The Bomber Command War Diaries Martin Middlebrook,Chris Everitt,2014-04-02 The essential WWII historical reference detailing RAF Bomber Command's extensive campaign of strategic bombings across occupied Europe. The Royal Air Force Bomber Command's strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe. It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids. Aviation historian Martin Middlebrook and his research colleague, Chris Everitt, were the first to compile a complete review of all the raids and their background stories. The Bomber Command War Diaries not only documents every Bomber Command operation but also details their effects on the ground, drawing on local archives from Germany, Italy, and the occupied countries. It is a groundbreaking work on historical research, bringing together the two sides of Bomber Command's war. This edition includes retrospective observations and a new appendix.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

National Monuments and Nationalism in 19th Century Germany Hans A. Pohlsander,2008 No century in modern European history has built monuments with more enthusiasm than the 19th. Of the hundreds of monuments erected, those which sprang from a nation-wide initiative and addressed themselves to a nation, rather than part of a nation, we may call national monuments. Nelson's Column in London or the Arc de Triomphe in Paris are obvious examples. In Germany the 19th century witnessed a veritable flood of monuments, many of which rank as national monuments. These reflected and contributed to a developing sense of national identity and the search for national unity; they also document an unsuccessful effort to create a «genuinely German» style. They constitute a historical record, quite apart from aesthetic appeal or ideological message. As this historical record is examined, German national monuments of the 19th century are described and interpreted against the background of the nationalism which gave birth to them.

Tallulah! Joel Lobenthal,2009-10-13 Outrageous, outspoken, and uninhibited, Tallulah Bankhead was an actress known as much for her vices --

cocaine, alcohol, hysterical tirades, and scandalous affairs with both men and women -- as she was for her winning performances on stage. In 1917, a fifteen-year-old Bankhead boldly left her established Alabama political family and fled to New York City to sate her relentless need for attention and become a star. Five years later, she crossed the Atlantic, immediately taking her place as a fixture in British society and the most popular actress in London's West End. By the time she returned to America in the 1930s, she was infamous for throwing marathon parties, bedding her favorite costars, and neglecting to keep her escapades a secret from the press. At times, her notoriety distracted her audience from her formidable talent and achievements on stage and dampened the critical re-sponse to her work. As Bankhead herself put it, they like me to 'Tallulah,' you know -- dance and sing and romp and fluff my hair and play reckless parts. Still, her reputation as a wild, witty, over-the-top leading lady persisted until the end of her life at the age of sixty-six. From her friendships with such entertainment luminaries as Tennessee Williams, Estelle Winwood, Billie Holiday, Noël Coward, and Marlene Dietrich, to the intimate details of her family relationships and her string of doomed romances, Joel Lobenthal has captured the private essence of the most public star during theater's golden age. Larger-than-life as she was, friends saw through Bankhead's veneer of humor and high times to the heart of a woman who often felt second-best in her father's eyes, who longed for the children she was unable to bear, and who forced herself into the spotlight to hide her deep-seated insecurities. Drawn from scores of exclusive interviews, as well as previously untapped information from Scotland Yard and the FBI, this is the essential biography of Tallulah Bankhead. Having spent twenty-five years researching Bankhead's life, Joel Lobenthal tells her unadulterated story, as told to him by her closest friends, enemies, lovers, and employees. Several have broken decadelong silences; many have given Lobenthal their final interviews. The result is the story of a woman more complex, more shocking, and yet more nuanced than her notorious legend suggests.
