Think Like a Baby Amber Ankowski, Andy Ankowski, 2015-04-01 Raising a baby is joyful, amazing . . . and ridiculously difficult. But with some insight into what's actually going on inside your little one's head, your job as a parent can become a little bit easier—and a lot more fun. In *Think Like a Baby*, coauthors Amber and Andy Ankowski—The Doctor and the Dad—show parents how to re-create classic child development experiments using common household items. These simple step-by-step experiments apply from the third trimester through age seven and beyond and help parents understand their children's physical, cognitive, language, and social development. Amazed parents won't just read about how their kids are behaving, changing, and thinking at various stages, they'll actually see it for themselves while interacting and having fun with them at the same time. Each experiment is followed by a discussion of its practical implications for parents, such as why to always bring more than one toy to a restaurant, which baby gadgets to buy (and which ones to avoid), how to get kids to be perfectly happy eating just half of their dessert, and much more.

Seeing Like a Child Clara Han, 2020-12-01 An utterly original and illuminating work that meets at the crossroads of autobiography and ethnography to re-examine violence and memory through the eyes of a child. Seeing Like a Child is a deeply moving narrative that showcases an unexpected voice from an established researcher. Through an unwavering commitment to a child's perspective, Clara Han explores how the catastrophic event of the Korean War is dispersed into domestic life. Han writes from inside her childhood memories as the daughter of parents who were displaced by war, who fled from the North to the South of Korea, and whose displacement in Korea and subsequent migration to the United States implicated the fraying and suppression of kinship relations and the Korean language. At the same time, Han writes as an anthropologist whose fieldwork has taken her to the devastated worlds of her parents—to Korea and to the Korean language—allowing her, as she explains, to find and found kinship relationships that had been suppressed or broken in war and illness. A fascinating counterpoint to the project of testimony that seeks to transmit a narrative of the

event to future generations, *Seeing Like a Child* sees the inheritance of familial memories of violence as embedded in how the child inhabits her everyday life. *Seeing Like a Child* offers readers a unique experience—an intimate engagement with the emotional reality of migration and the inheritance of mass displacement and death—inviting us to explore categories such as “catastrophe,” “war,” “violence,” and “kinship” in a brand-new light.

Songs of My Families Kelly Fern, Brad Fern, 2012 In 1971, Lee Myonghi, aged five, was taken from her family and placed in a Korean orphanage. Six months later, she was flown to the United States, where she and two other Korean girls were adopted by a Minnesota couple. They renamed her Kelly Jean. Eleven years later, Kelly found herself at the doorstep of a Minnesota agency, although this time as a teen mother giving her own child up for adoption. Kelly later married and had two more children. Then, in 2007, Kelly’s husband found her original, Korean family, and so began a journey that reunited Kelly with the family whom she thought had abandoned her, and brought her face to face with the daughter she herself had lost twenty-five years before. Told with refreshing honesty, *Songs of My Families* is a moving story of two generations of women forced to make agonizing choices as they coped with harsh economic realities and personal crises. It is also an affirmation of the strength of family, the importance of one’s cultural heritage, and the enduring power of love.

Korea: The Impossible Country Daniel Tudor, 2012-11-10 Daniel Tudor covers all the important issues, yet does not simply tell the more familiar stories, but looks deeper and wider to give the full story of Korea today. —Martin Uden, Former British Ambassador to South Korea In just fifty years, South Korea has transformed itself from a failed state, ruined and partitioned by war and decades of colonial rule, into an economic powerhouse and a democracy that serves as a model for other countries. How was it able to achieve this with no natural resources and a tradition of authoritarian rule? Who are the Koreans and how did they accomplish this second Asian miracle? Through a comprehensive exploration of Korean history, culture and society, and interviews with dozens of experts, celebrated journalist Daniel Tudor seeks answers to these and many other fascinating questions. In *Korea: The Impossible Country*, Tudor touches on topics as diverse as shamanism, clanism, the dilemma posed by North Korea, and the growing international appeal of South Korean pop

culture. This new edition has been updated with additional materials on recent events, including the impeachment of Park Geun-hye and the sinking of the Sewol Ferry. Although South Korea has long been overshadowed by Japan and China, *Korea: The Impossible Country* illuminates how this small country is one of the great success stories of the postwar period.

Korean as a Heritage Language from Transnational and Translanguaging Perspectives Hyesun Cho, Kwangok Song, 2022-12-14 This collection critically reflects on the state-of-the-art research on Korean-as-a-heritage-language (KHL) teaching and learning, centering KHL as an object of empirical inquiry by offering multiple perspectives on its practices and directions for further research. The volume expands prevailing notions of transnationalism and translanguaging by providing insights into the ways contemporary Korean immigrant and transnational families and individuals maintain their heritage language to participate in literary practices across borders. Experts from across the globe explore heritage language and literacy practices in Korean immigrant communities in varied geographic and educational contexts. In showcasing a myriad of perspectives across KHL research, the collection addresses such key questions as how heritage language learners' literacy practices impact their identities, how their families support KHL development at home, and what challenges and opportunities stakeholders need to consider in KHL education and in turn, heritage language education, more broadly. This book will be of interest to families, teachers, scholars, and language program administrators in Korean language education, heritage language education, applied linguistics, and bilingual education.

Figuring Korean Futures Dafna Zur, 2017-10-03 This book is the story of the emergence and development of writing for children in modern Korea. Starting in the 1920s, a narrator-adult voice began to speak directly to a child-reader. This child audience was perceived as unique because of a new concept: the child-heart, the perception that the child's body and mind were transparent and knowable, and that they rested on the threshold of culture. This privileged location enabled writers and illustrators, educators and psychologists, intellectual elite and laypersons to envision the child as a powerful antidote to the present and as an uplifting metaphor of colonial Korea's future. Reading children's periodicals against the political, educational, and psychological discourses of their time, Dafna Zur argues that the figure of the child was particularly favorable to the project of modernity and nation-building, as well as to the colonial and postcolonial projects of socialization and nationalization. She demonstrates the ways in which Korean children's literature builds on a trajectory that begins with the child as an organic part of nature, and ends, in the post-colonial era, with the child as the primary agent of control of nature. *Figuring Korean Futures* reveals the complex ways in which the figure of the child became a driving force of nostalgia that stood in for future aspirations for the individual, family, class, and nation.

Remembering (Korea: 1950-1953) Dennis J Ottley, 2015-12-22 *Remembering (Korea: 1950-1953)* By Dennis J. Ottley *Remembering (Korea: 1950-1953)* is the author's memoir. This book describes his involvement in Korea during the Korean War and points out the reasoning behind the conflict. Over the years, the Korean War has been considered "The Forgotten War" by many. At one time, President Harry S. Truman referred to it as a "Police Action," but 5,720,000 Americans who served in Korea have never forgotten what it was about and that it was much more than just a "Police Action." They understand that it was an all-out war, and one of the bloodiest in American history. It involved over 20 countries of the United Nations that joined with the United States to save the South Koreans from annihilation and the tyranny of the communist countries, such as Russia and North Korea. On July 27, 1953, an armistice was signed and today South Korea remains as a free nation and one of the strongest and wealthiest countries in Asia. This book is to help Americans understand what the war was all about and describe one soldier's experience and opinion of the conflict.
