Addressing Uncertainty about Future Airport Activity Levels in Airport Decision Making Ian S. Kincaid,2012 This report provides a guidebook on how to develop air traffic forecasts in the face of a broad range of uncertainties. It is targeted at airport operators, planners, designers, and other stakeholders involved in planning, managing, and financing of airports, and it provides a systems analysis methodology that augments standard master planning and strategic planning approaches. This methodology includes a set of tools for improving the understanding and application of risk and uncertainty in air traffic forecasts as well as for increasing overall effectiveness of airport planning and decision making. In developing the guidebook, the research team studied existing methods used in traditional master planning as well as methods that directly address risk and uncertainty, and based on that fundamental research, they created a straightforward and transparent systems analysis methodology for expanding and improving traditional planning practices, applicable through a wide range of airport sizes. The methods presented were tested through a series of case study applications that also helped to identify additional opportunities for future research and long-term enhancements.

Lethal Secrets Pete Earley,2006-05-02 It was thought that during the height of tensions between the Soviet Union and the United States, the KGB may have cleverly smuggled a nuclear bomb into the very heart of Washington D.C. In Pete Earley's new thriller, Lethal Secrets, this bomb is in the hands of a band of Chechen rebels, lead by an insane terrorist, Movladi 'the Viper' Islamov, who's threatening to

detonate it unless his demands are met. The fate of the city rests in the hands of a disgraced deputy U.S. Marshal, Wyatt Conway, who is reluctantly called into action by his FBI and CIA rivals because he was once a friend of Islamov's, before the freedom fighter turned into an international terrorist. But to stop Islamov, Conway must trust Vladimir Khrenkov, a possibly corrupt Russian intelligence agent, and Kimberly Lodge, a skeptical CIA beauty. Conway suspects Khrenkov of being the man who executed a top Russian mobster that Conway was protecting in federal witness protection program. And the CIA's Lodge isn't all that certain Conway is capable of outwitting the terrorists and protecting the capital of the free world. With time running out, Conway must find a way to manipulate and expose Khrenkov, keep Lodge and her bureaucratic cronies off his back, and prevent Islamov from igniting the spark for Armageddon.
