From Kites to Cold War Tyler W Morton, 2019-10-15 From Kites to Cold War tells the story of the evolution of manned airborne reconnaissance. Long a desire of military commanders, the ability to see the terrain ahead and gain foreknowledge of enemy intent was realized when Chinese airmen mounted kites to surveil their surroundings. Kite technology was slow to spread, and by the late nineteenth century European nations had developed the balloon and airship to conduct this mission. By 1918, it was obvious that the airplane had become the reconnaissance platform of the future. Used successfully by many nations during the Great War, aircraft technology and capability experienced its most rapid evolutionary period during World War II. Entering the war with just basic airborne imagery capabilities, by V-E and V-J days, air power pioneers greatly improved imagery collection and developed sophisticated airborne signals intelligence collection capabilities. The United States and other nations put these capabilities to use as the Cold War immediately followed. Flying near the periphery of and sometimes directly over the Soviet Union, airborne reconnaissance provided the intelligence necessary to stay one step ahead of the Soviets throughout the Cold War.

Romantik Robert W. Rix, Lis Møller, Karina Lykke Grand, Anna Sandberg, Cian Duffy, Elisabeth Oxfeldt, Thor Mednick, Ilona Pikkanen, 2018-12-03 "Romantik. Journal for the Study of Romanticisms" is a multidisciplinary journal dedicated to the study of romantic-era cultural productions and concepts. The journal promotes innovative research across disciplinary borders. It aims to advance new historical discoveries, forward-looking theoretical insights and cutting-edge methodological approaches. The articles range over the full variety of cultural practices, including the written word, visual arts, history, philosophy, religion, and theatre during the romantic period (c. 1780-1840). But contributions to the discussion of pre- or post-romantic representations are also welcome. Since the romantic era was characterized by an emphasis on the vernacular, the title of journal has been chosen to reflect the Germanic root of the word. But the journal is interested in all European romanticisms - and not least the connections and disconnections between them - hence, the use of the plural in the subtitle. Romantik is a peer-reviewed journal supported by the Nordic Board for Periodicals in the Humanities and Social Sciences (NOP-HS).

Romantics and the Era of Early Flight John Gilroy, 2022-12-08 This book explores the significance of flight to Romantic literature. Although the Romantic movement and the age of ballooning coincided, there has been a curious and long-time tendency to forget that flight was not impossible during this period. This study details the importance of this new technology to Romantic authors, primarily English Romantic poets. It combines accounts of the exploits and experiences of early balloonists with references to Romantic texts, using ballooning lore to illuminate a range of Romantic writings. The balloonists are seen as not just supplying these writers with a new code of metaphors, but as colleagues engaged in similarly imaginative enterprises. The book uncovers an 'aerial

imagination' shared by a large number of writers in the Romantic period that has its origins in the balloon adventures of the 1780s and following two decades. It will appeal to scholars and students of Romantic cultural history, as well as those interested in Romantic poetry and the history of early aeronautics.

The Sublime Invention Michael R Lynn, 2015-10-06 Ballooning, like the Enlightenment, was a Europe-wide movement and a massive cultural phenomenon. Lynn argues that in order to understand the importance of science during the age of the Enlightenment and Atlantic revolutions, it is crucial to explain how and why ballooning entered and stayed in the public consciousness.

Living with the Dead Rock Scully, 2001 This memoir chronicles the Dead's seminal years: 1965-1985.

A Small Book about Large Group Games Karl Rohnke, 2002 The 23 games and activities included in this small book can be used with small or large groups, but the emphasis is upon how to use or adapt them to large groups (50-500 people). Does the thought of facilitating sessions of 50, 75 or 100+ participants cause you to have a convenient excuse ready as to why . . . that particular date isn't good for me? Perhaps what you need is an experienced guide and a batch of tried and true activities to maneuver through the yips and anxieties of looking at all those faces. The text alternates from regular print to bold. Regular print represents those things you need to know about the activities; rules, venue, etc. Bold print is Karl talking to you about tips and tricks specific to showing up, things to say, situations, what can go wrong, group size, etc. A bonus final chapter by Gloree Rohnke covers the validity, practicality, and usefulness of processing with a large group.

Balloonomania Belles Sharon Wright, 2018-03-31 Award-winning journalist Sharon Wright presents a fascinating account of the fabulous eighteenth and nineteenth-century female pioneers of balloon flight. More than a century before the first airplane took flight, women were heading for the heavens in crazy, inspired contraptions that brought both danger and glory. Women were in the vanguard of the "Balloonomania" craze that took hold in the eighteenth and nineteenth centuries, sweeping across Europe and then the world. Their exploits were a vital element of our first voyages into the sky. In a time when women's lives were often severely limited by law and convention, these intrepid pioneers took on an exhilarating quest for spectacle, adventure, and danger. From the perilous ascent in 1784 by feisty French teenager Elisabeth Thible, female aeronauts have never looked back . . . or down. But who were these brave women who fearlessly—and scandalously—took to the air? In *Balloonomania Belles*, journalist Sharon Wright reveals the hair-raising adventures of the first flying women in a book that celebrates the brightest stars of an extraordinary era in human achievement.

The Imagined Empire Mi Gyung Kim, 2017-03-31 The hot-air balloon, invented by the Montgolfier brothers in 1783, launched for the second time just days before the Treaty of Paris would end the American Revolutionary War. The ascent in Paris—a technological marvel witnessed by a diverse crowd that included Benjamin Franklin—highlighted celebrations of French military victory against Britain and ignited a balloon mania that swept across Europe at the end of the Enlightenment. This popular frenzy for balloon experiments, which attracted hundreds of thousands of spectators, fundamentally altered the once elite audience for science by bringing aristocrats and commoners together. *The Imagined Empire* explores how this material artifact, the flying machine, not only expanded the public for science and spectacle but also inspired utopian dreams of a republican monarchy that would obliterate social boundaries. The balloon, Mi Gyung Kim argues, was a people-machine, a cultural performance that unified and mobilized the people of France, who imagined an aerial empire that would bring glory to the French nation. This critical history of ballooning considers how a relatively simple mechanical gadget became an explosive cultural and political phenomenon on the eve of the French Revolution.

The Lost History of the Lady Aeronauts Sharon Wright, 2021-08-31 "A simply brilliant history that rescues from undeserved obscurity a roster of pioneering women in the very beginning of the age of aviation." -Midwest Book Review From have-a-go Georgians to emancipated Edwardians, the lady aeronauts were actresses, writers, heiresses, scientists, engineers, explorers, showgirls and suffragettes. These unsung trailblazers for female freedom enjoyed lives shot through with sheer courage and joie de vivre. Yet they were all but forgotten. Monkey does not. What will happen next? Hint: this is not a book about sharing. Owl has a red balloon. Monkey does not. "That red balloon matches my shiny red tie," says Monkey. "I'd look fancy walking to school with a shiny red balloon. The only thing I've ever wanted, since right now, is a shiny, big red balloon. It would make me SO HAPPY!" But Owl does not want to give it to him. So Monkey tries to find something that Owl wants: a teddy bear, a robot, a picture of TEN balloons. Owl does not want any of these things.
