Scott, New York Times Book Review, cover review Following on the heels of his New York Times bestselling novel Telegraph Avenue, Pulitzer Prize-winning author Michael Chabon delivers another literary masterpiece: a novel of truth and lies, family legends, and existential adventure—and the forces that work to destroy us. In 1989, fresh from the publication of his first novel, The Mysteries of Pittsburgh, Michael Chabon traveled to his mother's home in Oakland, California, to visit his terminally ill grandfather. Tongue loosened by powerful painkillers, memory stirred by the imminence of death, Chabon's grandfather shared recollections and told stories the younger man had never heard before, uncovering bits and pieces of a history long buried and forgotten. That dreamlike week of revelations forms the basis for the novel Moonglow, the latest feat of legerdemain from Pulitzer Prize-winning author Michael Chabon. Moonglow unfolds as the deathbed confession of a man the narrator refers to only as "my grandfather." It is a tale of madness, of war and adventure, of sex and marriage and desire, of existential doubt and model rocketry, of the shining aspirations and demonic underpinnings of American technological accomplishment at midcentury, and, above all, of the destructive impact—and the creative power—of keeping secrets and telling lies. It is a portrait of the difficult but passionate love between the narrator's grandfather and his grandmother, an enigmatic woman broken by her experience growing up in war-torn France. It is also a tour de force of speculative autobiography in which Chabon devises and reveals a secret history of his own imagination. From the Jewish slums of prewar South Philadelphia to the invasion of Germany, from a Florida retirement village to the penal utopia of New York's Wallkill prison, from the heyday of the space

program to the twilight of the "American Century," the novel revisits an entire era through a single life and collapses a lifetime into a single week. A lie that tells the truth, a work of fictional nonfiction, an autobiography wrapped in a novel disguised as a memoir, *Moonglow* is Chabon at his most moving and inventive.

Moby-Duck Donovan Hohn, 2011-03-03 Selected by The New York Times Book Review as a Notable Book of the Year A revelatory tale of science, adventure, and modern myth. When the writer Donovan Hohn heard of the mysterious loss of thousands of bath toys at sea, he figured he would interview a few oceanographers, talk to a few beachcombers, and read up on Arctic science and geography. But questions can be like ocean currents: wade in too far, and they carry you away. Hohn's accidental odyssey pulls him into the secretive world of shipping conglomerates, the daring work of Arctic researchers, the lunatic risks of maverick sailors, and the shadowy world of Chinese toy factories. *Moby-Duck* is a journey into the heart of the sea and an adventure through science, myth, the global economy, and some of the worst weather imaginable. With each new discovery, Hohn learns of another loose thread, and with each successive chase, he comes closer to understanding where his castaway quarry comes from and where it goes. In the grand tradition of Tony Horwitz and David Quammen, *Moby-Duck* is a compulsively readable narrative of whimsy and curiosity.

Oak Hollow Kristopher Rufty, 2017-02-01 The town of Oak Hollow is very eager to welcome Tracey...and her baby. Soon after seventeen-year-old Tracey Parks found out she was pregnant, she was sent off to live with her grandmother in Oak Hollow. It was a painful transition, but she learned to love the quaint town and the people who live there. But now, as the birth of her son approaches, the once-friendly town seems much more ominous. Could it be that the residents of Oak Hollow have been waiting for her—and her unborn baby—all

along? And what role will her baby play in this macabre nightmare?

Mad House Clea Simon,1997 When the Boston Globe first published Clea Simon's cover story on growing up with her two schizophrenic siblings, the response was overwhelming. Healthy siblings constitute that silent majority of people who have grown up in dysfunctional families and, largely due to their age have often stood on the sidelines as the tragic consequences of a mental disorder claimed either the health or life of a brother or sister. For Clea Simon, the experience was shattering as first her beloved, older brother Daniel, the brilliant Harvard freshman started hearing voices and dropping out of school when his schizophrenia made functioning impossible. And then again as the same illness claimed her sister Althea, who has bounced around from one state institution to another after her parents eventually gave up on helping the daughter who refused their help. The issues well siblings face run the gamut from guilt (why do I deserve to be OK?), fear (what are the chances that I have this disease, or that my children may inherit it?), to the burden of caring for a sibling (am I my brother's keeper?), and overcompensating in the family, or its converse, acting destructively to get attention. In talking to hundreds of other siblings and experts in the field, Simon has written a comprehensive book that combines the best of memoir writing with the kind of practical advice that should ease the pain of any brother or sister who has felt helpless in the face of a sibling's mental illness.

It's a Mum's Life Sophie King,2024-03-19 Behind every child is a parent who's had enough... Caroline is good at pretending everything's okay in front of her kids. But secretly she longs to kick her cheating husband to the kerb. Susan loves her daughter with her whole heart. But she bears this constant mum-guilt of wanting a life of her own outside of caring for her disabled daughter all day, every day. As mum and dad to his two children, Mark would do anything to protect them - even if it includes lying about where mummy has really gone. It's always been Lisa's lifelong dream to be a mother. Now pregnant, she fears she'll never be good enough for her unborn child. When wine can't cut it, these four people desperately turn to an online parenting forum to seek advice and escape. Little do they know that their lives will become intertwined in the most unexpected of ways and that help is much closer than they think...

I Fear My Pain Interests You Stephanie Lacava,2022-09-27 A punky, raw novel of millennial disaffection, trauma and 1960s cinema Margot is the child of renowned musicians and the product of a particularly punky upbringing. Burnt-out from the burden of expectation and the bad end of the worst relationship yet, she leaves New York and heads to to the Pacific Northwest. She's seeking to escape both the eyes of the world and the echoing voice of that last bad man. But a chance encounter with a dubious doctor in a graveyard, and the discovery of a dozen old film reels, opens the door to a study of both the peculiarities of her body and the absurdities of her famous family. A literary take on cinema du corps, Stephanie LaCava's new novel is an audaciously sexy and moving exploration of culture and connections, bodies

and breakdowns.

MATLAB® Essentials William Bober, 2017-09-11 All disciplines of science and engineering use numerical methods for complex problem analysis, due to the highly mathematical nature of the field. Analytical methods alone are unable to solve many complex problems engineering students and professionals confront. Introduction to MATLAB® Programming for Engineers and Scientists examines the basic elements of code writing, and describes MATLAB® methods for solving common engineering problems and applications across the range of engineering disciplines. The text uses a class-tested learning approach and accessible two-color page design to guide students from basic programming to the skills needed for future coursework and engineering practice.
