The Stage Lives of Animals Una Chaudhuri,2016-10-04 **The Stage Lives of Animals** examines what it might mean to make theatre beyond the human. In this stunning collection of essays, Una Chaudhuri engages with the alternative modes of thinking, feeling, and making art offered by animals and animality, bringing insights from theatre practice and theory to animal studies as well as exploring what animal studies can bring to the study of theatre and performance. As our planet lives through what scientists call the sixth extinction, and we become ever more aware of our relationships to other species, Chaudhuri takes a highly original look at the animal imagination of well-known plays, performances and creative projects, including works by: Caryl Churchill Rachel Rosenthal Marina Zurkow Edward Albee Tennessee Williams Eugene Ionesco Covering over a decade of explorations, a wide range of writers, and many urgent topics, this volume demonstrates that an interspecies

imagination deeply structures modern western drama.

Persuasion in the Media Age Timothy Borchers, 2021-09-14 **Persuasion in the Media Age** addresses the impact of electronic media on the practice of persuasion and reviews constantly evolving digital strategies. Today's world demands a new perspective on persuasion—one that is grounded in the assumption that human consciousness and culture have been forever altered by communication technology. The fourth edition provides timely examples of persuasion in political campaigns, social movements, marketing, and interpersonal relationships—and the role of social media and media technologies in all of the contexts. From advertisers to politicians to influencers to friends, persuaders use increasingly sophisticated strategies to sway behavior. Borchers skillfully weaves theory, research, and engaging examples to help readers understand the practice of social influence—and to apply critical-thinking skills to the persuasion they encounter daily. The text takes an interdisciplinary approach to provide the latest thinking on persuasion while also drawing on a broad theoretical base for foundational concepts, such as attitudes, rhetoric, and human motivation.

Throughout, Borchers emphasizes audience, storytelling, visual images, and ethics. This comprehensive, insightful, and accessible overview of persuasive communication teaches readers how to be skilled creators of persuasive messages—as well as critical consumers.

Chirping Crickets Melvin Berger, 1998-04-18 Chirp! Chirp! Chirp! That's the sound crickets make. You've probably heard them chirp on a summer evening. But did you know that they make their chirping sounds by rubbing their wings together, and that only male crickets can chirp? Inside this book you'll learn about crickets, and even how to tell the temperature by counting a cricket's chirps. Melvin Berger and Megan Lloyd have created a wonderful introduction to a fascinating insect: the cricket. Chirrrp, chirrrp, chirrrp that's the sound of crickets on a summer evening. A male cricket makes this sound by rubbing his legs against a bumpy vein on his wing. Find out more about crickets, including how they hear with their knees, in this stunningly illustrated introduction to the cricket.

ADHD Nation Alan Schwarz,2017-09-05 More than 1 in 7 American children get diagnosed with ADHD - three times what experts have said is appropriate - meaning that millions of kids are misdiagnosed and taking medications such as Adderall or Concerta for a psychiatric condition they probably do not have. The numbers rise every year. And still, many experts and drug companies deny any cause for concern. In fact, they say that adults and the rest of the world should embrace ADHD and that its medications will transform their lives. -- Provided by publisher.

The Very Quiet Cricket Eric Carle,1993 A very quiet cricket who wants to rub his wings together and make a sound as do so many other animals finally achieves his wish. The cricket's sound is reproduced at the end of the book.

Going Organic Can Kill You Staci McLaughlin,2011-10-24 Marketing maven Dana Lewis returns home to discover that healthy living can be murder in the first Blossom Valley Mystery—"100% organic fun!" (Laura Levine). Welcome to Blossom Valley, California, home of the O'Connell Organic Farm and Spa, complete with its new marketing maven, Dana Lewis, former Blossom Valley resident,

unapologetic junk food connoisseur—and soon-to-be sleuth . . . As Dana readjusts to life back home with her recently widowed mother, her latest career move isn't exactly a piece of cake. In fact, it's all tofu fish sticks, stuffed squash blossoms, and enough wheat grass shots to scream bloody murder—especially when Dana discovers the body of Maxwell Mendelsohn, Hollywood producer and opening weekend guest, deader than a yoga corpse pose. While Dana pens the spa's blog and balances the attentions of the local police and reporter Jason Forrester, her escalating job duties now include finding clues, motives, and suspects. One thing's for certain, she better catch the killer before her free-range goose is cooked. “A sprightly mix of humor and homicide, featuring an engaging heroine and a fast-paced plot that zips along to an exciting climax.” —Laura Levine, author of *Pampered to Death*

The Squire Detectives Jacob Kimble, 2016-09-20 They are squires-in-training in their village, faithfully attending to their daily duties when alarming news of people mysteriously disappearing from nearby villages reaches their area. Joined by their friend Thomas, William and Peter are sent on a

mission across the forest to investigate these supposed disappearances. Halfway there, they stop to set up camp for the night, triggering the most terrifying experience of their lives! They flee blindly through the dark forest at night while relentlessly being pursued by an unseen terror. The next morning, William finds himself in the middle of the woods, separated from Peter and Thomas, and now everyone is plunged into danger. Unbelieving townsfolk pile on more danger as their suspicions run wild against the boys. Surviving isn't enough; now they must clear their names as well! What or who is truly responsible for the disappearances? What will Williams fate be? Will he survive? And will the squire's faith be enough to sustain them?

Expressing Silence Natsuko Tsujimura, 2022-03-03 This book demonstrates how silence is conceptualized and represented in Japanese language and culture. A cluster of sounds in nature and onomatopoeic vocabulary enable verbal portrayals of silence consistent with a cultural pattern of practices that value sensate and affective reactions.

The Nature of Technology Michael P. Clough, Joanne K. Olson, Dale S. Niederhauser, 2013-09-03

How does technology alter thinking and action without our awareness? How can instantaneous information access impede understanding and wisdom? How does technology alter conceptions of education, schooling, teaching and what learning entails? What are the implications of these and other technology issues for society? Meaningful technology education is far more than learning how to use technology. It entails an understanding of the nature of technology – what technology is, how and why technology is developed, how individuals and society direct, react to, and are sometimes unwittingly changed by technology. This book places these and other issues regarding the nature of technology in the context of learning, teaching and schooling. The nature of technology and its impact on education must become a significant object of inquiry among educators. Students must come to understand the nature of technology so that they can make informed decisions regarding how technology may influence thinking, values and action, and when and how technology should be used in their personal lives and in society. Prudent choices regarding technology cannot be made without understanding the issues that this book raises. This book is intended to raise such issues and stimulate thinking and

action among teachers, teacher educators, and education researchers. The contributions to this book raise historical and philosophical issues regarding the nature of technology and their implications for education; challenge teacher educators and teachers to promote understanding of the nature of technology; and provide practical considerations for teaching the nature of technology.

The Wasp That Brainwashed the Caterpillar Matt Simon, 2016-10-25 “A bizarre collection of evolution tales . . . the weirder, the better.” —Entertainment Weekly A fascinating exploration of the awe-inspiring, unsettling ingenuity of evolution from Wired writer Matt Simon, author of *Plight of the Living Dead* (coming soon from Penguin Books) On a barren seafloor, the pearlfish swims into the safety of a sea cucumber’s anus. To find a meal, the female bolas spider releases pheromones that mimic a female moth, luring male moths into her sticky lasso web. The *Glyptapanteles* wasp injects a caterpillar with her young, which feed on the victim, erupt out of it, then mind-control the poor (and somehow still living) schmuck into protecting them from predators. These are among the curious critters of *The Wasp That Brainwashed the Caterpillar*, a jaunt through evolution’s most unbelievable,

most ingenious solutions to the problems of everyday life, from trying to get laid to finding food. Join Wired science writer Matt Simon as he introduces you to the creatures that have it figured out, the ones that joust with their mustaches or choke sharks to death with snot, all in a wild struggle to survive and, of course, find true love. Winner of the American Library Association's Alex Award

Guardian of Her Heart Elizabeth Armstrong, 2020-12-04 The dynamic and impossibly gorgeous

Earl Gabriel Westfield has landed in a mess. Unexpectedly, he has become the guardian to the orphaned eighteen-year-old daughter of a business partner from America. Complicating matters is a secret clause in her father's will mandating she be married by age nineteen to secure her inheritance, as well as Gabriel's family shipping interests. When tragedy strikes yet again his precocious ward is forced to flee Boston and start a new life in London where she and her best friend prove less than cooperative in securing her a betrothal. Rosabelle Elizabeth Anderson is a tiny spitfire who possesses an unusual knack with animals and is comfortable with her endearingly eccentric behavior. Boston considered her their darling, but London's social strata within the ton are far less accepting. In midst of the husband hunting debacle she is mortified to discover a mutual attraction between she and her cantankerous guardian. The question is will the guardian succumb to temptation, or will secrets from their past tear them apart forever...

Dancing in the Storm Amie Darnell Specht, Shannon Hitchcock, 2024-02-06 In the tradition of *Out of My Mind* and *Rules*, and inspired by the co-author's own life, this is a heartfelt, candid, and

illuminating story of a girl learning to live fully with a rare genetic disorder. Kate's life in Baton Rouge, full of friends and family, gymnastics and Girl Scouts, is just plain great. But then, at the age of twelve, she suddenly develops a mysterious shoulder pain that won't go away . . . and that will change her life forever. It turns out that Kate has one of the rarest genetic disorders in the world, Fibrodysplasia Ossificans Progressiva. FOP causes bone to form in places in the body where it shouldn't, and there's no cure yet. Kate will need to learn how to live with this difficult new reality, helped by those close to her and by a new pen pal named Amie, who has been living with FOP for years. Drawing upon much of Amie Specht's own experiences with FOP, she and esteemed novelist Shannon Hitchcock have created a poignant, eye-opening, and uplifting story of finding courage and joy in the face of adversity.

Missional Moves Rob Wegner, Jack Magruder, 2012-09-25 The church was never designed to be a

fortress for the righteous, but a flood of revolutionaries, bringing the Good News of the Kingdom to broken lives and broken communities. Today, millions of Christians are awakening to the holism of the gospel call, expanding their understanding of mission beyond just touching individual lives to impacting and transforming entire communities with the message of God's grace. If this calling toward movement and transformation is to be realized, it will require some earth-shaking shifts—"Missional Moves"—that fundamentally alter our understanding of the church and how its mission is lived out. This book provides a plan of action for your church that will empower you to unleash each member on a mission, both locally and globally.
