**P** **POCKET Book of Hospital Care for Children** World Health Organization, 2013 The Pocket Book is for use by doctors nurses and other health workers who are responsible for the care of young children at the first level referral hospitals. This second edition is based on evidence from several WHO updated and published clinical guidelines. It is for use in both inpatient and outpatient care in small hospitals with basic laboratory facilities and essential medicines. In some settings these guidelines can be used in any facilities where sick children are admitted for inpatient care. The Pocket Book is one of a series of documents and tools that support the integrated managem.

**P** **HANDBOOK IMCI** World Health Organization. Department of Child and Adolescent Health and Development, 2005 This handbook gives a detailed explanation of the WHO/UNICEF guidelines for the integrated management of childhood illness (IMCI). The guidelines set out simple and effective methods for the prevention and management of the leading causes of serious illness and mortality in young children. They promote evidence-based assessment and treatment using a syndromic approach that supports the rational, effective and affordable use of drugs. The handbook gives an overview of the IMCI process and includes technical guidelines to assess and classify a sick young infant aged from one week up to two months, and a sick young child aged two months to five years; as well as guidance on how to identify treatment; communicate and counsel; and give follow-up care.

**P** **NELSON Pediatric Symptom-Based Diagnosis** Robert M. Kliegman, Heather Toth, Brett J. Bordini, Donald Basel, 2022-01-10 Patients don't present with a disease; they present with symptoms. Using a practical, symptom-based organization, Nelson Pediatric Symptom-Based Diagnosis: Common Diseases and Their Mimics, 2nd Edition, offers authoritative guidance on differential diagnosis and treatment of diseases and disorders in children and adolescents, and covers the symptoms you're likely to see in practice, their mimics, and uncommon disorders. Drs. Robert M. Kliegman, Heather Toth, Brett J. Bordini, and Donald Basel walk you through what to consider and how to proceed when faced with common symptoms such as cough, fever, headache, autistic-like behaviors, chronic pain, chest pain, gait disturbances, and much more. Begins with a presenting symptom and leads you through differential diagnosis and a concise review of treatment recommendations. Contains more than a dozen new topics including Disease Mimics: An Approach to Undiagnosed Diseases, Autistic-like Behaviors, Shock, Hypertension, Neurocognitive and Developmental Regression, Chronic Pain, Hypertonicity, Movement Disorders, Hypermobility, and more. Features a new focus on symptoms of rarer diseases that are mimics of more common diseases. Offers a user-friendly approach to Altered Mental Status such as coma and other CNS disorders, with numerous clinically useful tables and figures to guide clinical decision making in various care settings. Uses a highly templated format for easy reference and quick answers to clinical questions, with the same consistent presentation in each chapter: History, Physical Examination, Diagnosis (including laboratory tests), Imaging, Diagnosis, and Treatment. Includes numerous full-color illustrations, algorithms, tables, and red flags to aid differential diagnosis. Serves as an ideal companion to Nelson Textbook of Pediatrics, 21st Edition. Content in this book is referenced and linked electronically to the larger text, providing easy access to full background and evidence-based treatment and management content when you own both references.

**P** **Disease Control Priorities, Third Edition (Volume 2)** Robert Black, Ramanan Laxminarayan, Marleen Temmerman, Neff Walker, 2016-04-11 The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

**BABY FEVER BRIDE** Nicole Snow, 2017-01-22 I DON'T HAVE TIME FOR LOVE. I NEED A BABY NOW... PENNY My biological clock just exploded. Eighteen months. That's how long I have to make a baby happen before it becomes one more broken dream. Fate has a sick sense of humor, though. Its name is Hayden Shaw. Yes, the Hayden Shaw. Billionaire developer, scandalously gorgeous, his hard-headed ego only eclipsed by his enormous...reputation. The man who has everything except one missing piece. He needs a bride to fool the world. I need a baby. Hello, first class donor material. It's simple business. Strictly professional. A no nonsense, pretend-my-panties-aren't-melting trade. Love isn't in the fine print. No, I don't care how many times I have to stop swooning when I'm in his arms, locked in his kiss, smiling like we're meant to be for the cameras. Simple, I said, remember? Yeah. Who the hell am I kidding? Hayden My new wife is completely insane. The spitfire who just agreed to play pretend thinks we're doing this baby thing in a lab, without ending up between the sheets. Too bad I see right through it whenever she says her favorite line. Strictly professional? Please. Too bad I taste how bad she wants it when we're giving the press something to talk about, lips tangled together like there's no tomorrow. Too damned bad she's perfection itself, and 'professional' went out the window the second she stormed into my life. She's also my last chance at stopping a scheme to steal the family fortune, turning my riches to rags. But I'm Hayden Shaw. I'm in control. I don't back down. Ms. Naughty and Nice will never, ever know how bad I'm twisted up in our chase. This isn't Cinderella, and I'm no Prince. Soon, I'll show Penny this isn't all make believe. Consummating this marriage is about to get very real...
