**Virtual Art** Oliver Grau, 2004-09-17 An overview of the art historical antecedents to virtual reality and the impact of virtual reality on contemporary conceptions of art. Although many people view virtual reality as a totally new phenomenon, it has its foundations in an unrecognized history of immersive images. Indeed, the search for illusionary visual space can be traced back to antiquity. In this book, Oliver Grau shows how virtual art fits into the art history of illusion and immersion. He describes the metamorphosis of the concepts of art and the image and relates those concepts to interactive art, interface design, agents, telepresence, and image evolution. Grau retells art history as media history, helping us to understand the phenomenon of virtual reality beyond the hype. Grau shows how each epoch used the technical means available to produce maximum illusion. He discusses frescoes such as those in the Villa dei Misteri in Pompeii and the gardens of the Villa Livia near Prima Porta, Renaissance and Baroque illusion spaces, and panoramas, which were the most developed form of illusion achieved through traditional methods of painting and the mass image medium before film. Through a detailed analysis of perhaps the most important German panorama, Anton von Werner's 1883 The Battle of Sedan, Grau shows how immersion produced emotional responses. He traces immersive cinema through Cinerama, Sensorama, Expanded Cinema, 3-D, Omnimax and IMAX, and the head mounted display with its military origins. He also examines those characteristics of virtual reality that distinguish it from earlier forms of illusionary art. His analysis draws on the work of contemporary artists and groups ART+COM, Maurice Benayoun, Charlotte Davies, Monika Fleischmann, Ken Goldberg, Agnes Hegedues, Eduardo Kac, Knowbotic Research, Laurent Mignonneau, Michael Naimark, Simon Penny, Daniela Plewe, Paul Sermon, Jeffrey Shaw, Karl Sims, Christa Sommerer, and Wolfgang Strauss. Grau offers not just a history of illusionary space but also a theoretical framework for analyzing its phenomenologies, functions, and strategies throughout history and into the future.

Art, Research, Philosophy Clive Cazeaux, 2017-04-11 Art, Research, Philosophy explores the emergent field of artistic research: art produced as a contribution to knowledge. As a new subject, it raises several questions: What is art-as-research? Don't the requirements of research amount to an imposition on the artistic process that dilutes the power of art? How can something subjective become objective? What is the relationship between art and writing? Doesn't description always miss the particularity of the artwork? This is the first book-length study to show how ideas in philosophy can be applied to artistic research to answer its questions and to make proposals for its future. Clive Cazeaux argues that artistic research is an exciting development in the historical debate between aesthetics and the theory of knowledge. The book draws upon Kant, phenomenology and critical theory to show how the immediacies of art and experience are enmeshed in the structures that create knowledge. The power of art to act on these structures is illustrated through a series of studies that look closely at a number of contemporary artworks. This book will be ideal for postgraduate students and

scholars of the visual and creative arts, aesthetics and art theory. **On Writing Well** William Zinsser, 2016-06-13

**Godard On Godard** Jean-luc Godard, 1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

**Austerlitz** W.G. Sebald, 2011-12-06 Austerlitz, the internationally acclaimed masterpiece by “one of the most gripping writers imaginable” (The New York Review of Books), is the story of a man's search for the answer to his life's central riddle. A small child when he comes to England on a Kindertransport in the summer of 1939, one Jacques Austerlitz is told nothing of his real family by the Welsh Methodist minister and his wife who raise him. When he is a much older man, fleeting memories return to him, and obeying an instinct he only dimly understands, he follows their trail back to the world he left behind a half century before. There, faced with the void at the heart of twentieth-century Europe, he struggles to rescue his heritage from oblivion.

**Surprise, Kill, Vanish** Annie Jacobsen, 2019-05-14 From Pulitzer Prize finalist Annie Jacobsen, the untold USA Today bestselling story of the CIA's secret paramilitary units. Surprise . . . your target. Kill . . . your enemy. Vanish . . . without a trace. When diplomacy fails, and war is unwise, the president calls on the CIA's Special Activities Division, a highly-classified branch of the CIA and the most effective, black operations force in the world. Originally known as the president's guerrilla warfare corps, SAD conducts risky and ruthless operations that have evolved over time to defend America from its enemies. Almost every American president since World War II has asked the CIA to conduct sabotage, subversion and, yes, assassination. With unprecedented access to forty-two men and women who proudly and secretly worked on CIA covert operations from the dawn of the Cold War to the present day, along with declassified documents and deep historical research, Pulitzer Prize finalist Annie Jacobsen unveils -- like never before -- a complex world of individuals working in treacherous environments populated with killers, connivers, and saboteurs. Despite Hollywood notions of off-book operations and external secret hires, covert action is actually one piece in a colossal foreign policy machine. Written with the pacing of a thriller, *Surprise, Kill, Vanish* brings to vivid life the sheer pandemonium and chaos, as well as the unforgettable human will to survive and the intellectual

challenge of not giving up hope that define paramilitary and intelligence work. Jacobsen's exclusive interviews -- with members of the CIA's Senior Intelligence Service (equivalent to the Pentagon's generals), its counterterrorism chiefs, targeting officers, and Special Activities Division's Ground Branch operators who conduct today's close-quarters killing operations around the world -- reveal, for the first time, the enormity of this shocking, controversial, and morally complex terrain. Is the CIA's paramilitary army America's weaponized strength, or a liability to its principled standing in the world? Every operation reported in this book, however unsettling, is legal.

**Visionary Film** P. Adams Sitney, 2002-10-03 Critics hailed previous editions of Visionary Film as the most complete work written on the exciting, often puzzling, and always controversial genre of American avant-garde film. This book has remained the standard text on American avant-garde film since the publication of its first edition in 1974. Now P. Adams Sitney has once again revised and updated this classic work, restoring a chapter on the films of Gregory J. Markopoulos and bringing his discussion of the principal genres and major filmmakers up to the year 2000.

**Expanded Practice: Höweler + Yoon Architecture/My Studio** J. Meejin Yoon, Eric Höweler, 2009-07-14 Rising stars in Boston's design scene, architects Eric Höweler and J. Meejin Yoon have in a single decade developed a reputation for radical experiments in architectural form. Their design methodology--what they call an expanded practice--combines intense research with interdisciplinary experimentation. Höweler and Yoon's sensational, competition-winning lighting entry for the 2004 Athens Olympics exemplifies their fearless approach: without any prior experience in public space interactive design, the firm constructed a luminous, interactive soundscape installation at the base of the Acropolis. White Noise White Light featured a field of semiflexible fiber-optic strands that emitted white light and white noise in response to the movement of pedestrians. The project, an enormous success, enchanted a multitude of visitors who moved amidst the cilia of light. Expanded Practice presents twenty-nine recent projects by this young firm encompassing a broad range of scales and media. The projects, divided into distinct but often overlapping research themes, include a museum courtyard program inspired by the Voronoi cell-packing algorithm (PS1 Loop); an outdoor light installation featuring hovering cones that capture and interact with solar energy, rainwater, and sound (Hover); a garment designed to turn inside out as it unravels (Mobius Dress); and a landscape design that weaves technology and texture into an integrated and interactive landscape (Tripanel). Packed with drawings, diagrams, and photographs of each project's design process, Expanded Practice provides an inspirational look into one of the most exciting young firms working in architecture today.

**The Goshawk** T.H. White,2012-04-25 The predecessor to Helen Macdonald's H is for Hawk, T. H. White's nature writing classic, The Goshawk, asks the age-old question: what is it that binds human beings to other animals? White, the author of The Once and Future King and Mistress Masham's Repose, was a young writer who found himself rifling through old handbooks of falconry. A particular sentence—"the bird reverted to a feral state"—seized his imagination, and, White later wrote, "A longing came to my mind that I should be able to do this myself. The word 'feral' has a kind of magical potency which allied itself to two other words, 'ferocious' and 'free.'" Immediately, White wrote to Germany to acquire a young goshawk. Gos, as White named the bird, was ferocious and Gos was free, and White had no idea how to break him in beyond the ancient (and, though he did not know it, long superseded) practice of depriving him of sleep, which meant that he, White, also went without rest. Slowly man and bird entered a state of delirium and intoxication, of attraction and repulsion that looks very much like love. White kept a daybook describing his volatile relationship with Gos—at once a tale of obsession, a comedy of errors, and a hymn to the hawk. It was this that became The Goshawk, one of modern literature's most

memorable and surprising encounters with the wilderness—as it exists both within us and without.
