Celebrating Birds is the ultimate companion to the game for fans, as well as a beautiful and in-depth field guide for avian and nature enthusiasts. In addition to large-size representations of each bird and the most up-to-date bird descriptions provided by Cornell Lab of Ornithology, Celebrating Birds includes a step-by-step guide that can be used to take the game into the real world. Players can collect points based on the birds,

nests, and various habitat and feeding clues they find outside. Artists and best friends Natalia Rojas and Ana Maria Martinez collaborated to create the beautiful depictions featured in the original Wingspan board game. **The Inventor and the Tycoon** Edward Ball, 2013-11-05 A Chicago Tribune Noteworthy Book of the Year Nearly 140 years ago, in frontier California, photographer Eadweard Muybridge captured time with his camera and played it back on a flickering screen, inventing the breakthrough technology of moving pictures. Yet the visionary inventor Muybridge was also a murderer who killed coolly and meticulously, and his trial became a national sensation. Despite Muybridge's crime, the artist's patron, railroad tycoon Leland Stanford, founder of Stanford University, hired the photographer to answer the question of whether the four hooves of a running horse ever left the ground all at once—and together these two unlikely men launched the age of visual media. Written with style and passion by National Book Award-winner Edward Ball, this riveting true-crime tale of the partnership between the murderer who invented the movies and the robber baron who built the railroads puts on display the virtues and vices of the great American West.

*Apollo to the Moon* Teasel E. Muir-Harmony, 2018 A celebration of the 50th anniversary of NASA's Apollo missions to the moon, this narrative uses 50 key artifacts from the Smithsonian archives to tell the story of the groundbreaking space exploration program. Bold photographs, fascinating graphics, and engaging stories commemorate the 20th century's most important space endeavor: NASA's Apollo program to reach the moon. From the lunar rover and an emergency oxygen mask to space food and moon rocks, it's a carefully curated array of objects--complete with intriguing back stories and profiles of key participants. This book showcases the historic space exploration program that landed humans on the moon, advanced the world's capabilities for space travel, and revolutionized our sense of humanity's place in the universe. Each historic accomplishment is symbolized by a different object, from a Russian stamp honoring Yuri Gagarin and plastic astronaut action figures to the Apollo 11 command module, piloted by Michael Collins as Armstrong and Aldrin made the first moonwalk, together with the monumental art inspired by these moon missions. Throughout, *Apollo to the Moon* also tells the story of people who made the journey possible: the heroic astronauts as well as their supporters, including President John F. Kennedy, newsman Walter Cronkite, and NASA scientists such as Margaret Hamilton.--Publisher's website.

*Creative Conservation* P.J. Olney, G. Mace, A. Feistner, 2012-12-06 Past progress and future challenges R.J. Wheater Royal Zoological Society of Scotland, Edinburgh, UK. In the past two decades much has been achieved in the sphere of breeding endangered species, and we should be pleased that our co operative efforts have already borne so much fruit. However, on balance and despite the best efforts of conservationists, the position of wildlife in the wild places where they are best conserved has become worse, often dramatically worse. Before returning to the United Kingdom in 1972, I was in Uganda for 16 years, most of which time was spent as Chief Warden of Murchison Falls National Park. Our main problem was that an over-population of large mammals was having a devastating impact on the habitat. Devastation was being wrought on woodland areas by the arrival of large numbers of elephants into the sanctuary of the Park, following changes in land use in the areas outside the Park. These changes were in response to the requirements of an ever-expanding human population.

**How to Get Filthy Rich In Rising Asia** Mohsin Hamid,2013-03-28 How to Get Filthy Rich in Rising Asia is Mohsin Hamid's spectacular, thought-provoking novel of modern Asia In this keenly-awaited follow-up to his bestselling *The Reluctant Fundamentalist*, Mohsin Hamid confirms his place as a radically inventive story-teller with his finger on the world's pulse. The astonishing and riveting tale of a man's journey from impoverished rural boy to corporate tycoon, it steals its shape from the business self-help books devoured by youths all over 'rising Asia'. It follows its nameless hero to the sprawling metropolis where he begins to amass an empire built on the most fluid and increasingly scarce of goods: water. Yet his heart remains set on something else, on the pretty girl whose star rises alongside his, their paths crossing and re-crossing in a love affair sparked and snuffed out again by the forces that careen their fates along. The hero of the story could be any one of us, hungry for a different life. And ours too could be the fate that awaits him . . . Fast-paced, vivid and emotionally absorbing, *How to Get Filthy Rich in Rising Asia* creates two unforgettable characters who find moments of transcendent intimacy in the midst of shattering change. Praise for *How to Get Filthy Rich in Rising Asia*: 'Even more intriguing, compelling and moving than *The Reluctant Fundamentalist*. A marvellous book' Philip Pullman 'This brilliantly structured, deeply felt book is written with the confidence and bravura of a man born to write. Hamid is at the peak of his considerable powers here, and delivers a tightly paced, preternaturally wise book about a thoroughly likable, thoroughly troubled striver in the messiest, most chaotic ring of global economy. Completely unforgettable' Dave Eggers 'Mohsin Hamid is one of the best writers in the world, period. Only a master could have written this propulsive tale of a striver living on the knife's edge, a noir Horatio Alger story for our frenetic, violent times' Ben Fountain 'Written in the most compelling second person since Jay McInerney's *Bright Lights, Big City*, with which it also shares a sharp take on our frenetic, urban lives, Hamid's novel proves that the most compelling fiction today is coming from South Asia' *Daily Beast* Mohsin Hamid is the author of *The Reluctant Fundamentalist* and *Moth Smoke*. His fiction has been adapted for the cinema, translated into over 30 languages, received numerous awards, and been shortlisted for the Man Booker Prize. He has contributed essays and short stories to publications such as the *Guardian*,

The New York Times, Financial Times, Granta, and the New Yorker. Born and mostly raised in Lahore, he spent part of his childhood in California, studied at Princeton University and Harvard Law School, and has since lived between Lahore, London and New York.
