California's Fall Color G. Dan Mitchell, 2018-04 No need to hop on a plane to the East Coast! California has beautiful fall foliage, especially in the Sierra Nevada, which glows red and golden every year with aspens, cottonwoods, dogwoods, maples, and oaks. This compact, lively guide shows visitors where and how to capture the best images of turning leaves in the eastern Sierra, Tahoe, and Yosemite, as well as destinations off the beaten track. Mitchell's advice is suitable for photographers of all levels, whether tourists who want to share their experience with friends or professionals seeking advice for dealing with the special challenges of fall photography. More than a manual of technical considerations, though, *California's Fall Color* encourages us to be overwhelmed by beauty--to take home an image containing the color but, just as importantly, the essence of that sublime feeling.

Life in Color Annie Griffiths, 2014 A celebration of color by one of the first women National Geographic photographers devotes each chapter to a color while providing inspirational essays that explore each color's qualities, meaning and symbolism, in a sumptuously photographed tribute that includes coverage of unseen color as revealed by new technologies.

Color Cavalcade Lester Hills, 2021-06-16 The collection of photographs in this book offer a variety of colorful scenes in various locations throughout Central Oregon. The author has assembled a line-up of appealing autumn color photos that are sure to be pleasing to the eyes of those who examine these pages. Despite the prominence of the desert in this region, there are splotches of fall color to be found all over this scenic area.

This is especially true in those forested sectors close to the mountains where maples, aspens, and birch grow in prolific numbers by creeks and rivers. But due to human efforts, there are many deciduous trees in the communities of this part of the Beaver State. Though not every town in Central Oregon is represented herein, many of the pictures showcased are of scenes found in urban parks and along city streets. The purpose of this color-saturated volume is to show off the fall colors that abound in this sector of Oregon. Since the autumn colors are the primary feature of this book, it focuses on those areas with the most abundant color to be seen each fall. Granted, this area does not have the type of fall color scenes found in New England and other places that have massive deciduous forests. But that does not mean Central Oregon is void of autumn colors. On the contrary, this book displays the color-studded scenes that come along each year during the fall months, scenes relished by tourists and locals alike.

Niagara Falls Colors of Autumn Colin Knoll, 2015-01-16 This is a compilation of the scenery of the Niagara Falls region throughout a season of Autumn. It takes in all local regions not just the falls themselves. To enhance these photographs I have included some original verse.

Autumn in the Country Stan Trzoniec, 2009-02-23 Today, with his heavy involvement in digital photography he travels the country in search of dynamic photographs for his favorite season— Autumn—while at the same time gathering information for his magazine projects that include wildlife and landscape subjects. He believes in taking photos the correct way from the start—and only relies on software programs to enhance his photos for sharpness and minor color adjustments.

The Colors of Fall Road Trip Guide Jerry Monkman, Marcy Monkman, 2010-09-20 On the coffee table or in the glove compartment, it's the perfect fall foliage road trip companion. The Colors of Fall Road Trip Guide details 25 of the best scenic tours during fall foliage season in New England. Trips vary from short drives on the coast to all-day excursions in the region's mountains and forests. Detailed maps and itineraries compliment trip descriptions that tell you what you'll find along the route. GPS coordinates are also included for trip "hot spots." In addition, sidebars suggest short walks and hikes that are great diversions when a little leg-stretching is required. This is the perfect companion for any leaf-peeping excursion. Here are just a handful of the beautiful foliage sites and tours the Monkman's will guide you through: Vermont's Northeast Kingdom: Groton State Forest, Cabot, and Peacham A Covered Bridge Tour of Southwestern New Hampshire Maine's Western Lakes Region The Southern Berkshires: Hay Fields, Waterfalls, and Cobbles Rhode Island's Beaches and Mansions: Westerly to Newport The Connecticut Highlands: North Meets South A Connecticut River Tour in Southern Vermont and New Hampshire Maine's Big Woods: The Kennebec Valley and

Colors in Fashion Jonathan Faiers, Mary Westerman Bulgarella, 2016-11-17 Color speaks a powerful cultural language, conveying political, sexual, and economic messages that, throughout history, have revealed how we relate to ourselves and our world. This ground-breaking compilation is the first to investigate how color in fashionable and ceremonial dress has played a significant social role, indicating acceptance and exclusion, convention and subversion. From the use of white in pioneering feminism to the penchant for black in post-war France, and from mystical scarlet broadcloth to the horrors of arsenic-laden green fashion, this publication demonstrates that color in dress is as mutable, nuanced, and varied as color itself. Divided into four thematic parts – solidarity, power, innovation, and desire – each section highlights the often violent, emotional histories of color in dress across geographical, temporal and cultural boundaries. Underlying today's relaxed attitude to color lies a chromatic complexity that speaks of wars, migrations and economics. While acknowledging the importance that technology has played in the development of new dyes, the chapters explore color as a catalyst for technical innovation that continues to inspire designers, artists, and performers. Bringing together cutting-edge contributions from leading scholars, it is essential reading for academics of fashion, textiles, design, cultural studies and art history.

Landscape Photography Chris Gatum, 2013-09-02 The changing of the seasons presents the landscape photographer with nature's most dramatic sights, as well as many of the genre's most rewarding photographic challenges. Chris Gatum uses the work of the field's most exciting contemporary photographers to illustrate this lavishly-presented

four-volume set, and the result is a unique package that combines practicality with inspirational gift appeal. A magnetic closure on the outer case holds four individual seasonal volumes securely in place: each is packed with inspirational images and practical tips, and the hardback pocketbook format means that they are an easy addition to the camera bag.
