**From Your Baby Bump To Your Baby's First Birthday** Harley Carr, 2020-03-15 Why 80% of Expecting Parents Worry About The Wrong Things And What You Really Need to Know Am I going to be a good mom Is my child going to be healthy? I don't feel any kicks after going to the gym. Did I hurt my baby? It doesn't matter where you are or what you do, your thoughts constantly turn around this little wonder inside your bump. As beautiful as pregnancy can be, it's also a scary transition period in life where big mental and physical changes start to happen. Unfortunately, many women don't dare to talk about the stress they are experiencing. They let the feeling of insecurity creep up on them and ruin one of the most special experiences in a woman's life. Yet, it's not uncommon to feel this way. Nearly 75% of women reported they had experienced at least one stressful event during their pregnancy. These women have an up to 60% higher risk of preterm delivery. And then, there is the big day. You'll finally meet your baby, but again you are confronted with a million questions such as: Who can be with me during labor? When do I need to push? What if my baby is in the wrong position? And the list keeps going. You hoped your worries would ebb away once your little one is born, but your struggles continue. A study by the National Sleep Foundation found that 76% of parents have frequent sleep problems. No wonder. Your head is full of worries and open questions about your baby's health and development. Beating all this stress is easier than you think. All you need is some expert knowledge and the right guidance to enjoy your pregnancy and your baby's first year to the fullest. This is only a select sample of what you'll discover in From Your Baby Bump To Your Baby's First Birthday A month by month guide to a worry-free pregnancy The complete pregnancy checklist that ticks all boxes on the infinite list of things-to-be-done Avocado, pomegranate or watermelon? **The Bump Class** Marina Fogle, Dr Chiara Hunt, 2016-02-04 This is one of the best books I have read on the subject The Sun Fresh, witty and reassuringly down-to-earth You Magazine Fed up with advice that did not take into account a less than perfect pregnancy, Dr Chiara Hunt and Marina Fogle set up their pregnancy course, The Bump Class, in London in 2013. They wanted to help prepare new mothers thoroughly for the birth of their babies and instil in them the joy and happiness of birth, no matter what the method, time or setting of the labour. This book is a pragmatic and honest look at pregnancy, giving pregnant women and new mothers sensible and practical advice on what is to be expected (as well as the often unexpected!) in a friendly and open manner. Chiara and Marina believe that there is no such thing as a “normal” pregnancy or birth – every woman is different and that should be celebrated, not ignored. The Bump Class is filled with charming illustrations, impartial advice, style tips and hilarious anecdotes from both of the authors, as well as personal stories from the women who have been welcomed onto their course. This book will provide every pregnant woman with the support and reassurance that is so essential at the most crucial time in any woman's life.

*Baby Bumps* Nicole Polizzi, 2013-12-31 The greatest thing Nicole Polizzi, aka “Snooki,” ever did was by accident. But her son, Lorenzo, was never a mistake. When she and her boyfriend, Jionni, found out she was knocked up, they weren't married or engaged. She was only twenty-four and living with her parents—and she had zero baby experience. With a reckless, party girl TV persona to deal with, she had a lot to learn and discover in becoming a mother. In this funny and frank book, Nicole shares her experiences, everything from the first sonogram to the nipple-cracking shock of breastfeeding. In each chapter, she tells the unvarnished truth about pregnancy symptoms (“The High Price of Gas”), the ridiculousness of her baby registry (“Butt Paste and Boogie Wipes”) and the lowdown on postpartum life (“Shit Happens”). There's a ton of useful information, including a list of must-have baby products, MILF style tips, how to keep “I'm a whale” preppers bad body image in check, and how she got into the best shape of her life within six months of giving birth. Although Nicole had to give up partying, she's embracing motherhood the only way she knows how: with a fun-loving attitude—and lots of leopard print!
