Ballet Backflip Meredith Costain,2016 First published in 2015 in Australia Pty Limited.

The Heavenly Backflip J.C. Amberchele,2012-09-01 J.C. Amberchele is a remarkably eloquent writer; the sixty-one succinct chapters of *The Heavenly Backflip* draw on conversations with fellow inmates and Buddhist group members and cover topics such as the nature of enlightenment, the Headless Way, the direct and the progressive path and the various concepts of Buddhism. Interspersed with these are taut chapters of prose informed by his own first-hand experience of Awakening. This is the Perennial Philosophy brought fully to life within the confines of a prison environment. This third book by Amberchele is made up of short chapters of alternating prose and dialogues with fellow prison inmates. A voracious reader and long-time Buddhist practitioner, his search found its conclusion in *The Headless Way* approach devised by Douglas Harding. As well as being an exposition of the Perennial Philosophy, Amberchele answers, via the dialogues, questions which come up along the path leading the reader towards a very practical seeing of one's Original Face. Altogether, a concise, profound and exuberant text on the nature of identity.

Witches Don't Do Backflips (The Bailey School Kids #10) Debbie Dadey,Marcia Thornton Jones,2022-01-04 The hugely popular early chapter book series re-emerges -- now in e-book! The new gymnastics teacher likes cats, brooms, and funny rhymes, that sounds awfully close to spells. Could Miss Brewbaker really be a witch?

Backflip Laura Castaglini,2013 Featuring work by Australian and international artists,BACKFLIP: Feminism and Humour in Contemporary Art seeks to challenge the ongoing stereotype of feminism as dry, dull and humourless. The exhibition affirms laughter as an important and potent tool for feminist artists across generations, geographies and political contexts. Humour has a unique ability to simultaneously disrupt and entertain, and lends itself readily to one of the overarching goals that unites the many feminisms; namely, to critique and destabilize patriarchy. Following on from last year's lecture by the Guerrilla Girls, BACKFLIP will present a range of strategies and approaches from slapstick to satire, detouring through irony and black humour.

Long Black Veil Jennifer Finney Boylan,2017-04-11 Publishers Weekly's Best Books of 2017 For fans of Donna Tartt and Megan Abbott, a novel about a woman whose family and identity are threatened by the secrets of her past, from the New York Times bestselling author of *She's Not There* On a warm August night in 1980, six college students sneak into the dilapidated ruins of Philadelphia's Eastern State Penitentiary, looking for a thrill. With a pianist, a painter and a teacher among them, the friends are full of potential. But it's not long before they realize they are locked in—and not alone. When the friends get lost and separated, the terrifying night ends in tragedy, and the unexpected, far-reaching consequences reverberate through the survivors' lives. As they go their separate ways, trying to move on, it becomes clear that their dark night in the prison has changed them all. Decades later, new evidence is found, and the dogged detective investigating the cold case charges one of them—celebrity chef Jon Casey— with murder. Only Casey's old friend Judith Carrigan can testify to his innocence. But Judith is protecting long-held secrets of her own – secrets that, if brought to light, could destroy her career as a travel writer and tear her away from her fireman husband and teenage son. If she chooses to help Casey, she risks losing the life she has fought to build and the woman she has struggled to become. In any life that contains a “before” and an “after,” how is it possible to live one life, not two? Weaving deftly between 1980 and the present day, and told in an unforgettable voice,

Long Black Veil is an intensely atmospheric thriller that explores the meaning of identity, loyalty, and love. Readers will hail this as Boylan's triumphant return to fiction.

BackFlip Devlin Daley,2010 As traditional interactions in the real-word move online, services that require verified personal information from web users will increase. We propose an architecture for the verification of web user attributes without the use of cryptographic-based credentials. In this architecture, service providers are delegated a user's ability to directly contact a certifying party and retrieve attribute data. We demonstrate that this approach is simple for both developers and users, can be applied to existing Internet facilities and sufficiently secure for typical web use cases.
