Antarctica's Lost Aviator Jeff Maynard,2019-02-05 By the 1930s, no one had yet crossed Antarctica, and its vast interior remained a mystery frozen in time. Hoping to write his name in the history books, wealthy American Lincoln Ellsworth announced he would fly across the unexplored continent. The main obstacles to Ellsworth's ambition were numerous: he didn't like the cold, he avoided physical work, and he couldn't navigate. Consequently, he hired the experienced Australian explorer, Sir Hubert Wilkins, to organize the expedition on his behalf. While Ellsworth battled depression and struggled to conceal his homosexuality, Wilkins purchased a ship, hired a crew, and ordered a revolutionary new airplane constructed. The Ellsworth Trans-Antarctic Expeditions became epics of misadventure, as competitors plotted to beat Ellsworth, crews mutinied, and the ship was repeatedly trapped in the ice. A few hours after taking off in 1935, radio contact with Ellsworth was lost and the world gave him up for dead. Antarctica's Lost Aviator brings alive one of the strangest episodes in polar history, using previously unpublished diaries, correspondence, photographs, and film to reveal the amazing true story of the first crossing of Antarctica and how, against all odds, it was achieved by the unlikeliest of heroes.

Ava the Aviator -The Adventure Continues Diane Meszaros,2020-11-15 In this sequel to *Ava the Aviator: The Adventure Begins*, Ava and her father realize that they must fix the problem with the airplane that recently brought them, unexpectedly, to France. Although they had an amazing adventure, they knew that they could not let it happen again. While her father works on the steering, Ava turns her attention to painting the plane that she named the Golden Goose. Soon the intrepid father and daughter duo are ready to try again. After climbing into the plane for a short test flight, they soon realize that things are not going as planned. Unable, once more, to control the steering, Ava and her father settle in for what turns out to be another long fight. Following a rough landing, Ava finds herself face-to-face with a beautiful, but wild, animal, leaving her wondering what else she will face in this strange land. Follow Ava as she encounters exotic creatures, both great and small, and join her

on her quest to help the children of a foreign land and their community. When she returns home and shares her plan with her friends and enlists their assistance, the word spreads far and wide, leading to an unforgettable and rewarding conclusion. In this exciting second installment in the series, Ava and her classmates learn that by working together, they can accomplish great things. She again entertains and inspires her readers while educating them about life in a different culture and proves once again that the sky really is the limit when you follow your dream.

The Fabulous Flying Mrs Miller Carol Baxter, 2019-05-09 The remarkable true story of a beguiling Melbourne housewife who in the 1920s seeks international fame, fortune, and adventure as an aviator and finds herself as the central figure in a sensational American murder trial. 'Mrs Keith Miller, internationally known aviatrix, was taken to the county jail here today and held for investigation by State Attorney's investigators. Jail attendants said they understood she was held in connection with the shooting of an airline pilot.' Petite, glamorous, and beguiling, Jessie 'Chubbie' Miller was one remarkable woman ... flyer, thrill seeker, heartbreaker. No adventure was too wild for her, no danger too extreme. And all over the world men adored her. When the young Jessie left suburban Melbourne and her newspaperman husband in 1927, little did she know that she'd become the first woman to complete an England to Australia flight (with a black silk gown thrown into her small flight bag, just in case), or fly the first air race for women with Amelia Earhart, or that she would disappear over the Florida Straits feared lost forever only to charm her way to a rescue. Nor could she have predicted that five years later she'd find herself at the centre of one of the most notorious and controversial murder trials in United States history. And this all began with something as ridiculously mundane as a pat of butter. The Fabulous Flying Mrs Miller is a spellbinding story of an extraordinary woman -- an international celebrity during the golden age of aviation -- and her passionate and spirited life.

Forgotten Aviator Barry S. Martin, 2011 OUT OR WAR-TORN SKIES, A LEGENDARY PILOT IS BORN Royal Leonard (1905-1962) flew in and out of aviation history - just on the edge of fame. His exploits mirror important developments in the Golden Age of American Aviation (1925-1941) and the Sino-Japanese War (1937-1945). If Royal's story were told in a novel, says long-time China pilot and author Felix Smith, nobody would believe it all could have happened to one man. Royal learned his craft at the West Point of the Air in San Antonio, Texas. As a Western Air Express night mail pilot, he pioneered blind flying along the treacherous Rocky Mountains. As a TWA pilot, he introduced celestial navigation. An early Airline Pilots Association (ALPA) officer, he fought for mail plane

safety at the cost of his job. He flew the Lockheed Orion in which Wiley Post and Will Rogers later crashed and attributed their fatal accident to a surprising cause. During the 1930s, a handful of elite pilots were racers. Jackie Cochran selected Royal as a copilot for the MacRobertson Race of the Century between England and Australia. Royal also competed in the Bendix Death Race in a Gee Bee Widow Maker. Before World War II, Royal worked for the Chinese warlord known as the Young Marshal who kidnapped Nationalist dictator Chiang Kai-shek and changed the course of Chinese history. Royal provided Communist political commissar Chou En-lai his first plane ride and later served as Chiang Kai-shek's personal pilot. During the war, Royal's roles were unique. Claire Chennault chose him to command the Flying Tigers Bomber Group. Royal briefed Colonel Jimmy Doolittle on Chinese landing fields for the Tokyo Raid. Royal, Chennault and Madame Chiang Kai-shek planned their own Tokyo bombing raid. Royal survived flying the Skyway to Hell over the Hump for China National Aviation Corporation. No wonder after a perilous flight war correspondent Martha Gellhorn described Royal as her hero. Author's Biography The author has spent twenty years uncovering a rich trove of private documentary sources about the Forgotten Aviator. Martin is a Phi Beta Kappa graduate of the College of William and Mary and has an M.A. in history from the University of Washington and a J.D. from the University of California - Berkeley. He is a retired Administrative Law Judge and resides in Sacramento, California with his wife, Carolyn.

Confessions of an Air Traffic Controller Danny Mortensen, 2019-01-30 An autobiography of a young impertinent FAA controller in the seventies culminating in the PATCO strike of 1981, and his subsequent adventures and exploits in aviation through the years. An entrepreneur, educator, author, radio talk show host, motivational speaker, master of ceremonies, aircraft builder, risk-taker and air race pilot, world record holder, corporate pilot, and airline instructor are just some of his unique accomplishments. With his involvement with Bill Phelps' Airline Ground Schools as an instructor and later as president, Dan lead a premier cadre of retired airline captains responsible for the worldwide training of more than 59,000 pilots and aircraft dispatchers. His innovations in aviation education and training materials are admired by many. Danny earned the moniker Mr. Lucky after walking away from a 200 mph crash at the National Championship Air Races in Reno, Nevada, in 1983. His miraculous survival is attributed to the structural integrity of his Burt Rutan-designed AMSOIL Racer and the stronger-than-steel composite materials used in its construction. In 1990, he won the Gold at Reno and retired from pylon air racing after fifteen years of competition. Two of his race planes now hang in museums. Now retired, Danny reflects on his challenges, accomplishments, and some funny stories along the way.

Antarctica's Lost Aviator Jeff Maynard, 2020-11 The astonishing voyage of the first solo crossing of Antarctica by the unlikelyst of arctic explorers. By the 1930s, no one had yet crossed Antarctica, and its vast interior remained a mystery frozen in time. Hoping to write his name in the history books, wealthy American Lincoln Ellsworth announced he would fly across the unexplored continent. And to honor his hero, Wyatt Earp, he would

carry his gun belt on the flight. The main obstacles to Ellsworth's ambition were numerous: he didn't like the cold, he avoided physical work, and he couldn't navigate. Consequently, he hired the experienced Australian explorer, Sir Hubert Wilkins, to organize the expedition on his behalf. While Ellsworth battled depression and struggled to conceal his homosexuality, Wilkins purchased a ship, hired a crew, and ordered a revolutionary new airplane constructed. The Ellsworth Trans-Antarctic Expeditions became epics of misadventure, as competitors plotted to beat Ellsworth, pilots refused to fly, crews mutinied, and the ship was repeatedly trapped in the ice. Finally, in 1935, Ellsworth took off to fly from the Weddell Sea to the Ross Sea. A few hours after leaving, radio contact with him was lost and the world gave him up for dead. *Antarctica's Lost Aviator* brings alive one of the strangest episodes in polar history, using previously unpublished diaries, correspondence, photographs, and film to reveal the amazing true story of the first crossing of Antarctica and how, against all odds, it was achieved by the unlikely of heroes.

The Rogue Aviator Ace Abbott, 2009-07 This improbable aviation adventure will take you on a thirty-six year journey from five-star hotels to back alleys and greasy cargo ramps. Join the author, Ace Abbott, on a roller coaster ride of an aviation career, as he transitions from hobnobbing with international icons, like Jimmy Buffett, to bartering in order to get some critical jet fuel. The author's primary source of motivation in writing his story is the desire to share a wonderful adventure with pilots of all backgrounds who have had similar careers and to inform aspiring pilots of the unique nuances of an aviation career. Twenty-five employers later, you will get to ride on Ace's final flight in a 727 while you gain insight into the potential catastrophe of a pilot's brief but potentially fatal inattention. This aviation exposé will introduce the reader to aspects of aviation never before seen from the previously unexplored dark side of commercial aviation. The secondary theme of this book is very relevant to the current front and center news topic of aviation safety. Included in *The Rogue Aviator* is an insider's look at commercial aviation and the FAA. With today's focus on aviation safety and the role of the FAA to insure our safety in the air, the author addresses his thoughts on these vital areas.

Naked Aviator James W. Opalka, 2005-12-01 *Naked Aviator* intermingles some very strange flying stories with the

harsh, tender, humorous, tragic and beautiful realities of living in an imperfect world. *Naked Aviator* is about life and where it takes you. The magic carpet that delivers the reader to all of the adventures just happens to be an aircraft, rather than an oriental rug. *Naked Aviator* elevates aviation in small aircraft to a higher level - a more meaningful place than flights to restaurants looking for the good and cheap burger. It speaks to what matters in our lives but does it without being preachy. Fun is the operative word. To those who read it, flying will become a passion, whether they become pilots or not. It makes you want to fly, as one reader explained. It makes you want to live more and fret less. It makes you want to read the chapter about The Dead Mans Shoes, Shotgun Sally and the Sawed off Nasty.

The Cloudbuster Aviator John H. Newland,2007 *The Cloudbuster Aviator* is the story of flying an Oregon farm-built airplane during the cool summer of 1912 in Washington State by its sixteen-year-old pilot, after legal actions by his guardian prevented its use in Oregon.

Air Affair II Bliss Knight,2021-12-04 Through a loving father who supported her dreams, Bliss Knight took on and succeeded in the many challenges of becoming an airline pilot in a man's world. Tempered to adventure by her experiences in the wilds of Alaska with her U.S. Army father, her eyes were soon directed to the sky as in retirement her father helped develop some of America's first satellites at Vandenburg Air Force Base with Lockheed. With his encouragement she learned to fly and then took the next step to her exciting career choice. However, it did not take long to realize that men dominated not only the positions but all of the decisions in her newfound vocation. *Air Affair II* documents those struggles and ultimate success despite the impediments of other pilots, supervisors and even lawyers who saw the world only through the blue-tinged vision of a male. In their oft short-sighted perceptions they created both purposeful and subconscious obstacles that only a woman could appreciate. However, if anything, Bliss' endurance shines as an example of not only courage but of the strength of dreams and desire that overcomes even defeat. Join her bumpy ride in the air and on the ground in her affair with the skies in *Air Affair II*. It will be an exciting and eye-opening journey, so buckle your seat-belt!
