The Scientification of China Zhaohao Sun, Paul P. Wang, 2021-10-19 This book provides a novel, strategic solution to where China will go in the coming decades, utilising the common interest shared by Chinese people and people from other countries to realize the common dream of all of mankind. It investigates the scientification of China, Chinese words, the Chinese language, and Chinese culture based on 10 scientific paradigms. Scientific Chinese words, scientific Chinese language and scientific Chinese culture form what is termed here as ‘the scientific Chinese trinity’, which will create a scientific China in the near future and facilitate the scientification of Chinese society and the development of the digital economy. The book will serve to convey to students, scholars, professionals, managers and practitioners the status of the evolution of Chinese culture and civilization.

New Media and China's Social Development Yungeng Xie, 2017-10-03 Starting from a history of new media, this book presents the development of network technology and media applications in China, while also examining the relationship between new media and politics, economy, culture, lifestyle, traditional media, law, knowledge, etc. As of 2014, China had been connected to the Internet for 20 years. During those two decades, China has witnessed drastic changes, from its national makeup to people’s daily lives. The book analyzes the changes in China brought about by the new media on the basis of large-scale data. Further, through comparisons with international trends in new media development, it seeks to clarify the new media development in China and comprehensively demonstrate the revolution and brand-new faces of Chinese society over the past two decades in the wake of new media. As such, it outlines the bright

future of new media by revisiting and summarizing the developmental courses of new media and Chinese society.

Advances in Usability, User Experience and Assistive Technology Tareq Z. Ahram, Christianne Falcão, 2018-06-27 This book focuses on emerging issues in usability, interface design, human–computer interaction, user experience and assistive technology. It highlights research aimed at understanding human interaction with products, services and systems, and focuses on finding effective approaches for improving user experience. It also discusses key issues in designing and providing assistive devices and services to individuals with disabilities or impairment, to assist mobility, communication, positioning, environmental control and daily living. The book covers modelling as well as innovative design concepts, with a special emphasis on user-centered design, and design for specific populations, particularly the elderly. Virtual reality, digital environments, heuristic evaluation and forms of device interface feedback of (e.g. visual and haptic) are also among the topics covered. Based on the AHFE 2018 Conference on Usability & User Experience and the AHFE 2018 Conference on Human Factors and Assistive Technology, held on July 21–25, 2018, in Orlando, Florida, USA, this book reports on cutting-edge findings, research methods and user-centred evaluation approaches.

CEO, Please Behave Yourself Yu BaiBai,2020-06-04 He had accidentally provoked the President of the Li family, the King of Commerce. The second time we met, she was extremely arrogant and domineering. Be my mistress. No more blind dates. Not one glance at the other men. A mistress? I'm sorry, but I only hope that one person will never part with another. Five years later. The man said in grievance, Wife, tell me, who are all the movie emperors in that childhood? Anya rubbed her sore waist. Who can tell her why the cold and aloof CEO Li is such a person?
