Cyber Law in Bangladesh Mohammad Ershadul Karim,2022-05-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to cyber law – the law affecting information and communication technology (ICT) – in the Bangladesh covers every aspect of the subject, including intellectual property rights in the ICT sector, relevant competition rules, drafting and negotiating ICT-related contracts, electronic transactions, privacy issues, and computer crime. Lawyers who handle transnational matters will appreciate the detailed explanation of specific characteristics of practice and procedure. Following a general introduction, the book assembles its information and guidance in seven main areas of practice: the regulatory framework of the electronic communications market; software protection, legal protection of databases or chips, and other intellectual property matters; contracts with regard to software licensing and network services, with special attention to case law in this area; rules with regard to electronic evidence, regulation of electronic signatures, electronic banking, and electronic commerce; specific laws and regulations with respect to the liability of network operators and service providers and related product liability; protection of individual persons in the context of the processing of personal data and confidentiality; and the application of substantive criminal law in the area of ICT. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable time-saving tool for business and legal professionals alike. Lawyers representing parties with interests in the Bangladesh will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative law in this relatively new and challenging field.

Bangladesh Mikey Leung,Belinda Meggitt,2012 This updated guidebook, with a focus on responsible tourism, offers greater coverage than any other to the Chittagong Hill Tracts where 13 different ethnic groups live, and to the world's largest mangrove forest at the Sundarbans. Personal insights and anecdotes guide trailblazing travellers to those aspects of the country that are almost unknown to visitors - dolphin and whale watching, winter bird-watching in the northern wetlands and golden Bengal's silk and archaeological highlights.

Tourism in Bangladesh: Investment and Development Perspectives Azizul Hassan,2022-01-05 This edited volume uniquely explores the extensive themes and frameworks of tourism development and investment in Bangladesh. The book focuses on outlining the present investment and development scenario of Bangladesh in order to suggest some solutions to current issues. Considering that Bangladesh has a population of over 170 million, the country possesses an abundance of possibilities for tourism. In recent years, Bangladesh has experienced steady growth in

its economy and socio-cultural developments. Currently, there is very limited knowledge of or research into tourism in Bangladesh, even though it is a multifaceted and fast-growing industry. This book makes an important contribution to representing and exploring diverse aspects of tourism in Bangladesh for local and international benefit. This book provides insights into the stronghold of a social class having the ability to spend for tourism and leisure activities, which has prompted the country to pay further attention to the development of its tourism industry. This book emphasizes that the importance of tourism is undeniably on a continuous rise in Bangladesh, which in turn deserves the appropriate attention from academic research.

The Economic Development of Bangladesh in the Asian Century Quamrul Alam, Atiur Rahman, Shibli Rubayat Ul Islam, 2020-11-25 This book explains the macro-drivers of growth behind the economic development of Bangladesh. Few countries in the developing world have shown as exciting a promise of economic prosperity as Bangladesh. The promising nature of the Bangladeshi economy raises interesting questions pertaining to whether good governance may lead to sustained economic growth. This book looks at the strategic interventions on macro-level, specifically the policy interventions. This book will be a useful reference to making sense how economic transformation can be strengthened through state-sponsored activities and how states can inculcate a culture of innovation which can be regarded as one of the underpinnings of economic growth.

Bangladesh's Leather Industry Joseph Strasser, 2015-09-03 This study provides an overview of how the Bangladeshi leather value chain is organised and governed. It analyses how the leather processing and leather goods/footwear subsectors are integrated into the global market and to what extent informal arrangements including illicit practices are conducive to global market entry. Power relations are dissected along the value chain, in order to analyse how local producers adapt to upholding competitiveness. The results of the work show the need to devise upgrading strategies which pay heed to the reality of informal dynamics in a global value chain (GVC) to improve the local producers' competitiveness. The GVC perspective was combined with considerations on upgrading, subcontracting, middlemen and informality to adequately analyse the complexity of the transactions in the chain. The data of this study are drawn from empirical field studies in Dhaka, Bangladesh and other sections of the international leather value chain during the time period of 2010 to 2014. A qualitative research approach was complemented with quantitative methods.

Toward New Sources of Competitiveness in Bangladesh Sanjay Kathuria, Mariem Mezghenni Malouche, 2015-10-20 Bangladesh's ambition is to build on its very solid growth and poverty reduction achievements, and accelerate growth to become a middle income country by 2021, and share prosperity more widely amongst its citizens. This includes one of its greatest development challenges: to provide gainful employment to the over 2 million people that will join the labor force each year over the next decade. Moreover, only 54.1 million of its 94 million working age people are employed. Bangladesh needs to use its labor endowment even more intensively to increase growth and, in turn, to absorb the incoming labor. The Diagnostic Trade Integration Study identifies the following actions centered around four pillars to sustain and accelerate export growth: (1) breaking into new markets

through a) better trade logistics to reduce delivery lags; as world markets become more competitive and newer products demand shorter lead times, to generate new sources of competitiveness and thereby enable market diversification; and b) better exploitation of regional trading opportunities in nearby growing and dynamic markets, especially East and South Asia; (2) breaking into new products through a) more neutral and rational trade policy and taxation and bonded warehouse schemes; b) concerted efforts to spur domestic investment and attract foreign direct investment, to contribute to export promotion and diversification, including by easing the energy and land constraints; and c) strategic development and promotion of services trade; (3) improving worker and consumer welfare by a) improving skills and literacy; b) implementing labor and work safety guidelines; and c) making safety nets more effective in dealing with trade shocks; and (4) building a supportive environment, including a) sustaining sound macroeconomic fundamentals; and b) strengthening the institutional capacity for strategic policy making aimed at the objective of international competitiveness to help bring focus and coherence to the government's reform efforts.

Little Bangladesh Zahir Ahmed, 2021-07-29 This volume presents a comprehensive overview of the Bangladeshi diaspora in USA. Based on case studies from across Southern California, it discusses themes such as economic advantages of migration beyond sociological models of globalization; Bangladeshi diaspora and Little Bangladesh; oral histories of settlement and incoming migrants; imagined homelands in California; emigration and immigration; trans-business and the American Dream; diaspora and social media; Islam and transnationalism; and Bangladeshi Islam in the USA. It explores the trans-global subjectivity and embodied experiences of Bangladeshi migrants as they negotiate economic opportunity, security, and challenges. The book also documents transnational ties that migrants retain; the aspirations and anxieties they face; and what it means to be a Muslim living in the USA in the post-9/11 era. With its rich, multi-sited ethnographic narratives set in transnational studies and studies of globalization, this book will interest scholars and researchers of diaspora studies, migration studies, South Asian studies, political sociology, social anthropology, sociology and political studies, international relations and those interested in Bangladesh.

To All Who Call in Truth Michael Oren,2021-05-11 Sandy Cooper lives an uneventful life as a guidance counselor and coach in a suburban junior high school. Uneventful, that is, until a word of advice to a troubled student embroils him in a forbidden relationship and the exposure of a twisted murder. In this compulsively readable novel reminiscent of Philip Roth's American Pastoral, Michael Oren evokes a time of racial, political, and social turmoil in the 1970s.
