenon that has evolved alongside technology, this book breaks down concrete case studies in computer-mediated toys, tools, games, and instruments, including the best-selling app Ocarina. Every chapter elaborates a set of general design principles and strategies that illuminate the essential relationship between aesthetics and engineering, art and design. Ge Wang implores us to both embrace and confront technology, not purely as a means to an end, but in its potential to enrich life. Technology is never a neutral agent, but through what we do with it—through what we design with it—it provides a mirror to our human endeavors and values. Artful Design delivers an aesthetic manifesto of technology, accessible yet uncompromising.

HCI International 2013 - Posters' Extended Abstracts Constantine Stephanidis, 2013-06-13 This is the first of a two-volume set (CCIS 373 and CCIS 374) that constitutes the extended abstracts of the posters presented during the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA, in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The extended abstracts were carefully reviewed and selected for inclusion in this two-volume set. The papers included in this volume are organized in the following topical sections: HCI design approaches, methods and techniques; usability methods, techniques

and studies; universal access and eInclusion; multimodal and ambient interaction; cognitive and psychological aspects of interaction; perception and interaction; ergonomic and human modelling issues; capturing gaze, biosignals and brainwaves; development environments; product design, marketing and advertisement.

Geschichtsbewusstsein in der Gesellschaft Jan M.

Hoffrogge, Martin Schlutow, Max Twickler, 2021-04-15 Bernd Schönemann hat die geschichtsdidaktische Forschung zur Bildungsgeschichte, zum Geschichtsunterricht und zur Geschichtskultur in den letzten Jahrzehnten maßgeblich geprägt. Die in diesem Band versammelten Beiträge greifen seine Positionen und Impulse auf und denken sie weiter. Der Band verweist auf den Kern des geschichtsdidaktischen Forschens und Lehrens Bernd Schönemanns. Die versammelten Beiträge belegen, dass die Erschließung der geschichtsdidaktischen Zentralkategorien Geschichtsbewusstsein und Geschichtskultur längst nicht abgeschlossen ist, sondern sich weiterhin neue Forschungsperspektiven ergeben.

Aprender entre imágenes y pantallas. XXIX Jornadas

Internacionales Universitarias de Tecnología Educativa Gallardo

Fernández, Isabel María, Peirats Chacón, José, San Martín Alonso,

Ángel, 2023-03-09 Las Jornadas Internacionales Universitarias de

Tecnología Educativa (JUTE 2022) forman parte de las actividades de

la red académica RUTE (Red Universitaria de Tecnología Educativa)

y su XXIX edición se celebró en la Universitat de València los días 15,

16 y 17 de junio de 2022. Las JUTE 2022 tienen como lema Aprender

entre imágenes y pantallas, con el cual se abre un espacio de reflexión

y debate sobre las posibilidades que ofrecen los medios digitales para

promover una ciudadanía diversa e inclusiva. Los más jóvenes viven y

disfrutan intensamente de la iconosfera en la que adquieren nuevos

patrones culturales y cognitivos. De modo que cabe preguntarse, ¿qué

estrategias de aprendizaje adquieren en la sobreexposición a tantas

imágenes y pantallas? Aprender entre imágenes y pantallas es también

un reto para los docentes y demás profesionales que les invita a

aprender a mirar y a ponerse en el lugar de quienes viven frente a

ellas. Solo así se llegará a comprender sus emociones y su relación con

los medios digitales desde el debate sobre los últimos avances en la

investigación. Las JUTE 2022 se dirigen a ese conjunto amplio de

profesionales con distintos perfiles formativos y responsabilidades,

tienen relación con las generaciones socializadas en el entorno

audiovisual. A todo el conjunto hacemos extensiva la invitación a

participar, de forma presencial o en la modalidad virtual, en esta

convocatoria ya sea con sus aportaciones en forma de comunicación o

con la palabra en las sesiones presenciales.
