David T. Courtwright

Man from the Sky Avi,1993-12-01

Sky As Frontier David T. Courtwright,2005 A look at how aviation's frontier lasted only a scant 3 decades, then vanished as commercial and military imperatives made flying routine.

Conquistadors of the Sky Dan Hagedorn,2008 Alberto Santos-Dumont was the first of many intrepid citizens of Latin America to make historic flights. Many other firsts were chalked up by Latin American aviators but were little noted by the international press at the time. In fact, aviation in Latin America progressed at a pace even more rapid than in other, more developed areas of the world. Since the 1960s, there have been many developments in commercial aviation, the manufacture of airplanes, and their use in Latin America. This history brings to light the many innovations and inventions in the region that have impacted global politics, commerce, and communication.--BOOK JACKET.
